Cross-Border Marriages Nicole Constable, 2010-08-03 Illuminating how international marriages are negotiated arranged and experienced Cross Border Marriages is the first book to chart marital migrations involving women and men of diverse national ethnic and class backgrounds The migrations studied here cross geographical borders of provinces rural urban borders within nation states and international boundaries including those of China Japan South Korea India Vietnam the Philippines the United States and Canada Looking at assumptions about the connection between international marriages and poverty opportunism and women's mobility the book draws attention to ideas about global patterns of inequality that are thought to pressure poor women to emigrate to richer countries while simultaneously suggesting the limitations of such views Breaking from studies that regard the international bride as a victim of circumstance and the mechanisms of international marriage as traffic in commodified women these essays challenge any simple idea of global hypergamy and present a nuanced understanding where a variety of factors not the least of which is desire come into play Indeed most contemporary marriage scapes involve women who relocate in order to marry rarely is it the men But Nicole Constable and

the volume contributors demonstrate that contrary to popular belief these brides are not necessarily poor nor do they categorically marry men who are above them on the socioeconomic ladder Although often women may appear to be moving up from a less developed country to a more developed one they do not necessarily move higher on the chain of economic resources Complicating these and other assumptions about international marriages the essays in this volume draw from interviews and rich ethnographic materials to examine women s and men s agency their motivations for marriage and the importance of familial pressures and obligations cultural imaginings fantasies and desires in addition to personal and economic factors Border crossing marriages are significant for what they reveal about the intersection of local and global processes in the everyday lives of women and men whose marital opportunities variably yield both rich possibilities and bitter disappointments

educators and graduate students involved in CMFT *Sex, Culture, and Justice* Clare Chambers, 2010-11 Autonomy is fundamental to liberalism But autonomous individuals often choose to do things that harm themselves or undermine their equality In particular women often choose to participate in practices of sexual inequality cosmetic surgery gendered patterns of work and childcare makeup restrictive clothing or the sexual subordination required by membership in certain religious groups In this book Clare Chambers argues that this predicament poses a fundamental challenge to many existing liberal and multicultural theories that dominate contemporary political philosophy Chambers argues that a theory of justice cannot ignore the influence of culture and the role it plays in shaping choices If cultures shape choices it is problematic to use those choices as the measure of the justice of the culture Drawing upon feminist critiques of gender inequality and poststructuralist theories of social construction she argues that we should accept some of the multicultural claims about the importance of culture in shaping our actions and identities but that we should reach the opposite normative conclusion to that of multiculturalists and many liberals Rather than using the idea of social construction to justify cultural respect or protection we should use it to ground a critical stance toward cultural norms The book presents radical proposals for state action to promote sexual and cultural justice *Equally Shared Parenting* Marc Vachon, Amy Vachon, 2010-01-05 This Is Parenting on Your Own Terms Chances are you'd rather not forfeit your happy rested life the moment you become a parent As a mom you may want to keep your career but aren't sure how to balance it with housework and childcare As a dad you probably want to witness your child's milestones but a demanding job may get in the way And what about time for yourself never mind your sex life Marc and Amy Vachon were determined to beat this scenario when their first child was born They vowed to sidestep the world's expectations of new parents and create a parenthood model that worked for them Their strategy was to share everything the good and the bad They became peers in each area of parenthood childcare housework and breadwinning They also made time for themselves and for each other They shared the burdens so nobody was overwhelmed and the joys so neither missed out on the fun Drawing on Marc and Amy's experiences as well as those of dozens of ESP couples *Equally Shared Parenting* shows you how to create a balanced life that is rarely experienced by today's parents It's not just about who vacuums and who does the dishes or who brings in the paycheck and who tends to the kids You'll learn how to look at every aspect of parenthood money careers and your individual needs so you can build a life that works for you both
