Sharks Keep Losing Their Teeth And Other Amazing Facts About Sharks:

Sharks! Rhonda Lucas Donald, Kathleen W. Kranking, 2001-05 This in depth teaching unit dispels myths about sharks and helps students understand the abilities and unique characteristics of these creatures Activities include writing poems about sharks mapping migration routes making shark puppets and more Includes cross curricular activities hands on reproducibles and a colorful poster Illustrations **Forthcoming Books** Rose Arny, 1998 Sharks: Pictures of Sharks - 50 Most Secret With Sharks Facts Auria Bawdekar, *Sharks Pictures of Sharks 50 Most Secret With Sharks Facts* Sharks have adapted to living in a wide range of aquatic habitats at various temperatures While some species inhabit shallow and coastal regions others live in the open ocean on the ocean floor and in deep waters Like the bull shark some species are even known to swim in fresh salt and brackish waters Most sharks are especially active in the evening and night when they hunt Some sharks swim over great distances to feed and breed This can take sharks over entire ocean basins Even some shark species are solitary others shows social behaviour at various levels The Hammerhead sharks for instance school in the time of mating season around seamounts and islands Some shark species like the great white shark from below surprise their prey usually seals and sea lions Species that dwell on ocean floor have developed the ability to bottom feed and others attack schooling fish in a feeding frenzy while the large sharks like the whale and basking sharks filter feed by swimming through the ocean with their mouths open wide do filtering large quantities of plankton and krill Sharks mature slowly and reach reproductive age anywhere from 12 15 years This combined with fact that many species only give birth to one or two pups at a time means that the sharks have great difficulty recovering after their populations have declined Soon after birth sharks pups swim away to fend for themselves Sharks are born with fully fledged sets of teeth and are able to feed and live on their own *14 Fun Facts About Great White Sharks* Caitlind L. Alexander, Great white sharks are large sharks that roam the oceans They have been named great whites because they are big and because they have a white stomach Their back is grey Most sharks and many other fish have a stomach that is lighter than their back That helps them to blend into the ocean If a predator is looking down on them from above their darker side blends in with the ocean bottom If a predator is looking at them from below their lighter side blends into to lighter shade at the top of the water Scientists have begun to study these amazing animals more and more Here are some fun facts they have found out about the great white shark How much do you know about these wonderful marine animals Can you answer these questions What two things make great white sharks float How many teeth can a great white have in their lifetime How many great whites do humans kill each year How do great whites warm themselves How long is a great white s brain Find out more about great white sharks and amaze your family and friends with these fun facts Reading Level 5 1 All measurements in American and Metric Learning Island com believes in the value of children practicing reading for 15 minutes every day Our 15 Minute Books give children lots of fun exciting choices to read from classic stories to mysteries to books of knowledge Many books are appropriate for hi lo readers Open the world of
