Sharing Power:

Sharing Power? Patrick Porter, 2013 The subject of U S grand strategy has been getting increasing attention from the policy and academic communities However too often the debate suffers from being too reductionist limiting America s choices to worldwide hegemony or narrow isolation There is a wide spectrum of choices before Washington that lie somewhere in the middle Frequently not enough thought is given to how such alternative strategies should be designed and implemented The future cannot be known and earlier predictions of American decline have proven to be premature However there is a shift in wealth and power to the extent that America may not be able to hold on to its position as an unrivaled unipolar superpower Therefore it is worth thinking about how the United States could shape and adjust to the changing landscape around it What is more there are a number of interlocking factors that mean such a shift would make sense transnational problems needing collaborative efforts the military advantages of defenders the reluctance of states to engage in unbridled competition and hegemony fatigue among the American people Alternative strategies that are smaller than global hegemony but bigger than narrow isolationism would be defined by the logic of concerts and balancing in other words some mixture of collaboration and competition Can the United States adjust to a concert balance grand strategy that made space for other rising powers without sacrificing too much of its forward military presence without unleashing too much regional instability and without losing the domestic political will It is not certain that a cumulative shift to a new grand strategy would necessarily succeed since other powers might turn down the chance to cooperate But with soaring budget deficits and national debt increasing burdens on social security and possible agonizing choices in the future between guns and butter it is surely worth a try

Sharing Power, Securing Peace? Lars-Erik Cederman, Simon Hug, Julian Wucherpfennig, 2022-07-07 Does power sharing bring peace Policymakers around the world seem to think so Yet while there are many successful examples of power sharing in multi ethnic states such as Switzerland South Africa and Indonesia other instances show that such arrangements offer no guarantee against violent conflict including Rwanda Yugoslavia Zimbabwe and South Sudan Given this mixed record it is not surprising that scholars disagree as to whether power sharing actually reduces conflict Based on systematic data and innovative methods this book comes to a mostly positive conclusion by focusing on practices rather than merely formal institutions studying power sharing s preventive effect analyzing how power sharing is invoked in anticipation of conflict and by showing that territorial power sharing can be effective if combined with inclusion at the center The authors findings demonstrate that power sharing is usually the best option to reduce and prevent civil conflict in divided states

Choosing Partnership, Sharing Ministry Marcia Barnes Bailey, 2007-06-20 Like many clergy Marcia Barnes Bailey began her work as an ordained leader with a vision of the pastor as leader extraordinaire empowered by education authority position and resources She soon found herself thinking There has to be another way In this book Bailey invites pastors and congregations to a new understanding of ministry leadership and the church that challenges hierarchy by fully sharing responsibilities risks and rewards in mutual ministry This model took shape over 10 years as Bailey pastoral colleague Marcus Pomeroy and the congregation they served began writing their own definition of partnership creating their own map trusting their own instincts making their own mistakes For Bailey this kind of partnership began when she discovered the courage to listen to herself and to the Spirit for the inklings of another way to incarnate Jesus s example a ministry that was widely inclusive delegated power shared authority and thrived with the multiplication of gifts Partnership invites us on a journey that can transform us as leaders as human beings and as the church It is challenging and exciting and it requires hard work It is also energizing engaging and empowering Partnership unleashes the Spirit to create a

new vision and reality among us moving us one step closer to living into God's reign

Unrecognized States in the International System Nina Caspersen, Gareth R. V. Stansfield, 2011 Unrecognized states are territories that have achieved de facto independence yet have failed to gain international recognition as independent states These territories constitute anomalies in the international system of sovereign states and often present significant challenges to policy makers as evidenced by the war in Georgia and the continued debate over Kosovo's independence This book draws on both theory and case studies to better understand the phenomenon of unrecognized states demonstrating that the existence of such entities is less unusual than previously assumed Moving away from an overt focus on case studies the chapters present various themes that link the emergence operations and development of unrecognized states and assess how the established order of states responds to the challenges they present How do unrecognized interact with the international system of sovereign states How does it shape their emergence operations and development How do these entities develop in a context of non recognition Are we witnessing a new form of statehood or are these entities better understood as states in waiting What are the strategies available for dealing with unrecognized states Could power sharing or autonomy provide a solution or are more innovative strategies necessary With contributions from leading scholars in a number of fields this book will appeal not only to students and scholars of Political Science International Relations Geography Area Studies Sociology and Conflict Resolution but also to journalists government bodies and NGOs
