Jayaram, 2022-09-12 This book explores the dynamics of the socio cultural baggage that Indian indentured migrants took with them to the Caribbean island of Trinidad and how they have since become a vibrant diaspora community namely the Indo Trinidadians It combines social history with first hand fieldwork data to portray human ingenuity in terms of social reconstitution and community building in a hostile socio cultural environment Furthermore it addresses key social institutions religion caste and family and cultural elements language foodways and ethnicity Its analytical framework is guided by the concept of metamorphosis it steers clear of the persistence versus change hypotheses Given its focus it will be of interest to students and scholars of sociology social anthropology history and migration and diaspora studies

Modernity - An Ethnographic Approach Daniel Miller, 2020-08-19 From cultural studies sociology media studies gender studies and elsewhere there have been a spate of books recently which have attempted to characterize the state of modernity Many of these have also argued that what is required is an ethnographic work to determine how far these supposed trends actually apply to a given population This book explicitly accepts this challenge and in so doing demonstrates the potential of modern anthropology studies It starts by summarizing some debates on modernity and then argues that the Caribbean island of Trinidad is particularly apt for such a study given the origins of its population in slavery and indentured labour both forms of extreme social rupture The particular focus of this book is on mass consumption and the way goods and imported images such as soap opera have been used to express and develop a number of key contradictions of modernity It will be of interest to anthropologists looking for a new potential for the discipline as well as students in other fields who will be interested in the new contribution of anthropology to their debates

Post-Colonial Trinidad C. Clarke, 2010-05-24 Clarke and Clarke have created a journal that provides an ethnographic record of the East Indians and Creoles of San Fernando and the entire sugar belt south of the town known as Naparima They record socio political relations during the second year of Trinidad's independence 1964 and provide first hand evidence for the workings of a complex plural society in which race religion and politics had become and have remained deeply intertwined Entries occur whenever there is evidence of social scientific importance to the project and these range from descriptions of weddings and pujas prayer ceremonies devoted to a Hindu deity to interviews with religious leaders politicians and members of the south Trinidad elite **Fabrics**

of Indianness Sinah Theres Kloß,2016-07-29 This book describes how Guyanese Hindus recreate Indian ethnic identity in contemporary Guyana and examines how Hindu traditions have been transformed in this multi religious and multi ethnic society By illustrating the exchange and consumption of clothing the book demonstrates that the practices of wearing and gifting clothes materialize and visualize relationships The significant outward migration of Guyanese to North America has resulted in substantial international gift exchange and transnational rituals Applying the concept of translocality this book demonstrates that different localities continue to influence transnational networks and socio cultural practices It provides a study of migration that emphasizes various aspects of material and visual closeness conceptualizing the notion of touch

Ethnicity and Nationalism Thomas Hylland Eriksen,2010-09-08 Is ethnicity a result of cultural differences Is ethnicity dependent on the practical use and belief in cultural differences Drawing on a wide range of classic and recent studies in anthropology and sociology Thomas Hylland Eriksen examines the relationship between ethnicity class gender and nationhood Using the question What is ethnicity as his starting point Eriksen examines the interplay between ideology and ethnicity how the Internet impacts understanding of ethnicity identity politics and the commercialisation of identity Through this he reveals that far from being an immutable property of groups ethnicity is a dynamic and shifting aspect of social relationships A core text for all students of social anthropology and related subjects Ethnicity and Nationalism has been a leading introduction to the field since its original publication in 1993 This new edition expanded and thoroughly revised is indispensable to anyone seriously interested in understanding ethnic phenomena

Capitalism Daniel Miller,2021-01-07 This provocative book challenges many of our ingrained assumptions about the direction of contemporary capitalism and offers fresh perspectives that will inform the development of a new and relevant political economy for our times The complex and often contradictory world within which modern commodities are produced sold and consumed is set within the larger context of transnational business and economic developments The importance of factors such as profitability and globalization is highlighted and a sophisticated analysis of the contradictions and ironies of the world of modern commodities emerges Trinidad provides an ideal setting for this study given its recent oil boom and recession and the subsequent experience of both wealth and poverty

The Internet Daniel Miller,Don

Slater, 2020-12-22 This pathbreaking book is the first to provide a rigorous and comprehensive examination of Internet culture and consumption. A rich ethnography of Internet use, the book offers a sustained account not just of being online but of the social, political, and cultural contexts which account for the contemporary Internet experience. From cybercafes to businesses, from middle class houses to squatters' settlements, from the political economy of Internet provision to the development of e-commerce, the authors have gathered a wealth of material based on fieldwork in Trinidad. Looking at the full range of Internet media including websites, email, and chat, the book brings out unforeseen consequences and contradictions in areas as varied as personal relations, commerce, nationalism, sex, and religion. This is the first book-length treatment of the impact of the Internet on a particular region. By focusing on one place, it demonstrates the potential for a comprehensive approach to new media. It points to the future direction of Internet research, proposing a detailed agenda for comparative ethnographic study of the cultural significance and effects of the Internet in modern society. Clearly written for the non-specialist reader, it offers a detailed account of the complex integration between on-line and off-line worlds. An innovative tie-in with the book's own website provides copious illustrations amounting to over 2,000 web pages that bring the material right to your computer.
