Buddhist-Christian Dialogue as Theological Exchange Ernest M Valea,2015-10-29 This book is intended to encourage the use of comparative theology in contemporary Buddhist Christian dialogue as a new approach that would truly respect each religious tradition s uniqueness and make dialogue beneficial for all participants interested in a real theological exchange As a result of the impasse reached by the current theologies of religions exclusivism inclusivism and pluralism in formulating a constructive approach in dialogue this volume assesses the thought of the founding fathers of an academic Buddhist Christian dialogue in search of clues that would encourage a comparativist approach These founding fathers are considered to be three important representatives of the Kyoto School Kitaro Nishida Keiji Nishitani and Masao Abe and John Cobb an American process theologian The guiding line for assessing their views of dialogue is the concept of human perfection as it is expressed by the original traditions in Mahayana Buddhism and Orthodox Christianity Following Abe s methodology in dialogue an Orthodox contribution to comparative theology proposes a reciprocal enrichment of traditions not by syncretistic means but by providing a better understanding and even correction of one s own tradition when considering it in the light of the other while using internal resources for making the necessary corrections **Being Prayer---Transforming**

Consciousness Mary Rees,2006 Being Prayer offers timeless guidance a clear simple yet personal and challenging path for living fully in harmony and integrity with things just as they are It also provides rich resources for further study based on individual needs and interests In Defense of Dharma Tessa J. Bartholomeusz,2005-07-26 This is the first book to examine war and violence in Sri Lanka through the lens of cross cultural studies on just war tradition and theory In a study that is textual historical and anthropological it is argued that the ongoing Sinhala Tamil conflict is in actual practice often justified by a resort to religious stories that allow for war when Buddhism is in peril Though Buddhism is commonly assumed to be a

religion that never allows for war this study suggests otherwise thereby bringing Buddhism into the ethical dialogue on religion and war Without a realistic consideration of just war thinking in contemporary Sri Lanka it will remain impossible to understand the power of religion there to create both peace and war **Buddhist Studies from India to America** Damien Keown,2006-01-16 Buddhist Studies from India to America covers four important areas of Buddhist Studies Vinaya Studies and Ethics the history of Buddhist schools Western Buddhism and Inter religious dialogue These are the main areas which Charles S Prebish has either inaugurated or helped to define and his academic career as a leading international scholar and his significant professional achievements are celebrated within this volume The geographical and historical scope of the essays in this collection range from ancient India to modern America and includes contributions by well known international scholars The contributors discuss a variety of academic disciplines including philosophy psychology history feminism and sociology It will appeal to scholars whose interests embrace either ancient or modern aspects of the Buddhist tradition

Attracting the Heart Jeffrey Samuels,2010-07-06 An idealized view of the lifestyle of a Buddhist monk might be described according to the doctrinal demand for emotional detachment and ultimately the cessation of all desire Yet monks are also enjoined to practice compassion a powerful emotion and equally lofty ideal and live with every other human feeling love hate jealousy ambition while relating to other monks and the lay community In this important ethnography of Buddhism in Sri Lanka Jeffrey Samuels takes an unprecedented look at how emotion determines and influences the commitments that laypeople and monastics make to each other and to the Buddhist religion in general By focusing on multimoment histories Samuels highlights specific junctures in which ideas about recruitment vocation patronage and institution building are dynamically negotiated and refined Positing a nexus between aesthetics and affect he illustrates not only how aesthetic responses trigger certain emotions but also how personal and shared emotions at the local level shape notions of beauty Samuels uses the voices of informants to reveal the delicately negotiated character of lay monastic relations and temple management In the fields of religion and Buddhist studies there has been a growing recognition of the need to examine affective dimensions of religion His work breaks new ground in that it answers questions about Buddhist emotions and the constitutive roles they play in social life and religious practice through a close poignant look at small scale temple and social networks Throughout Samuels makes the case for the need to account for emotions in making intelligible the behavior of religious participants and practitioners Drawing on a decade of fieldwork that includes numerous interviews as well as an examination of written and visual sources Attracting the Heart conveys the manner in which Buddhists describe their own histories experiences and encounters as they relate to the formation and continuation of Buddhist monastic culture in contemporary Sri Lanka The book will be of interest to scholars and students of religion Buddhist studies anthropology and South and Southeast Asian studies **The Nature of Buddhist Ethics** Damien Keown,2016-07-27 In this book the author considers data from both early and later schools of Buddhism in an attempt to provide an overall characterization of the

structure of Buddhist ethics The importance of ethics in the Buddha's teachings is widely acknowledged but the pursuit of ethical ideals has up to now been widely held to be secondary to the attainment of knowledge Drawing on the Aristotelian tradition of ethics the author argues against this intellectualization of Buddhism and in favour of a new understanding of the tradition in terms of which ethics plays an absolutely central role In the course of this reassessment many basic concepts such as karma nirvana and the Eightfold Path are reviewed and presented in a fresh light The book will be of interest to readers with a background in either Buddhist studies or comparative religious ethics

Homage to Bimal Krishna Matilal Madhumita Chattopadhyay, Gargi Goswami, 2025-04-20 This anthology is actually a product of an International Conference organized to commemorate the 25th death anniversary of Professor Bimal Krishna Matilal Spalding Professor of Oxford University In line with the thoughts of their respected teacher students of Professor Matilal the contributors of this anthology have focused to show that the theories proposed by traditional Indian scholars from either the orthodox tradition or from the heterodox tradition can be found to deal with questions discussed by modern Western scholars The papers of Shoryu Katsura Arindam Chakraborty Nirmalya Narayan Chakraborty Mainak Pal O Brien and others exhibit evidence in this regard Not only logic or epistemology but also ethics and aesthetics had attracted Professor Matilal to such an extent that he provided a new analysis of dharma on the basis of the two great epics R m yana and Mah bh rata along with the views of contemporary Indian intellectual thinkers like Bankimchandra and Radhakrishnan to show how in Indian tradition even in contemporary writings philosophical theory and practical life go hand in hand In accordance with this ideal contributors like Robert P Goldman Indrani Sanyal Aparajita Mukhopadhyay and others have referred to the different instances of moral dilemma disputes and conflicts as found in epics to delineate the discourse of Dharma ethics When philosophy is viewed through the lens of the debate between a stra and its prayoga or application the ilpa stras or art treatises are best seen as a cross between an art manual meant for practice and a text that maintains quality control Thus this book is a must read text for anyone who wants to know the relevance of Indian philosophy in the solution of modern philosophical issues generally believed to belong to the Western philosophy **Destroying Mara Forever** John

vital guide to the main concepts and thinkers in Asian philosophy starting with Abhidharma and ending with Zurvan The main philosophical trends and thinkers in each geographical area are featured with an emphasis on contemporary developments and movements The A Z structured encyclopedia emphasizes that Asian philosophy is not merely an ancient form of thought but that it is a living philosophy with roots in the past and also a potent and animate presence today This translates into the reciprocal exchange of theories between Eastern and Western thinking for example of new schools of thought such as postmodernism Requiring no prior knowledge of philosophy religion or Asian cultures this book is essential reading for students teachers and the interested individual who wishes to gain an understanding of the philosophical basis to Asian cultural systems
