Singing Hat:

Handbook of Chinese Language Learning and Technology Shou-Hsin Teng, Li-Ping Chang, Te-Hsin Liu, 2025-02-25 This handbook explores quantitative linguistics pedagogy and Mandarin language acquisition in an integrated fashion and helps readers grasp how insights from quantitative linguistics can shed light on Mandarin language acquisition. It focuses on issues related to language processing, learning and teaching, and how these aspects are affected or enhanced by corpus-based and computational linguistics. By following a data-driven approach, the handbook demonstrates how theoretical problems in the acquisition of Chinese can be resolved with empirical evidence. The book serves as an essential resource for students and researchers wishing to explore the fascinating field of Chinese language processing and acquisition. **Mississippian Culture Heroes, Ritual Regalia, and Sacred Bundles** David H. Dye, 2021-07-13 In *Mississippian Culture Heroes: Ritual Regalia and Sacred Bundles*, archaeologists analyze evidence of the religious beliefs and ritual practices of Mississippian people through the lens of indigenous ontologies and material culture. Employing archaeological, ethnographic, and ethnohistoric evidence, the contributors explore the recent emphasis on iconography as an important component for interpreting eastern North America's ancient past. The research in this volume emphasizes the animistic nature of animals and objects, erasing the false divide between people and other than human beings. Drawing on an array of empirical approaches, the contributors demonstrate the importance of understanding beliefs and ritual and the significance of investigating how people in the past practiced religion and ritual by crafting, circulating, using, and ultimately decommissioning material items and spaces, including ceramic effigies, rock art, sacred bundles, shell gorgets, stone figurines, and symbolic weaponry. *The Writings of Douglas Jerrold. Collected Edition* Douglas William Jerrold, 1854 **Emerging Information Security and Applications** Jun Shao, Sokratis K. Katsikas, Weizhi Meng, 2024-01-03 This volume constitutes the proceedings presented at the 4th International Conference on Emerging Information Security and Applications (EISA 2023) held in Hangzhou, China, in December 2023. The 11 full papers presented in this volume were thoroughly reviewed and selected from the 35 submissions. The topics of the book are related but not limited to cyber intelligence techniques, multimedia security, blockchain and distributed ledger technology, malware and unwanted software, vulnerability analysis, and reverse engineering, usable security and privacy intrusion detection and prevention, authentication and access control, anonymity and privacy, cryptographic protection, digital forensics, cyber-physical systems security, adversarial learning, security measurement, security management and policies, hardware and physical security. **The Writings of Douglas Jerrold** Douglas Jerrold, 1854 *Old Charlie and The Gold Smell'n Burro* Jacqueline Joyce Dubois, 2023-05-01 Old Charlie struck it rich. He went right out and bought two more laying hens so his furry-eared friend would always have fried eggs and red chilies to eat right out of the sizzling pan. And just in case this south of the border four-legged singing hat-wearing lucky gold-smell'n egg-eating burro might wander off, Old Charlie pinned this note to the little burro's scarf which read: This Is Pepe.
