Thus, in addition to coverage on countries as disparate as France, Ethiopia, and Tibet, there are also entries on Roma Gypsies, the Maori of New Zealand, and the Saami of northern Europe. There is even a section on food in outer space, detailing how and what astronauts eat and how they prepare for space travel as far as diet and nutrition are concerned. Each entry offers information about foodstuffs, meals, cooking methods, recipes, eating out, holidays, and celebrations, and health and diet. Vignettes help readers better understand other cultures, while the inclusion of selected recipes lets them recreate dishes from other lands.

Food Culture in Southeast Asia Penny Van Esterik, 2008-08-30

Southeast Asian cuisines such as Thai have become quite popular in the United States, even though immigrant numbers are low. The food is appealing because it is tasty, attractive, and generally healthful, with plentiful vegetables, fish, noodles, and rice. *Food Culture in Southeast Asia* is a richly informative overview of the food and foodways of the mainland countries, including Burma, Thailand, Laos, Vietnam, Cambodia, and Malaysia, and the island countries of Singapore, Brunei, East Timor, Indonesia, and the Philippines. Students and other readers will learn how diverse peoples from diverse geographies feed themselves and the value they place on eating as a material, social, and symbolic act.

Chapter 1, *Historical Overview*, surveys the archaeological and historical evidence concerning mainland Southeast Asia, with emphasis on the Indianized kingdoms of the mainland and the influence of the spice trade on subsequent European colonization. Chapter 2, *Major Foods and Ingredients*, particularly illuminates the rice culture as the central source of calories and a dominant cultural symbol, plus fish and fermented fish products, local fresh vegetables and herbs, and meat in variable amounts. The *Cooking* chapter discusses the division of labor in the kitchen, kitchens and their equipment, and the steps in acquiring, processing, and preparing food. The *Typical Meals* chapter approaches typical meals by describing some common meal elements, meal format, and the timing of meals. Typical meals are presented as variations on a common theme, with particular attention to contrasts such as rural, urban, and palace/village. Iconic meals and dishes that carry special meaning as markers of ethnic or national identity are also covered. Chapter 6, *Eating Out*, reviews some of the options for public eating away from home in the region, including the newly developed popularity of Southeast Asian restaurants overseas. The chapter has an urban middle-class bias, as those are the people who are eating out on a regular basis. The *Special Occasions* chapter examines ritual events such as feeding the spirits of rice and the ancestors, Buddhist and Muslim rituals involving food, rites of passage, and universal celebrations around the coming of the New Year. The final chapter on diet and health looks at some of the ideologies underlying the relation between food and disease, particularly the humoral system, and then considers the nutritional challenges related to recent changes in local food systems, including food safety.
