Singularity And Other Possibilities Panenmentalist Novelties:

Singularity and Other Possibilities Amihud Gilead, 2021-11-08 This book elaborates the author's original metaphysics panenmentalism focusing on novel aspects of the singularity of any person. Among these aspects integrated in a systematic view are love and singularity, private intersubjective and public accessibility, multiple personality, freedom of will, akrasia, a way out of the empiricist/rationalist conundrum, the possibility of God, and some major moral questions. **Singularity and Other Possibilities** Amihud Gilead, 2003 This book elaborates the author's original metaphysics panenmentalism focusing on novel aspects of the singularity of any person. Among these aspects integrated in a systematic view are love and singularity, private intersubjective and public accessibility, multiple personality, freedom of will, akrasia, a way out of the empiricist/rationalist conundrum, the possibility of God, and some major moral questions. **Restless Reason and Other Variations on Kantian Themes** Amihud Gilead, 2021-11-23 This book combines integratively revised previously published papers with entirely new chapters, challenges and treats some major problems in Kant's philosophy not by means of new interpretations but by suggesting some variations on Kantian themes. Such variations are in fact reconstructions made according to Kantian ideas and principles and yet cannot be extracted as such directly from his writings. The book also analyses Kant's philosophy from a new metaphysical angle based on the original metaphysics of the author called panenmentalism. It reconstructs some missing links in Kant's philosophy such as the idea of teleological time which is vital for Kant's moral theory. Although these variations cannot be found literally in Kant's works, they can be legitimately explicated, developed and implied from them. Such is the case because these variations are strictly compatible with the details of the texts and the texts as wholes, and because they are systematically integrated. Their coherence supports their validation. The target audiences are graduate and PhD students as well as specialist researchers of Kant's philosophy. **A Panenmentalist Philosophy of Literature, or How Does Actual Reality Imitate Pure Possibilities?** Amihud Gilead, 2019-05-14 The relationship between the literary imagination, literary possibilities and actual reality poses a major philosophical problem in the field of the metaphysics of literature. This detailed analysis of some literary masterpieces by Proust, Kafka, Tolstoy, Dostoyevsky, Thomas Mann, Virginia Woolf and William Faulkner demonstrates that actual reality actualizes or imitates literary pure possibilities. As such, these masterpieces should be treated not as romances à clef but instead as paradigm cases on whose basis we grasp and understand actual reality. **The Privacy of the Psychical** Amihud Gilead, 2011-01-01 This book argues that the irreducible singularity of each person as a psychical subject implies the privacy of the psychical and that of experience, and yet the private accessibility of each person to his or her mind is compatible with interpersonal communication and understanding. The book treats these major issues against the background of the author's original metaphysics panenmentalism. **Necessity and Truthful Fictions** Amihud Gilead, 2009 This book discovers areas and themes especially in philosophical psychology for novel observations and investigations, the diversity of which is systematically unified within the frame of the author's original

metaphysics panenmentalism The book demonstrates how by means of truthful fictions we may detect meaningful possibilities as well as their necessary relationships that otherwise could not be discovered
