Bombay Novels Mamta Mantri, 2019-01-15 Mumbai Bombay How do we explain this city and ourselves within it How do the city and the city dweller together allow for representations of urban life to arise in literature and the fine arts This book is an understanding of Mumbai both as an architectural and literary space through the lens of spatial criticism and the technique of flânerie As an icon of experiences Mumbai is felt through the simultaneous acts of walking observing remembering and articulating In analyzing four novels namely Baumgartner's Bombay Ravan and Eddie Shantaram and Baluta the book claims that the characters and their authors offer an alternative vision of the city as they also construct a transient place for themselves This act of flânerie is an act of transgression as it turns the outside into the inside changing public space into private space As the characters serve to disrupt meaning uncover hidden histories and expose power relations involved in the representation of place they actualize many possibilities and meanings Using the novel as a literary device the authors have told stories not only of the protagonist flâneur but also of people around them sometimes in detail sometimes in passing In contesting claiming and owning the lives the stories and the city the humane aspect is never forgotten

Conference a major conference that has run since 2002 This collection fills an important gap in the market by having a truly global focus Joan Fitzpatrick's *The Idea of the City* represents a fascinating snapshot of the current state of literary urban studies Conference proceedings can often seem diffuse or tokenistic but this collection offers unity on several levels For a start many of the contributors ask similar questions of their material approaching it with an informed awareness of the ways in which the city has been theorised as well as actually traversed from the medieval period to the present While one would expect work of this type and standard from established and widely published scholars such as Pamela Gilbert and Julian Wolfreys it is refreshing to see how new researchers are blending the cartographic with the psychological to raise important questions about the perception analysis and mythologisation of urban and metropolitan space The collection is impressively eclectic ranging from Petrarch's Avignon to modern Los Angeles and from 18th century Lichfield to operatic reimaginings of Venice As I said however the collection is unified at a deep level by the contributors shared interest in city writing and by their conviction that there is a complex relationship between space place and self This means that the book would be of use and interest to those working on individual writers including contemporary novelists such as Niall Griffiths on whom little has yet been published and in the more general areas of urban and cultural studies and critical theory The collection as a whole allows the reader to revisit the ideas of influential works from the previous decade such as Keith Tester's *The Flâneur* 1994 Sophie Watson and Katherine Gibson's *Postmodern Cities and Spaces* 1995 and Susana Onega and John Stotesbury's *London in Literature Visionary Mappings of the Metropolis* 2002 It is therefore both a useful round up of established ideas from various city centred disciplines and a starting point for the fresh consideration of enduringly suggestive material Dr Nick Freeman Loughborough University Author of *Conceiving the City London Literature and Art 1870 1914* In this substantial volume the editor has assembled an international line up of scholars working on the city from the Renaissance to the present This is an important and timely work that has depth as well as breadth Interdisciplinary and cross period collections like this which straddle several historical periods run the risk of appealing only in part to coherent scholarly communities but Dr Fitzpatrick has structured the collection in a way which plays to the strength of critics working within particular periods while clearly displaying the latticework of links between the book's strongly marked sections There is an excellent balance between historical and theoretical readings between textual and contextual approaches and between interventions that are author or text based and those that deal with broader themes and issues The range of contributors is matched by the richness and variety of perspectives I would strongly recommend this book to students working in the early modern period and also to those interested in modern developments It is a comprehensive intelligently organized and richly researched volume that is likely to be well received well reviewed and well read I will certainly be ordering copies for my own University library and including it on reading lists for future courses Professor Willy Maley University of Glasgow

Existentialist Themes and Education Rivca Gordon, Haim Gordon, 2012 The existentialists presented a philosophical

approach which raised questions and illustrated ideas that addressed the grounds and essence of human existence Among the questions were those that related to the essences of truth being human existence freedom and of love The major purpose of this book is the attempt to counter the expansive reign of the passion for the mediocre The authors hold that the widespread acceptance of mediocrity effaces all excellence degrades everyday human existence and ruins spiritual life The manner here of countering mediocrity is to present and carefully think about the thought provoking questions and enlightening ideas which existentialists brought up and studied The first section of this book looks at the relevance of three existentialist ideas for life in society These being beauty the revolt of the masses and friendship In the second section the book brings forth ideas that should enrich educational thought and enhance teaching The last part addresses learning as a personally enhancing process Rivca Gordon is an independent scholar who has co authored six books with Haim Gordon She has also published articles on existentialist philosophy and existentialist thinking in professional journals
