## Shaping Survival:

**The Politics of Trauma** Staci K. Haines, 2019-11-19 An essential tool for healers therapists activists and trauma survivors who are interested in a justice centered approach to somatic transformation The Politics of Trauma offers somatics with a social analysis This book is for therapists and social activists who understand that trauma healing is not just for individuals and that social change is not just for movement builders Just as health practitioners need to consider the societal factors underlying trauma so too must activists understand the physical and mental impacts of trauma on their own lives and the lives of the communities with whom they organize Trauma healing and social change are at their best interdependent Somatics has proven to be particularly effective in addressing trauma but in practice it typically focuses solely on the individual failing to integrate the social conditions that create trauma in the first place Staci K Haines somatic innovator and cofounder of generative somatics invites readers to look beyond individual experiences of body and mind to examine the social political and economic roots of trauma including racism environmental degradation sexism and poverty Haines helps readers identify understand and address these sources of trauma to help us bridge individual healing with social transformation

*Shaping the Futures of Work* Nilanjan Raghunath, 2021-09-15 The widespread belief that tech savvy educated millennials are well positioned to handle the challenges of the fourth industrial revolution is unfounded It does not fully grasp the reality of a flux society where relevant technological skills and knowledge are continuously changing no one is permanently tech savvy Millennials like other generations face the challenge of needing to continually reskill This has compounded their struggle to begin their careers at a point when there is no longer any guarantee of lifetime employment or retirement at a set age *Shaping the Futures of Work* is a timely sociological exploration of the impact of technological innovations on employment Nilanjan Raghunath proposes that stakeholders such as states enterprises and citizens hold equally important roles in ensuring that people can adapt innovate and thrive within conditions of flux A promising model focuses on collaboration and proactive governance While good governance includes citizen engagement proactive governance goes one step further creating inclusive policies roadmaps and infrastructure for social and economic progress This book reveals that lifelong learning and adaptability are imperative even for well educated professionals Using Singapore and Singaporean millennials as a case study Raghunath examines proactive governance and delivers research and analysis to elucidate career trajectories pointing to a work ethic that aims to engage with technological futures Looking at local and global sociological literature to confirm the need for proactive governance *Shaping the Futures of Work* suggests that Singaporean millennials and professionals around the world need to better prepare themselves for flux risk failure and reinvention for career mobility

**Shaping China's Future In World Affairs** Robert G Sutter, 2019-06-26 This book considers Chinese foreign policy and China's future role in world affairs in the context of the country's recent past Robert Sutter shows that although it appears to be in U S interests for post Mao leaders to continue moving toward international

norms a post Deng leadership backed by growing economic and military power and reflecting profound changes in China's economy and society could move in markedly different directions. Most foreign powers appear willing to accommodate China avoiding actions that could prompt a sharp shift in Chinese foreign policy but Sutter argues that current U.S. policy intrudes on so many issues that are particularly sensitive for Beijing and for China's future that it represents perhaps the most critical variable determining how China will position itself in world affairs. Concluding that there is no guarantee the United States will use this influence wisely Sutter examines the uncertainty and unpredictability of U.S. foreign policy in the post Cold War environment that work against the creation of an effective U.S. policy toward China.

*Principles of an Epistemology of Values* Marià Corbí, 2015-10-12 This book addresses the need to create an axiological epistemology. This term refers to knowledge of what is axiological i.e. everything related to human values and the know how on how to manage the study of values. In knowledge societies we know and live axiological projects that we do not receive from anyone but that we must construct ourselves in a situation of continuous change. In view of the fact that the axiological crisis in which we are immersed is the most serious one that humanity has suffered over its long history the seriousness and urgency of the issue in question is evident. Adequate knowledge is required to solve this problem which is at the root of all the problems we are experiencing. This work offers a potential solution that in contrast to the past cannot be definitive but must be transformed throughout the continuous changes to ways of life as a result of technoscience. It will prove of great value to all those who must operate within human values and motivate groups as well as to those interested in spirituality.

*Plasma Membrane Shaping* Shiro Suetsugu, 2022-09-08 Plasma Membrane Shaping summarizes current knowledge on how cells shape their membrane. Organized in four sections the book opens with a broad overview of the plasma membrane its composition usual shapes and substructures. Actin WASP arp2/3 structures BAR domains and Ankyrin repeat domains dynamin and phospholipid signaling. Other sections cover the shaping of the plasma membrane for transport processes discussions on exosomes microvesicles and endosomes clathrin coated pits caveolae and other endocytic pits membrane deformation for cell movement and some of the most current dry and wet lab research techniques to investigate cellular membrane shaping. This is an ideal resource for new researchers coming into this area as well as for graduate students. The methods section will be of interest to both microscopists and computer scientists dedicated to the visualization data collection and analysis of plasma membrane shaping experiments. Covers membrane shaping for both cytosin and cell movement. Includes dry and wet lab research methods of plasma membrane shaping. Describes the molecular machinery involved with protein and lipid balance in the plasma membrane. Presents the coordination of cellular structures involved in cell deformation and motion.

**The Power of Pull** John Hagel III, John Seely Brown, Lang Davison, 2010-04-13 In a radical break with the past information now flows like water and we must learn how to tap into its stream. Individuals and companies can no longer rely on the stocks of knowledge that they've carefully built up and stored away. Information now flows like water and we must learn how to tap

into the stream But many of us remain stuck in old practices practices that could undermine us as we search for success and meaning In this revolutionary book three doyens of the Internet age whose path breaking work has made headlines around the world reveal the adjustments we must make if we take these changes seriously In a world of increasing risk and opportunity we must understand the importance of pull Understood and used properly the power of pull can draw out the best in people and institutions by connecting them in ways that increase understanding and effectiveness Pull can turn uncertainty into opportunity and enable small moves to achieve outsized impact Drawing on pioneering research The Power of Pull shows how to apply its principles to unlock the hidden potential of individuals and organizations and how to use it as a force for social change and the development of creative talent The authors explore how to use the power of pull to Access new sources of information Attract likeminded individuals from around the world Shape serendipity to increase the likelihood of positive chance encounters Form creation spaces to drive you and your colleagues to new heights Transform your organization to adapt to the flow of knowledge The Power of Pull is essential reading for entrepreneurs managers and anybody interested in understanding and harnessing the shifting forces of our networked world

**Surviving the Islamic State** Austin Knappe, 2024-07-02 How did ordinary Iraqis survive the occupation of their communities by the Islamic State How did they decide whether to stay or flee to cooperate or resist Based on an original survey from Baghdad alongside key interviews in the field this book offers an insightful account of how Iraqis in different areas of the country responded to the rise and fall of the Islamic State Austin J Knappe argues that people adopt survival repertoires a variety of social practices tools organized routines symbols and rhetorical strategies to navigate wartime violence and detect threats He traces how repertoires varied among different communities over the course of the conflict In areas insulated from insurgent control such as cosmopolitan Baghdad local residents had the flexibility to support coalition forces while also voicing opposition to government policies For Iraqis in rural communities confronting insurgent control collaboration and resistance entailed significant risks In Sunni majority communities in the western desert passive acquiescence and active cooperation temporarily insulated Iraqis from insurgent victimization For ethnic and religious minorities in the north however flight or resistance proved the only viable options In many communities local residents mobilized neighborhood self defense groups and militias loosely aligned with coalition forces once the tides turned against the Islamic State Beyond contributing to academic and policy debates about civilian protection during wartime Surviving the Islamic State foregrounds everyday people s experiences while modeling an ethical approach for conducting field research in conflict affected communities

**The Shape of Irish History** A.T.Q. Stewart, 2001-10-10 In an exploration of the essential structure of what is called Irish history A T Q Stewart looks at some shadowy areas and asks provocative questions about popular misconceptions Even

where such misconceptions have been refuted by academic research Stewart argues the information has not percolated into the general domain because modern historians writing mainly for one another have lost the wider audience Criticizing his own profession for purporting to be scientific while largely ignoring the implications of for example scientific archaeology Stewart also opens up the closed shop of Irish history for the general reader The result is a landmark book the terrain of Irish history will never be the same again The Routledge Handbook of Mindshaping Tadeusz Wiesław Zawidzki, Rémi Tison, 2025-05-29 Of all species human beings are uniquely capable of coordinating on long term large scale cooperative projects with unfamiliar and genetically unrelated others According to the mindshaping hypothesis this relies on mechanisms and practices like imitation pedagogy normative cognition and narrative self constitution which shape us into expert coordinators without requiring time consuming and epistemically fraught attempts to read each other's minds Mindshaping has been applied to many areas of inquiry including game theory shared agency communication the ontogeny of human cognition the dissemination of scientific knowledge in popular media mental illness and the influence of social media technologies The Routledge Handbook of Mindshaping is the first volume of its kind Comprising 37 chapters by an international team of leading scholars this Handbook is organised into seven sections Mindshaping and coordination Mindshaping and cognitive psychology Mindshaping and normativity Mindshaping and epistemology Social and political dimensions of mindshaping Nonhuman mindshaping Mindshaping applied Within these sections key topics are addressed including game theory social signalling and shared agency folk psychology the emotions language acquisition and memory stereotyping and consciousness raising moral agency self knowledge rationality epistemic norms primate sociality human elephant relations artificial intelligence mental illness and neurodiversity aesthetic expression and politics An outstanding survey of a vibrant and emerging field The Routledge Handbook of Mindshaping will be of great interest to those studying and researching philosophy of psychology philosophy of cognitive science philosophy of mind and applied epistemology It will also be of interest to those in related disciplines such as cognitive psychology sociology and anthropology *Colonized Bodies, Worlds Transformed* Melissa S. When Food Became Scarce Yixin Chen,2024-08-15 When Food Became Scarce is about the Great Leap Famine of 1958 61 Yixin Chen adopts a grassroots level analysis to explore an existential question concerning hundreds of millions of Chinese peasants why did some peasants perish while others from the same villages facing the same collective problems of food scarcity survive Viewing the famine as a persistent ordeal Chen identifies environment and lineage as two pivotal factors that influenced the rural populace s destiny When food quotas under the Maoist communal dining system plummeted below subsistence or came to a halt most individual villagers in the mountainous regions of southern China turned to their environment for alternative sustenance ensuring their survival More remarkably across the nation more peasants united in self preservation strategies concealing grains to elude excessive state requisitions orchestrating food and crop riots and collectively combating

desperation Given that the majority of Chinese villages were historically established on the foundation of consanguine relationships creating an obligation among villagers to support one another due to shared ancestry lineage emerged as a microlevel social mechanism that activated diverse forms of collective resistance In villages where peasants effectively upheld their lineage organizations and adopted self protective measures their survival rates exceeded those of villages where the enforcement of Maoist Great Leap initiatives disrupted the lineage structure leaving the communities more vulnerable When Food Became Scare reorients the famine narrative unpacking its intricacies from the perspective of the survival side

Crime, Histoire et Sociétés, 2008/2 , *BORDER SITUATIONS - CRISES - POSTCRITICAL CREATIVITY* Hermes Andreas Kick,2020-01-01 For none of the central survival problems of mankind which include the increase of the world population limited resources transcultural communication problems and information overload convincing solution concepts exist so far The areas of tension mentioned are taken up in this volume and placed in the context of overstrain and rebellion of the individual and society They are the impetus for philosophical thinking and for the conceptualization of the process dynamic approach as a survival strategy that leads to practical philosophy Overcoming the borderline situation shows what man actually is and can become Karl Jaspers Using numerous examples from the fields of psychotherapy artistic and political action this book shows that historical and phenomenological analysis needs to be complemented by a process dynamic approach Dakota Women's Work Colette A. Hyman,2012 Ornately decorated objects created by Dakota women cradleboards clothing animal skin containers served more than a utilitarian function They tell the story of colonization genocide and survival Colette Hyman traces the changes in the lives of Dakota women starting before the arrival of whites and covering the fur trade years the years of treaties and shrinking lands the brutal time of removal starvation and shattered families after 1862 and then the transition to reservation life when missionaries and government agents worked to turn the Dakota into Christian farmers The decorative work of Dakota women reflected all of this native organic dyes and quillwork gave way to beading and needlework items traditionally decorated for family gifts were also produced to sell to tourists and white collectors work on cradleboards and animal skin bags shifted to the ornamenting of hymnals and the creation of star quilts **Working with Excluded Populations in HIV** Carmen Logie,2021-07-05 This book written decades into the HIV epidemic reflects critically on the idea that the socially excluded populations often focused on in HIV research are in fact difficult to access and reach The author broadly applies the concept hard to reach to characterize populations that researchers find difficult to engage with Social factors that produce marginalization and ultimately result in people choosing not to engage in research are not captured by the concept of hard to reach Limited attention has focused on how researchers can address the social factors that result in decisions to not engage in research Disrupting the ways in which people are conceptualized as hard to reach so as to refocus on transforming social systems and personal values beliefs and approaches is understudied This book uses case examples based on HIV research with Indigenous youth internally displaced women

LGBTQ communities in the Global North and Global South and persons at the intersection of these identities to identify successful approaches to working with marginalized and often vulnerable communities and groups The chapters signal the need for attention to five key social factors when developing successful approaches context and storytelling cultural humility critical hope imagination and possibility and love intimate inquiry and the beloved community if nations individuals and communities are to address the epidemic in a sustainable and impactful way
