Imperialism in Modern Japan Emily Anderson,2014-10-23 Christianity and Imperialism in Modern Japan explores how Japanese Protestants engaged with the unsettling changes that resulted from Japan's emergence as a world power in the early 20th century Through this analysis the book offers a new perspective on the intersection of religion and imperialism in modern Japan Emily Anderson reassesses religion as a critical site of negotiation between the state and its subjects as part of Japan's emergence as a modern nation state and colonial empire The book shows how religion including its adherents and the state's attempts to determine acceptable belief is a necessary subject of study for a nuanced understanding of modern Japanese history *From Kaifeng to Shanghai* Roman Malek,2017-07-05 The collection presents the proceedings of the international colloquium held in Sankt Augustin in 1997 and additional materials The articles are written in English German or Chinese with English abstracts The volume includes a general index with glossary The Trading Crowd Ellen

Hertz,1998-06-18 In 1992 there was an explosion of stock fever in Shanghai From the moment I set foot in Shanghai until my last day there people from all walks of life wanted to talk to me about the market Ellen Hertz writes Her 1998 study sets the stock market and its players in the context of Shanghai society and it probes the dominant role played by the state which has yielded a stock market very different from those of the West A trained anthropologist she explains the way in which investors and officials construct a moral storyline to make sense of this great structural innovation identifying a struggle between

three groups of actors the big investors the little investors and the state to control the market *Managing Transitions*
Gerry Groot,2004-02-24 *Managing Transitions* examines the history and roles of China's minor parties and groups MPGs in the Chinese Communist Party's CCP united front between the 1930s and 1990s using Antonio Gramsci's principles for the winning and maintaining of hegemony Gramsci advocated a war of position the building of political alliances to isolate existing state powers and win consent for revolutionary rule and transform society Economic reform is now creating new socio-economic groups and the CCP is adjusting the united front and the MPGs to co-opt their representatives and deliberately forestall the evolution of an autonomous civil society and middle class which could challenge CCP rule This has resulted in a new and expanding role for the united front the MPGs and organisations representing the new interest groups
