Jung, 2014-12-18 The concept of the archetype is crucial to Jung s radical interpretation of the human mind Jung believed that every person partakes of a universal or collective unconscious that persists through generations The origins of the concept can be traced to his very first publication in 1902 and it remained central to his thought throughout his life As well as explaining the theoretical background behind the idea in *Four Archetypes* Jung describes the four archetypes that he considers fundamental to the psychological make up of every individual mother rebirth spirit and trickster Exploring their role in myth fairytale and scripture Jung engages the reader in discoveries that challenge and enlighten the ways we perceive ourselves and others **Religious Reflections on the Human Body** Jane Marie Law, 1995-02-22 It provides imaginative and thought provoking coverage of the ways in which religious thought and practice construct understandings of the human body *Journal of Asian Studies* Drawing on a remarkably diverse set of studies discussing the major Western religious traditions including Islam and East and South Asian traditions the book challenges easy theorization of the body in religion an excellent source book for college level comparative religion courses Bruce Mannheim University of Michigan an important study that should be of considerable interest to the general student of the history and phenomenology of religions *Muslim World Book Review* The first cross cultural and
