Singular Women Writing The Artist:

Singular Women Kristen Frederickson, 2003-03-04 Contemporary art historians all of them women probe the dilemmas and complexities of writing about the woman artist past and present These 13 essays address the work and history of specific artists beginning with the Renaissance and ending with the present day Women Artists in Interwar France Paula J. Birnbaum, 2017-07-05 Women Artists in Interwar France Framing Femininities illuminates the importance of the Soci des Femmes Artists Modernes more commonly known as FAM and returns this group to its proper place in the history of modern art In particular this volume explores how FAM and its most famous members Suzanne Valadon Marie Laurencin and Tamara de Lempicka brought a new approach to the most prominent themes of female embodiment the self portrait motherhood and the female nude These women reimaged art s conventions and changed the direction of both art history and the politics of their contemporary art world FAM has been excluded from histories of modern art despite its prominence during the interwar years Paula Birnbaum s study redresses this omission contextualizing the group s legacy in light of the conservative politics of 1930s France The group s artistic response to the reactionary views and images of women at the time is shown to be a key element in the narrative of modernist formalism Although many FAM works are missing one reason for the lack of attention paid to their efforts Birnbaum s extensive research through archives press clippings and first hand interviews with artists families reclaims FAM as an important chapter in the history of art from the interwar years *Charting the Afrofuturist Imaginary in African American Art* Elizabeth Carmel Hamilton, 2022-08-12 This book examines Afrofuturism in African American art focusing specifically on images of black women and how those images expand the discourse of representation in visual culture of the United States This volume defines a visual language of Afrofuturism that includes materiality temporality and black liberation Elizabeth Hamilton discusses the visual progenitors of Afrofuturism In the artworks of Pierre Bennu Sanford Biggers Alison Saar Mequitta Ahuja Robert Pruitt Renee Cox Dawolu Jabari Anderson Alma Thomas and Harriet Powers the fantastic narratives of Afrofuturism are uncovered through in depth case studies These case studies engage with Afrofuturism as a black feminist visual theory that helps to unburden the images of black women from the stereotypical visual scripts that are so common in contemporary visual culture of the United States The book will be of interest to scholars working in art history visual studies American literature gender studies popular culture and African American studies *American Women Modernists* Robert Henri, Marian Wardle, Sarah Burns, Brigham Young University. Museum of Art, 2005 The seven essays included in this volume move beyond the famed Ashcan School to recover the lesser known work of Robert Henri s women students The contributors who include well known scholars of art history American studies and cultural studies demonstrate how these women participated in the modernizing of women s roles during this era The Memory Factory Julie M. Johnson, 2012-05-15 The Memory Factory introduces an English speaking public to the significant women artists of Vienna at the turn of the twentieth century each chosen for her aesthetic innovations and

participation in public exhibitions These women played important public roles as exhibiting artists both individually and in collectives but this history has been silenced over time Their stories show that the city of Vienna was contradictory and cosmopolitan despite men only policies in its main art institutions it offered a myriad of unexpected ways for women artists to forge successful public careers Women artists came from the provinces Russia and Germany to participate in its vibrant art scene However and especially because so many of the artists were Jewish their contributions were actively obscured beginning in the late 1930s Many had to flee Austria losing their studios and lifework in the process Some were killed in concentration camps Along with the stories of individual women artists the author reconstructs the history of separate women artists associations and their exhibitions Chapters covering the careers of Tina Blau Elena Luksch Makowsky Bronica Koller Helene Funke and Teresa Ries among others point to a more integrated and cosmopolitan art world than previously thought one where women became part of the avant garde accepted and even highlighted in major exhibitions at the Secession and with the Klimt group

The Practice of Her Profession Susan Butlin, 2009-03-01 In *The Practice of Her Profession* Susan Butlin draws on unpublished letters and family memoirs to recount Carlyle's personal and professional life She explores Carlyle's artistic influences her relationships with artist colleagues and encounters with the cultural worlds of Paris New York and early twentieth century Canada and provides a detailed examination of Carlyle's paintings Butlin's vivid description of the artistic life of women of this era from access to art training to the important role of women's art societies introduces readers to Carlyle's many accomplished contemporaries Helen McNicoll Mary Reid Laura Muntz Sarah Holden Sydney Tully Elizabeth McGillivray Knowles and others

Black Female Intellectuals in Nineteenth Century America Rebecca J. Fraser, 2022-12-30 Drawing on letters personal testimony works of art novels and historic Black newspapers this book is an interdisciplinary exploration of Black women's contributions to the intellectual life of nineteenth century America *Black Female Intellectuals in Nineteenth Century America* reconceptualizes the idea of what the term intellectual means through its discussions of both familiar and often forgotten Black women including Edmonia Lewis Harriet Powers Sojourner Truth and Harriet Tubman amongst others This re-envisioning brings those who have previously been excluded from the scholarship of Black intellectualism more generally and Black female intellectuals specifically into the center of the debate Importantly it also situates the histories of Black women participating in the intellectual cultures of the United States much earlier than most previous scholarship This book will be of interest to both undergraduate and postgraduate specialists and students in the fields of African American history women's and gender history and American studies as well as general readers interested in historical and biographical works

Marisa Mori and the Futurists Jennifer Griffiths, 2023-01-12 This book introduces a compelling new personality to the modernist canon Marisa Mori 1900-1985 who became the only female contributor to *The Futurist Cookbook* 1932 with her recipe for Italian Breasts in the Sun Providing something more complex than a traditional biographical account Griffiths presents a feminist critique of Mori's art converging on issues of

gender culture and history to offer new critical perspectives on Italian modernism. If subsequently written out of modernist memory, Mori was once at the center of the Futurism movement in Italy yet she worked outside the major European capitals and fluctuated between traditional figurative subjects and abstract experimentation. As a result, her in-between pictures can help to re-think the margins of modernism. By situating Mori's most significant artworks in the critical context of interwar Fascism and highlighting her artistic contributions before, during, and after her Futurist decade, Griffiths contributes to a growing body of knowledge on the women who participated in the Italian Futurist movement. In doing so, she explores a woman artist's struggle for modernity among the Italian Futurists in an age of Fascism. **The Oxford Handbook of the**

Bible in America Paul Gutjahr, 2017-11-01. Early Americans have long been considered "A People of the Book." Because the nickname was coined primarily to invoke close associations between Americans and the Bible, it is easy to overlook the central fact that it was a book, not a geographic location, a monarch, or even a shared language that has served as a cornerstone in countless investigations into the formation and fragmentation of early American culture. Few books can lay claim to such powers of civilization-altering influence. Among those which can are sacred books, and for Americans, principal among such books stands the Bible. This Handbook is designed to address a noticeable void in resources focused on analyzing the Bible in America in various historical moments and in relationship to specific institutions and cultural expressions. It takes seriously the fact that the Bible is both a physical object that has exercised considerable totemic power as well as a text with a powerful intellectual design that has inspired everything from national religious and educational practices to a wide spectrum of artistic endeavors to our nation's politics and foreign policy. This Handbook brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview rich with bibliographic resources to those interested in the Bible's role in American cultural formation. **Bright Fields** Bruce Levingston, 2015-09-28.

Bright Fields is a comprehensive and deeply intimate exploration of the life and work of Mississippi-born artist Marie Hull, 1890-1980. Her paintings reflect a nine-decade journey of search, thought, and growth. She produced some of the most memorable and iconic works ever created by a southern artist. This elegant and exquisitely detailed book contains over two hundred newly photographed reproductions of the artist's finest works, many never before seen by the public. Hull was born in a small town near Jackson at a time when women were not allowed to vote and were denied many career opportunities. This did not deter Hull from a constant search for quality both in her life and in her art. She studied with some of the most important artists of her day, including William Merritt Chase in Philadelphia, New York, and Europe. She won major national competitions and awards and was exhibited in some of the world's most prestigious art exhibitions and shows in the United States, Europe, and East Asia. During the Depression, Hull created a series of paintings depicting African Americans and local sharecroppers that is considered one of the most significant contributions to regionalist art in the country's history. These important, deeply moving works place her among the forefront of the great American portraitists. Three decades later, in her seventies, Hull

would reveal her remarkable ability to evolve again this time into one of the most significant abstract painters of the South In her powerful brilliantly colorful late works she combines her mastery of landscape painting with a unique persuasive synthesis of ideas from such artists as Mark Rothko Willem de Kooning and Hans Hofmann Today Hull s works are exhibited in museums and prestigious private collections throughout the country Bright Fields expands our knowledge of the painter s remarkable life and work illustrating why Hull s unique vision and tremendous creativity had and continues to have such a profound impact on art in the South and beyond
