

Shame Glory Of The Intellectuals

Harvey Wish

Shame Glory Of The Intellectuals:

Shame and Glory of the Intellectuals Peter Viereck, 2017-09-12 In this classic volume written at the height of the Cold War with a new preface of 2006 Peter Viereck one of the foremost intellectual spokesmen of modern conservatism examines the differing responses of American and European intellectuals to the twin threats of Nazism and Soviet communism In so doing he seeks to formulate a humanistic conservatism with which to counter the danger of totalitarian thought in the areas of politics ethics and art The glory of the intellectuals was the firm moral stance they took against Nazism at a time when appeasement was the preferred path of many politicians their shame lay in their failure to recognize the brutality of Stalinism to the extent of becoming apologists for or accomplices of its tyranny In Viereck's view this failure is rooted in an abandonment of humane values that he sees as a legacy of nineteenth century romanticism and certain strands of modernist thought and aesthetics Among his targets are literary obscurantism as personified by Ezra Pound the academicization of literary culture the rigidity of adversarial avant gardism and the failure of many writers and cultural institutions to conserve the very heritage their political freedom and security depend on Viereck represents their attitude in a series of satirical dialogues with Gaylord Babbitt son of Sinclair Lewis embodiment of conservative philistinism Babbitt Junior is as unreflective as his father but the objects of his credulity are the received ideas of liberal progressivism and avant garde mandarinism Shame and Glory of the Ultimately Viereck's critique stands as a timely rebuke to the extremism of both left and right Intellectuals Peter Viereck, Shame and Glory of the Intellectuals P. R. E. Viereck, 1953 Shame and Glory of the Intellectuals: Babbit Jr. Vs, the Rediscovery of Values Peter Robert Edwin Viereck, 1965 Shame and glory of the

intellectuals Peter Viereck,1953 The Conservative Intellectual Movement in America Since 1945 George H.

Nash,2023-03-28 First published in 1976 George H Nash's celebrated history of the postwar conservative intellectual movement has become the unquestioned standard in the field This new edition published in commemoration of the book's thirtieth anniversary includes a new preface and conclusion by the author and will continue to instruct anyone interested in how today s conservative movement was born Conservatism Revisited Peter Viereck,2017-07-05 Peter Viereck poet and historian is one of the principle theoreticians of conservatism in modern American political thought In this classic work Viereck undertakes a penetrating and unorthodox analysis of that quintessential conservative Prince Metternich and offers evidence that cultural and political conservatism may perhaps be best adapted to sustain a free and reasonable society According to Viereck's definition conservatism is not the enemy of economic reform or social progress nor is it the oppressive instrument of the privileged few Although conservatism has been attacked from the left and often discredited by exploitation from the right it remains the historic name for a point of view vital to contemporary society and culture Divided into three parts the book opens with a survey of conservatism in its cultural context of classicism and humanism Rejecting the blind alley of reaction Viereck calls for a discriminating set of principles that include preservation through reform self expression

through self restraint a fruitful nostalgia for the permanent beneath the flux and a preference for historical continuity over violent rupture Viereck locates our idea of Western political unity in Metternich's Concert of Europe whose goal was a cosmopolitan Europe united in peace This ideal was opposed by both the violent nationalism that resulted in Nazism and the socialist internationalism that became a tool of Soviet Russian expansionism While not ignoring the extremely negative aspects of Metternich's legacy Viereck focuses on his attempts to tame the bellicosity of European nationalism and his little known efforts to reform and modernize the Hapsburg Empire **Pragmatic Conservatism** Robert J. Lacey, 2016-08-05 This book is a study of pragmatic conservatism an underappreciated tradition in modern American political thought whose origins can be located in the ideas of Edmund Burke Beginning with an exegesis of Burke's thought it goes on to show how three twentieth century thinkers who are not generally recognized as conservatives Walter Lippmann Reinhold Niebuhr and Peter Viereck carried on the Burkean tradition and adapted it to American democracy Pragmatic conservatives posit that people sinful by nature require guidance from traditions that embody enduring truths wrought by past experience Yet they also welcome incremental reform driven by established elites judiciously departing from precedent when necessary Mindful that truth is never absolute they eschew ideology and caution against both bold political enterprises and stubborn apologies for the status quo The book concludes by contrasting this more nuanced brand of conservatism with the radical version that emerged in the wake of the post war Buckley revolution The Failure of American Conservatism Claes G. Ryn, 2023-02-21 A Powerful Profound Assessment of Conservatism and America An impressive burst of creativity gave rise to a vigorous conservative intellectual movement in the United States after the Second World War Yet according to Claes Ryn the great potential of the movement was not realized because of major flaws. The movement became preoccupied with politics to the neglect of academia history philosophy religion morality the arts and entertainment In the 1980s when Ronald Reagan won great political victories the movement celebrated the triumph of conservatism but this reaction confirmed a superficial understanding of what most fundamentally shapes society Developments in the culture were actually radicalizing the American mind and imagination and eroding America's constitutional order Conservatism also resisted intellectual discourse of the most rigorous kind and failed to make crucial distinctions Paradoxically it even made room for abstract universalist ideology including Straussian anti historicism and neoconservative imperialistic democratism Ryn was a very early critic of all these weaknesses The Failure of American Conservatism analyzes these weaknesses in depth It explains the current disorientation of conservatism and why cancel culture and Woke were predictable Mixing new and previously published writing the book bristles with provocative ideas It sets forth its own strongly argued view of how to understand and address Political Pilgrims, 1978 Hvad var det der fr kendte vestlige intellektuelle til at beundre forskellige America s crisis kommunistiske systemer og forkaste deres egne landes liberale Hvorfor s ge idealer i fjerne ikke s godt kendte lande The New Radicalism in America 1889-1963 Christopher Lasch, 1997 Around the turn of the century the American liberal

tradition made a major shift away from politics The new radicals were more interested in the reform of education culture and sexual mores Through vivid biographies Christopher Lasch chronicles these social reformers from Jane Addams Mabel Dodge Luhan and Lincoln Steffens to Norman Mailer and Dwight MacDonald **Unadjusted Man in the Age of Overadjustment** , The great critic Peter Viereck in a volume that both reproduces an earlier effort and presents an entirely new work on the intersection of history and literature offers a biting critique of the American desire for normalcy that leads to a culture of the surrender of personality In contrast to this voluntary thought control process is the unadjusted person Cast in the mold of great individualists from Thomas More to Friedrich Nietzsche such a person responds to fundamental values of conscience rather than conformity built exclusively on ego gratification and icon worship Viereck's book is a stinging critique of the liberal presumption of a monopoly in critical thought He argues to the contrary that most varieties of liberal expression offer little else than the common platitude dressed up as critique In such a cultural environment conservatism is the skeleton in the liberal closet The virtue of conservatism is that in its very stress on liberty as dependent on tradition and law it permits the human being an opportunity to test all transient things by the touchstone of all lasting ideas Unadjusted Man cuts deep and in many directions against left totalitarian regimes of Europe and right wannabes like McCarthyism in America For Viereck the art of conserving is not an embrace of utopias to come or empires that were but retaining the sense of individuality over against the senselessness of the massman Civil liberties in this approach are a right to non conspiratorial dissent informed by fundamental values The new material is presented unabashedly without an attempt to rewrite personal history and with an admission that not every prediction made in the original edition has come to fruition That said the underlying themes of the original are not so much repeated as expanded upon For those seeking a work in the classic mold of conservatism rather than the strident reactionary views that have come to dominate much of the conservative dialogue this will be a special book a special entrance to the mind of a great figure in American culture wars of present as well as past

The Ukrainian Intelligentsia and Genocide, Victoria A. Malko,2021-10-19 This study focuses on the first group targeted in the genocide known as the Holodomor Ukrainian intelligentsia the brain of the nation using the words of Raphael Lemkin who coined the term genocide and enshrined it in international law The study's author examines complex and devastating effects of the Holodomor on Ukrainian society during the 1920 1930s Members of intelligentsia had individual and professional responsibilities. They resisted but eventually they were forced to serve the Soviet regime Ukrainian intelligentsia were virtually wiped out most of its writers and a third of its teachers. The remaining cadres faced a choice without a choice if they wanted to survive The author analyzes how and why this process occurred and what role intellectuals especially teachers played in shaping contesting and inculcating history Crucially the author challenges Western perceptions of the all Union famine that was allegedly caused by ad hoc collectivization policies highlighting the intentional nature of the famine as a tool of genocide persecution and prosecution of the nationally conscious Ukrainian intelligentsia clergy and grain growers

The author demonstrates the continuity between Stalinist and neo Stalinist attempts to prevent the crystallization of the nation and subvert Ukraine from within by non lethal and lethal means Political Pilgrims Paul Hollander, 2017-07-05 Why did so many distinguished Western Intellectuals from G B Shaw to J P Sartre and closer to home from Edmund Wilson to Susan Sontag admire various communist systems often in their most repressive historical phases How could Stalin's Soviet Union Mao s China or Castro s Cuba appear at one time as both successful modernizing societies and the fulfillments of the boldest dreams of social justice Why at the same time had these intellectuals so mercilessly judged and rejected their own Western liberal cultures What Impulses and beliefs prompted them to seek the realization of their ideals in distant poorly known lands How do their journeys fit into long standing Western traditions of looking for new meaning In the non Western world These are some of the questions Paul Hollander sought to answer In his massive study that covers much of our century His success is attested by the fact that the phrase political pilgrim has become a part of intellectual discourse Even in the post communist era the questions raised by this book remain relevant as many Western and especially American intellectuals seek to come to terms with a world which offers few models of secular fulfillment and has tarnished the reputation of political Utopias His new and lengthy introduction updates the pilgrimages and examines current attempts to find substitutes for the emotional and political energy that used to be invested in them **Aesthetic Origins** Jay Patrick Starliper, 2017-07-28 While it is gaining in academic prominence discussion of the imagination is too often neglected Society is dangerously unaware of the intimate relationship between culture and politics ethics and aesthetics Challenging this Jay Patrick Starliper examines the imagination through the lens of the work of Peter Viereck and other likeminded thinkers The result is a philosophical deconstruction that demonstrates why books are bullets In 1941 before Nazi barbarism was public knowledge a young Peter Viereck published Metapolitics From Wagner and the German Romantics to Hitler In it Viereck attacked the diabolical spiritual foundations of National Socialism He made the ostensibly absurd claim that a certain shade of romanticism was the ethical foundation of a German revolt against decency According to Viereck Nazism was the culmination of over a century and a half of bad culture the result of an idyllic imagination Starliper warns that the same diseased imagination that culminated in gas chambers and guillotines is subtly affecting the way millions of people view the world today and that without the inspiration of an elevated aesthetic civilization will not survive In the spirit of Edmund Burke and Irving Babbitt Viereck's insight into the ethical and political force of aesthetics provides a much needed critique of contemporary civilization Elements of Self Improvement; comprising a familiar view of the intellectual powers and moral characteristics of human nature Thomas FINCH (Dissenting Minister at Harlow.),1822 Readinas in Society and Thought in Modern America Harvey Wish, 1966 Up from Conservatism Michael Lind, 2013-08-06 For nearly a decade Michael Lind worked closely as a writer and editor with the intellectual leaders of American conservatism Slowly he came to believe that the many prominent intellectuals he worked with were not the leaders of the conservative movement but the followers and apologists for an increasingly divisive and reactionary political strategy orchestrated by the Republican party Lind's disillusionment led to a very public break with his former colleagues on the right as he attacked the Reverend Pat Robertson for using anti Semitic sources in his writings In Up From Conservatism this former rising star of the right reveals what he believes to be the disturbing truth about the hidden economic agenda of the conservative elite The Republican capture of the U S Congress in 1994 did not represent the conversion of the American public to conservative ideology Rather it marked the success of the thirty year old southern strategy begun by Barry Goldwater and Richard Nixon From the Civil War to the civil rights revolution the southern elite combined a low wage low tax strategy for economic development with a politics of demagogy based on race baiting and Bible thumping Now Lind maintains the economic elite that controls the Republican party is following a similar strategy on a national scale using their power to shift the tax burden from the rich to the middle class while redistributing wealth upward To divert attention from their favoritism toward the rich conservatives play up the culture war channeling popular anger about falling real wages and living standards away from Wall Street and focusing it instead on the black poor and nonwhite immigrants The United States Lind concludes could use a genuine one nation conservatism that seeks to promote the interests of the middle class and the poor as well as the rich But today s elitist conservatism poses a clear and present danger to the American middle class and the American republic

Buckley Sam Tanenhaus, 2025-06-03 A magnificent achievement a long gripping and enthralling account of the life of America's premier conservative polemicist of the twentieth century Max Boot author of Reagan His Life and Legend A rich immersive biography exposes the roots of the modern conservative movement through the life of the firebrand writer and commentator who shaped it The New York Times Book Review Editors Choice In 1951 with the publication of God and Man at Yale a scathing attack on his alma mater twenty five year old William F Buckley Jr seized the public stage and commanded it for the next half century as he led a new generation of conservative activists and ideologues to the peak of political power and cultural influence Ten years before his death in 2008 Buckley chose prize winning biographer Sam Tanenhaus to tell the full uncensored story of his life and times granting him extensive interviews and exclusive access to his most private papers Thus began a deep investigation into the vast and often hidden universe of Bill Buckley and the modern conservative revolution Buckley vividly captures its subject in all his facets and phases founding editor of National Review the twentieth century s most influential political journal syndicated columnist Emmy winning TV debater and bestselling spy novelist ally of Joseph McCarthy and Barry Goldwater mentor to Ronald Reagan game changing candidate for mayor of New York Tanenhaus also has uncovered the darker trail of Bill Buckley's secret exploits including CIA missions in Latin America dark collusions with Watergate felon Howard Hunt and Buckley's struggle in his last years to hold together a movement coming apart over the AIDS epidemic culture wars and the invasion of Iraq even as his own media empire was unraveling At a crucial moment in American history Buckley offers a gripping and powerfully relevant story about the birth of modern politics and

those who shaped it **Morality and Public Life in a Time of Change** Vasil Prodanov, Asen Davidov, 1994
