## **Shaping The New Social Work:**

**Shaping the New Social Work** Alfred J. Kahn, 1973-03-02 Focuses on the problems of practice in social work Looks at what the practitioner does how they relate to clients use discretion set priorities and details the role of setting the direction content and atmosphere of programs

**Shaping the New Social Work** Alfred J. Kahn, 1973 *Shaping a Science of Social Work* John S. Brekke, Jeane W. Anastas, 2019 Shaping a Science of Social Work provides a basic framework for a social work science in terms of basic constructs domains and characteristics considered within the context of academic disciplinary and professional identity Centered on the formation of social work science from a realist critical realist position contributions from eminent scholars offer detailed and rigorous analyses of various essential issues

**Social Welfare in Western Society** Gerald Handel, 2009-01-01 Social welfare has a three thousand year history in Western society This book offers a sociological framework that provides conceptual order to the countless details of that history while highlighting its essentials Social welfare in all its forms is based on one central concept help But there are many versions of help and multiple debates about those versions The outcomes of some debates have led to withholding help and these outcomes are an inescapable part of this domain in the past and in the present The major versions their development and the debates are carefully examined in this volume Social Welfare in Western Society argues that in history five basic concepts of help have emerged These five explored and developed are charity based on a relationship between private donors and recipients public welfare based on a relationship between the state and its recipients social insurance based on a relationship between the state and beneficiaries of its programs social service based on people skilled in interaction providing skill based time to their clients mutual aid groups sometimes misleadingly called self help groups whose members are simultaneously helpers and those helped There are multiple versions of each of these five concepts now usually referred to as social policy issues There are fierce disagreements about what is helpful and which supposed forms of help are harmful to the wider society The book concludes that major debates have centered and continue to center around these major issues Should the poor be helped or punished Who is to blame Do the poor have the same rights as other people Who should pay Who should decide What is the effect of receiving welfare on incentive to work Who should be helped This is a masterful text designed for professional and public reading Gerald Handel is professor emeritus of sociology at The City College and The Graduate Center City University of New York He is the author of Making a Life in Yorkville Experience and Meaning in the Life Course Narrative of an Urban Working Class Man editor of Childhood Socialization and co editor of The Psychosocial Interior of the Family all published by Transaction Publishers

**Social Workers' Desk Reference**, 2015-01-13 People all over the world are confronted by issues such as poverty a lack of access to quality education unaffordable and or inadequate housing and a lack of needed health and mental services on a daily basis Due to these issues there is a need for social workers who have access to relevant and timely scholarly materials in order to meet the needs of those facing these issues The social psychological and biological factors

resulting from these issues determine the level of a person's mental health at any given point in time and it is necessary for social workers to continue to evolve and develop to the new faces and challenges of the times in order to adequately understand the effects of these issues. In the first and second editions of the Social Workers Desk Reference the changes that were occurring in social work practice education and research were highlighted and focused upon. This third edition continues in the same tradition and continues to respond to the changes occurring in society and how they are impacting the education research and practice of social work as a whole. With 159 chapters collaboratively written by luminaries in the profession this third edition serves as a comprehensive guide to social work practice by providing the most recent conceptual knowledge and empirical evidence to aid in the understanding of the rapidly changing field of social work. Each chapter is short and contains practical information in addition to websites and updated references. Social work practitioners, educators, students and other allied professionals can utilize the Social Workers Desk Reference to gain interdisciplinary and interprofessional education practice and research.

**Assessment in Social Work Practice** Carol H. Meyer, 1993. This book confronts the current bureaucratic and fiscal constraints that have inhibited social workers from assessing clients and offers concrete ways of handling a wide array of cases.

*Social Work Processes* Beulah Roberts Compton, Burt Galaway, 1979.

**Understanding and Shaping Curriculum** Thomas W. Hewitt, 2006-02-13. Understanding and Shaping Curriculum: What We Teach and Why introduces readers to curriculum as knowledge, curriculum as work and curriculum as professional practice. Author Thomas W. Hewitt discusses curriculum from theoretical and practical perspectives to not only acquaint readers with the study of curriculum but also help them to become effective curriculum practitioners. Key Features: Emphasizes the various dimensions of curriculum practice. Becoming a curriculum practitioner requires understanding academic practice knowledge, the forces shaping curriculum, the array of curriculum work from policymaking to evaluation and how those are integrated forming a sense of professional practice. This book examines curriculum knowledge that is both academic and practice based. Brings theoretical concepts to life. Perspective into Practice sections illustrate the relevance of the material to both elementary and secondary school settings and contexts. In addition, end of chapter resources provide ideas for further discussion and assignments that address different roles and the various dimensions of curriculum practice. Examines current issues. Part of being a good practitioner is understanding the inevitability of change and the necessity to keep current about issues and trends that affect both the knowledge and the work of curriculum. Separate chapters on issues and trends give students the opportunity to explore what is happening in today's schools and curriculum. Intended Audience: This is an ideal text for masters and doctoral level courses on Curriculum, Curriculum Development and Curriculum Design.

**Social Work, Cats and Rocket Science** Elaine James, Rob Mitchell, Hannah Morgan, 2019-09-19. This book tells stories of just how powerful social work can be. At its heart are stories drawn from frontline practice ranging from first interviews through to complex decision making. Along the way we meet the social worker who assessed a cat though for all the right

reasons We witness the cost of failing to protect the rights of adults exemplified in the tragic death of Connor Sparrowhawk We also see the transformations that can happen when social workers really get it right as in the case of Peter whose love of balloons led them to feature in his care plan These stories from practice are combined with guidance and reflective exercises to offer valuable practice wisdom and learning for new and experienced social workers alike By turns funny wise and moving this book articulates the personal and professional qualities needed to practise rights based social work It reveals the potential of the profession to make a difference to the lives of individuals and to communities

**Foundations of Social Work Practice in the Field of Aging** Roberta Rubin Greene,2007 The aging of societies is a global phenomenon In the United States alone the life expectancy for both men and women will continue to increase over the next few decades and with that a population explosion of older adults The dramatic increase in the number and diversity of older adults elevates the visibility of gerontological matters As a result social work practice is becoming more multigenerational thereby demanding social workers regardless of their professional endeavors to be equipped with the most innovative theories and practices to serve older adults and their families This comprehensive text spans the new knowledge and skills required in direct practice areas group work and macro practice It also outlines the Geriatric Social Work Competencies as developed by social work educators necessary to serve the older adult population and suggests how these competencies can be integrated into foundation curriculum Social work educators students practitioners administrators and policymakers will find updated useful information in this text regarding assessment tools cultural influences evidence based practices intervention techniques theoretical examples Individuals are living longer and healthier lives in part because of the extraordinary growth of biomedical knowledge and public health initiatives The confluence of the rapid and large increase of the older population and the exponential increase in the dissemination of knowledge create an imperative for social workers to employ the most recent knowledge in their practice with people living increasingly long lives JoAnn Damron Rodriguez Department of Social Welfare University of California Los Angeles

*Exploring and Locating Social Work* Darren Hill,Lorraine Agu,David Mercer,2018-11-15 This engaging and accessible introduction to social work encourages reflective learning in preparation for practice Direct linking of key concepts to professional standards ensures that students are able to build up an understanding through context and reflective points and with an emphasis on diversity ideology and preparing for practice students will benefit from both practical and theoretical guidance Sections are designed to work as both integrated and standalone resources and the flexible methodology will support a range of courses and learning techniques

**Social Work Practice** Eileen Gambrill,2012-12-06 The first textbook to emphasize the importance of critical thinking skills to practice this third edition of the classic Social Work Practice retains its unique focus on thinking critically about decisions that social workers make daily Organized around the phases of helping this hands on introduction highlights the decision points that social workers encounter during assessment intervention and evaluation This text together with its companion website

provides students with a wealth of hands on exercises for developing and assessing their practice skills Most importantly it helps students enhance client well being by becoming critical thinkers and evidence informed practitioners The Sociology of Social Work Martin Davies,2023-07-21 How do sociologists explain the role and function of social work in society How has sociological knowledge been used adapted and misused by social workers Originally published in 1991 The Sociology of Social Work includes chapters on sociological theory and social work child protection community care probation interviews family therapy residential care race and knowledge and power *Working with Class* Daniel J. Walkowitz,2003-07-11 Polls tell us that most Americans whether they earn 20 000 or 200 000 a year think of themselves as middle class As this phenomenon suggests middle class is a category whose definition is not necessarily self evident In this book historian Daniel Walkowitz approaches the question of what it means to be middle class from an innovative angle Focusing on the history of social workers who daily patrol the boundaries of class he examines the changed and contested meaning of the term over the last one hundred years Walkowitz uses the study of social workers to explore the interplay of race ethnicity and gender with class He examines the trade union movement within the mostly female field of social work and looks at how a paradigmatic conflict between blacks and Jews in New York City during the 1960s shaped late twentieth century social policy concerning work opportunity and entitlements In all this is a story about the ways race and gender divisions in American society have underlain the confusion about the identity and role of the middle class **Social Work Education Bibliography** ,1983

Rethinking Feminist Theories for Social Work Practice Christine Cocker,Trish Hafford-Letchfield,2022-04-24 Feminist social work has clear goals to expose and critically analyse gendered power as a dynamic historic and structural concept embedded in our world and to mobilise and take social action to challenge that power This is integral to a commitment to the core values of the social work profession which include a commitment to human rights social justice and professional integrity This edited collection brings a range of academic and practitioner scholarship to centre feminist theories values and knowledge as they apply to social work practice theory and education It engages with feminist thinking to re emphasise and refocus the centrality of gender and its intersections with other axes of identities such as social class race disability sexuality and age for understanding and analysing social work practice This collection is a timely reminder of what feminist inquiry has to offer social work to successfully address contemporary challenges and is applicable to practitioners scholars educators students and other key care professionals and policy makers *Delivering Human Services* Michael J. Austin,Alexis H. Skelding,Philip L. Smith,1977 **Indigenous Social Work around the World** John Coates,2016-05-23 How can mainstream Western social work learn from and in turn help advance indigenous practice This volume brings together prominent international scholars involved in both Western and indigenous social work across the globe including James Midgley Linda Briskman Alean Al Krenawi and John R Graham to discuss some of the most significant global trends and issues relating to indigenous and cross cultural social work The contributors identify ways in which indigenization is shaping

professional social work practice and education and examine how social work can better address diversity in international exchanges and cross cultural issues within and between countries Key theoretical methodological and service issues and challenges in the indigenization of social work are reviewed including the way in which adaptation can lead to more effective practices within indigenous communities and emerging economies and how adaptation can provide greater insight into cross cultural understanding and practice

**Conversation Analysis for Social Work** Gerald de Montigny, 2018-10-11

What do the stories youth in state care tell about life in their family of origin What stories do they tell us about coming into care living in care and relationships with foster parents and social workers This book presents the stories of youth in care though not in splendid isolation but as interactively produced turn by turn in interviews and in conversations with other youth By using tools from conversation analysis CA the author examines interviews with youth in care and social workers to unfold the essential and incorrigible reflexivity of story production CA allows us to grasp the ways that a youth s story emerges turn by turn and is an artefact of a social relation between a youth and an interviewer This text provides social work readers with a sense of art artistry and ambiguity at the heart of social interaction It will be required reading for all social work students and academics looking for a deeper more philosophical understanding of the profession
