Knowing Future Time In and Through Greek Historiography Alexandra Lianeri,2016-03-07 From the early modern period Greek historiography has been studied in the context of Cicero's notion *historia magistra vitae* and considered to exclude conceptions of the future as different from the present and past Comparisons with the Roman Judeo Christian and modern historiography have sought to justify this perspective by drawing on a category of the future as a temporal mode that breaks with the present In this volume distinguished classicists and historians challenge this contention by raising the question of what the future was and meant in antiquity by offering fresh considerations of prognostic and anticipatory voices in Greek historiography from Herodotus to Appian and by tracing the roots of established views on historical time in the opposition between antiquity and modernity They look both at contemporary scholarly argument and the writings of Greek historians in order to explore the relation of time especially the future to an idea of the historical that is formulated in the plural and is always in motion By reflecting on the prognostic of historical time the volume will be of interest not only to classical scholars but to all who are interested in the history and theory of historical time

Hidden in Plain Sight David K. Leff,2012-07-10 The art of discovering cultural and natural treasures in everyday landscapes In the course of the mundane routines of life we encounter a variety of landscapes and objects either ignoring them or looking without interest at what appears to be just a tree stone anonymous building or dirt road But the deep traveler according to Hartford Courant essayist David K Leff doesn't make this mistake Instead the commonplace elements become the most important By learning to see the magic in the mundane we not only enrich daily life with a sense of place we are more likely to protect and make those places better Over his many years working at the Connecticut Department of Environmental Protection and writing about the state's landscape Leff gained unparalleled intimacy while traveling its byways and back roads In *Hidden in Plain Sight* Leff's essays and photographs take us on a point by point journey revealing the rich stories behind many of Connecticut's overlooked landmarks from the Merritt Parkway and Cornwall's Cathedral Pines to roadside rock art and centuries old milestones

The Annihilation of Hell Nicholas Ansell,2014-07-08 This work analyses and evaluates Jurgen Moltmann's model of universal salvation and its relation to his understanding of the redemption or eschatological fulfilment of time For Jurgen Moltmann Hell is the nemesis of Hope The Annihilation of Hell thus refers both to Hell's annihilative power in history and to the overcoming of that power as envisioned by Moltmann's distinctive theology of the cross in which God becomes all in all through Christ's descent into Godforsakenness The negation of Hell and the fulfilment of history are inseparable Attentive to the overall contours and dynamics of Moltmann's thinking especially his *zimizum* doctrine of creation his eschatologically oriented philosophy of time and his expanded understanding of the nature grace relationship this study asks whether the universal salvation that he proposes can honour human freedom promise vindication for those who suffer and do justice to biblical revelation As well as providing an in depth exposition of Moltmann's ideas *The Annihilation of Hell* also explores how a covenantal universalism

might revitalise our web of beliefs in a way that is attuned to the authorising of Scripture and the spirituality of existence If divine and human freedom are to be reconciled as Moltmann believes the confrontation between Hell and hope will entail rethinking issues that are not only at the centre of theology but at the heart of life itself *Amatoria* Jason

Potter,2022-01-04 *Amatoria* is partly a disclosure partly a veil and partly a revelation incorporating the poetic discovery of God as experienced by the living and the dying alike Man knows nothing of death and love until he is clothed in such yet God is always willing to facilitate the transport of life out of one and into the other *Amatoria* is sublime in its obscurity It has been well said that the devil led the author a little way farther up in the medulla of the brain But it is enough to know that in the self indulgent disorder of the 21st century God still kills the old way **Neural Suitcase Tells the Tales of Many**

Takle, 2024-09-10 Today s generations can affect the future ecosystem more than any previous generations and aggravate the welfare of future people People who have not yet been born are excluded from political decisions important to their lives Due to the future generations lack of influence current generations have a responsibility to act The current generation s responsibility for the well being of future generations has been used as an argument for an increasing number of legislative and policy measures across the world but are rarely followed up in practice This book examines when commitments to future generations are followed up in practice and in what situations they are not A concept of solidarity with future generations is developed and applied to four policy areas the UN 2030 Agenda national political institutions for future generations constitutions and climate lawsuits and regulations of economic debt or savings for future generations Germany and Norway are selected as cases to evaluate what the commitments might entail in practice The book highlights where the gaps emerge and what needs to be done The failing transition from the global to the national level highlights a need for stronger cosmopolitan elements in the international political system Institutional bindings are generally weak at the national level Financial restrictions show it is possible to establish strong institutional constraints but the focus on financial resources is too narrow Both national and global institutional bindings must be strengthened to show social solidarity with future generations **Shapes of Time** Michael McGillen, 2023-12-15

Shapes of Time explores how concepts of time and history were spatialized in early twentieth century German thought Michael McGillen locates efforts in German modernism to conceive of alternative shapes of time beyond those of historicism and nineteenth century philosophies of history at the boundary between secular and theological discourses By analyzing canonical works of German modernism those of Karl Barth Franz Rosenzweig Siegfried Kracauer and Robert Musil he identifies the ways in which spatial imagery and metaphors were employed to both separate the end of history from a narrative framework and to map the liminal relation between history and eschatology Drawing on theories and practices as disparate as constructivism non Euclidean geometry photography and urban architecture *Shapes of Time* presents original connections between modernism theology and mathematics as played out within the canon of twentieth century German letters Concepts of temporal and spatial form

McGillen contends contribute to the understanding not only of modernist literature but also of larger theoretical concerns within modern cultural and intellectual history **The Future Past of Tourism** Ian Yeoman,Una

McMahon-Beattie,2019-12-06 This book offers a critical account of the historical evolution of tourism through the identification and discussion of key turning points Based on these considerations future turning points are identified and evaluated The volume provides a continuum between the past and future of tourism Its central themes are the globalisation of tourism the development of destinations the importance of mobility and transport the development of the modern hotel the diversification of niche tourism and the conceptualisation of the past and future of tourism using the evolutionary paradigm in future studies The core findings of the book provide the first perspective on how the history of tourism will shape its future

Shapes Of Shiny Brow Bruce Rimell,2024-02-16 everyone s got something to say with your mouth even me A hyperactive idiosyncratic and deeply personal journey into the mercurial Welsh poet prophet figure of Taliesin framed as a magical pilgrimage around Llyn Geirionydd in North Wales evoking the lake and its waters as the bard s own cauldron from which he continually emerges in different historical mythical and fictional guises sometimes dreams are wiser than the waking Unfolding layers of meaning from the protohistorical cynfardd of the Old North to the radiant brow of medieval legend as well as Taliesin s contemporary significance and links with other cultures this crazed garrulous exploration runs through the archetypal Celtic poet s hall of mirrors with eccentric wit and blazing energy stand behind the cataract unbound close my eyes hear me I speak Culminating in a wildly subjective underwater encounter with Talioastinos and the watis two timeless and interrelated forerunners of the Taliesin mythos and a forested fall into the mindset of the visionary poet who experiences no separation between self and other this book is likely to be one of the most riddling esoteric and obscure treatments of Taliesin ever released I am one who waits says I am one who watches says I am one who wanders off away says Cultural Heritage and the Future Cornelius Holtorf,Anders Högberg,2020-12-10 Cultural Heritage and the Future brings together an international group of scholars and experts to consider the relationship between cultural heritage and the future Drawing on case studies from around the world the contributing authors insist that cultural heritage and the future are intimately linked and that the development of futures thinking should be a priority for academics students and those working in the wider professional heritage sector Until recently the future has never attracted substantial research and debate within heritage studies and heritage management and this book addresses this gap by offering a balance of theoretical and empirical content that will stimulate multidisciplinary debate in the burgeoning field of critical heritage studies Cultural Heritage and the Future questions the role of heritage in future making and will be of great relevance to academics and students working in the fields of museum and heritage studies archaeology anthropology architecture conservation studies sociology history and geography Those working in the heritage professions will also find much to interest them within the pages of this book
