Interactions Between Physics and Dynamics of Solar System Bodies E. Bois, P. Oberti, Jacques Henrard, 2012-12-06 Fans of Asterix the Gallic know well that the only fear of people in Brittany is that the sky falls upon their head So it must have been a shock for them the fans of Asterix to learn that a horde of Physicists and Dynamicists some of them being actually Roman ils sont fous ces Romains invaded the bay of Saint Brieuc and spend a full week conjuring all the nastiness that the sky has in reserve revelling in the horrors hidden beyond the blue dome they talked with delight about asteroids comets and meteor streams they grinned at the idea of artificial satellites these pots and pans of space always ready to fall upon you some of them said strange things about the Moon the planets and evoked the rings of Saturn or of some other of their gods One evening a Roman from Pisa went as far as cornering some inhabitants in the large hut they used for their witchcraft and filled them with terror by describing the fate of the poor dinosaurs victims of a particularly nasty asteroid or was it a comet You will be surprized to learn that Bretons did not exact a spectacular revenge for these offenses On the contrary
