we can see his images as if for the first time *Old Paris and Changing New York* Kevin D. Moore, 2018-01-01 An insightful new look at two renowned photographers their interconnected legacies and the vital documents of urban transformation that they created In this comprehensive study Kevin Moore examines the relationship between Eugène Atget 1857-1927 and Berenice Abbott 1898-1991 and the nuances of their individual photographic projects Abbott and Atget met in Man Ray's Paris studio in the early 1920s Atget then in his sixties was obsessively recording the streets gardens and courtyards of the 19th century city old Paris as modernization transformed it Abbott acquired much of Atget's work after his death and was a tireless advocate for its value She later relocated to New York and emulated Atget in her systematic documentation of that city culminating in the publication of the project *Changing New York* This engaging publication discusses how during the 1930s and 1940s Abbott paid further tribute to Atget by publishing and exhibiting his work and by printing hundreds of images from his negatives using the gelatin silver process Through Abbott's efforts Atget became known to an audience of photographers and writers who found diverse inspiration in his photographs Abbott herself is remembered as one of the most independent determined and respected photographers of the 20th century *The Palgrave Encyclopedia of Urban Literary Studies* Jeremy Tambling, 2022-10-29 This encyclopaedia will be an indispensable resource and recourse for all who are thinking about cities and the urban and the relation of cities to literature and to ways of writing about cities Covering a vast terrain this work will include entries on theorists individual writers individual cities countries cities in relation to the arts film and music urban space pre early and modern cities concepts and movements and definitions amongst others Written by an international team of contributors this will be the first resource of its kind to pull together such a comprehensive overview of the field *Wollheim, Wittgenstein, and Pictorial Representation* Gary Kemp, Gabriele Mras, 2016-06-10 Pictorial representation is one of the core questions in aesthetics and philosophy of art What is a picture How do pictures represent things This collection of specially commissioned chapters examines the influential thesis that the core of pictorial representation is not resemblance but seeing in in particular as found in the work of Richard Wollheim We can see a passing cloud as a rabbit but we also see a rabbit in the clouds Seeing in is an imaginative act of the kind employed by Leonardo's pupils when he told them to see what they could for example battle scenes in a wall of cracked plaster This collection examines the idea of seeing in as it appears primarily in the work of Wollheim but also its origins in the work of Wittgenstein An international roster of contributors examine topics such as the contrast between seeing in and seeing as whether or in what sense Wollheim can be thought of as borrowing from Wittgenstein the idea that all perception is conceptual or propositional the metaphor of figure and ground and its relation to the notion of two foldedness the importance in art of emotion and the imagination *Wollheim Wittgenstein and Pictorial Representation* Seeing as and Seeing in is essential reading for students and scholars of aesthetics and philosophy of art and also of interest to those in related subjects such as philosophy of mind and art theory *The Garden in the Machine* Scott MacDonald, 2001-12-18 This book is MacDonald's

magnum opus it represents a deep immersion in and advocacy for independent experimental cinema Patricia R Zimmerman author of *States of Emergency Documentaries Wars Democracies* This is a brilliant study learned authoritative and often eloquent One reads this book with astonishment at the wealth of thoughtful and playful and provocative work that has occurred in this medium and astonishment too that most scholars of environmental literature and nature in the visual arts have had minimal contact with independent film and video MacDonald provides an immensely valuable readable overview of this field profoundly relevant to my own work and that of many other contemporary ecocritics Scott Slovic editor of *ISLE Interdisciplinary Studies in Literature and Environment* *The Garden in the Machine* is clearly MacDonald's major work It is very original and wide reaching especially in its analysis of the relationship of American avant garde films to the poetry and painting of the native landscape MacDonald's authority is evident everywhere he probably knows more about most of the films he discusses than anyone alive P Adams Sitney author of *Modernist Montage The Obscurity of Vision in Cinema and Literature* *The Garden in the Machine* reflects Scott MacDonald's career long lived engagement with avant garde film and filmmakers With deep respect for the artists and a rich wide ranging curiosity about the cultural histories that inform these films MacDonald makes a powerful argument for why they should be screened taught and discussed within the wider context of American Studies Throughout MacDonald analyzes themes of race history personal and public memory and the central role of avant garde films in shaping our possible futures Angela Miller author of *Empire of the Eye Landscape Representation and American Cultural Politics 1825 1875*
