how it may be developed to its full potential Part One discusses the current human condition the sleep of ordinary life and how a person may begin to wake up from it Part Two offers a feast of excerpts from the Perennial Philosophy the great wisdom tradition that underlies all cultures and religions to feed and nurture the growth of the soul Part Three provides simple ways to put these insights into practice in daily life Clear sensible and erudite Being Consciousness Bliss is a resource suitable for both beginners and advanced practitioners to be used and treasured for many years This is a feast of a book spread out like a banquet of the freshest foods served wholesomely and presented artfully Starting from a premise that the aim of human life is to know who we are to realize our Self our true nature and our identity with the Universal Self Fitzgerald's poetic and passionate prose awakens consciousness on a deep level She helps us feel the Self so we can begin to work with the Self To complement her own inspired writing she includes a section with words of wisdom from other sources grouped by such intent as to examine suffering or to explore aspiration In addition there is a cornucopia of suggestions for practice such as how to focus attention on a task or how to listen to the sound of your own voice Dotted with illustrations and charts to further clarify the text this work is an invitation to a nourishing meal of self awareness S J A Managing Editor NAPRA Review Following Aldous Huxley Astrid Fitzgerald's tireless pursuit of an inner path is sure to awaken the heart to bliss and rouse spirit to behold David Appelbaum editor of Parabola Magazine This book is equal parts wisdom beauty and inspiration Astrid Fitzgerald opens the insights of the ages for anyone to follow Highly recommended Larry Dossey M D author of Healing Beyond the Body Reinventing Medicine and Healing Words Astrid Fitzgerald's Being Consciousness Bliss is a well researched clearly written account of the essential teachings given by all the major wisdom traditions which all teach that we are one human family Sri Swami Satchidananda Founder Spiritual Head Integral Yoga International Satchidananda Ashram Yogaville

Gurdjieff Joseph Azize, 2020 This is the first analysis of all of Gurdjieff's published internal exercises together with those taught by his students George and Helen Adie It includes a fresh biographical study of Gurdjieff with ground breaking observations on his relationships with P D Ouspensky and A R Orage especially why he wanted to collaborate with them and why that broke down It shows that Gurdjieff was fundamentally a mystic and that his contemplation like methods were probably drawn from Mt Athos and its hesychast tradition It shows the continuity in Gurdjieff's teaching but also development and change His original contribution to Western Esotericism lay in his use of tasks disciplines and contemplation like exercises to bring his pupils to a sense of their own presence which could to some extent be maintained in daily life in the social domain and not only in the secluded conditions typical of meditation It contends that he had initially intended not to use contemplation like exercises as he perceived dangers to be associated with these monastic methods and the religious tradition to be in tension with the secular guise in which he first couched his teaching As Gurdjieff adapted the teaching he had found in Eastern monasteries to Western urban and post religious culture he found it necessary to introduce contemplation His development of the methods is demonstrated and the importance of the three exercises in the Third Series

Life Is Real only then when I Am is shown together with their almost certain borrowing from the exercises of the Philokalia G I Gurdjieff P D Ouspensky A R Orage George Adie Mysticism Meditation Contemplation Fourth Way Hesychasm Western Esotericism
