Comedy Quotes from the Movies Larry Langman, Paul Gold, 2001-05-29. Clever repartee, double entendres, punch lines, and many other variations of humor have been a staple of movie dialogue since the advent of talkies. Collected here are over 4,000 of the best comedic lines from the movies. The compilers of this book have tried to bring together some of the funniest, wittiest, and most outrageous snatches of dialogue on film over a sixty-year time period. For each entry, the authors set the quotation in context, provide the name of the actor or actress, the name of the movie, and the year of release. The quotations are arranged by a broad range of categories, such as politics, food, and eating, gambling, and many others. A title index and a name index follow the body of the book.

From Dead Ends to Cold Warriors Peter W.Y. Lee, 2021-02-12. Peter W.Y. Lee explores how the legacy of the Great Depression and World War II shaped the formative years of the Cold War. Lee uses youth culture in American films to show how the postwar concerns over the family, race, militarism, and internationalism were carryovers from the past 15 years, which coalesced into anticommunism.

What Dreams Were Made Of Sean Griffin, 2011-04-28. Humphrey Bogart, Abbott and Costello, Judy Garland, and Mickey Rooney, John Wayne, Rita Hayworth, and Betty Grable: Images of these film icons conjure up a unique moment in cinema and history, one of optimism and concern, patriotism and cynicism. *What Dreams Were Made Of* examines the performers who helped define American cinema in the 1940s, a decade of rapid and repeated upheaval for Hollywood and the United States. Through insightful discussions of key films, as well as studio publicity and fan magazines, the essays in this collection analyze how these actors and actresses helped lift spirits during World War II, whether in service comedies, combat films, or escapist musicals. The contributors all major writers on the stars and movies of this period also explore how cultural shifts after the war forced many stars to adjust to new outlooks and attitudes, particularly in film noir. Together, they represented the hopes and fears of a nation during turbulent times, enacting on the silver screen the dreams of millions of moviegoers.

The Eternal Future of the 1950s Dennis R. Cutchins, Dennis R. Perry, 2023-07-17. Science fiction cinema, once relegated to the undervalued B movie slot, has become one of the dominant film genres of the 21st century, with Hollywood alone producing more than 400 science fiction films annually. Many of these owe a great deal of their success to the films of one defining decade: the 1950s. Essays in this book explore how classic 50s science fiction films have been recycled, repurposed, and reused in the decades since their release. Tropes from Don Siegel's *Invasion of the Body Snatchers* (1956), for instance, have found surprising new life in Netflix's wildly popular *Stranger Things*. *Interstellar* (2014) and *Arrival* (2016) have clear, though indirect, roots in the iconic 1950s science fiction films *Rocketship X-M* (1950) and *The Day the Earth Stood Still* (1951). *The Shape of Water* (2017) openly recalls and reworks the major premises of *The Creature from the Black Lagoon* (1954). Essays also cover 1950s sci-fi.
