Love In Chains:

Chain in Chains Alex Flemming, 2005-07-22 Chain in Chains tells the intimate stories of interconnected relationships of a small collection of adults The main characters Jeff and Maria are the central link in the chain Yet this link intertwines with other links in various further chains The story deals with the ecstatic enjoyment sexual liberation and positively stimulating experiences as well as the emotional pressures driven by personal demands and the requirements of society values In short this is story about sex and everything with which it is accompanied As the first novel in a series Chain in Chains releases a number of characters into the world who develop their relationships in various ways and grapple with the freedom to enjoy and the ambivalent requirements of everyday life Not for the prude or fainthearted For some a shocking revelation for most an about time look at what happens especially in the evenings behind closed doors

Margaret Trawick, 2023-11-15 Love as a force in human affairs is still not given much attention or credency by social scientists With Notes on Love in a Tamil Family Margaret Trawick places the notion of love prominently in social scientific discourse Her unforgettable and profusely illustrated study is a significant contribution to anthropology and to South Asian studies Trawick lived for a time in the midst of one large South Indian family and sought to understand the multiple and mutually shared expressions of anpu what in English we call love Often enveloping the author herself changing her as she inevitably changed her hosts this family performed before the young anthropologist's eyes the meaning of anpu through poetry and conversation through the not always gentle raising of children through the weaving of kinship tapestries through erotic exchanges among women among men and across the great sexual boundary She communicates with grace and insight what she learned from this Tamil family and we discover that love is no less universal than selfishness and individualism Love as a force in human affairs is still not given much attention or credency by social scientists With Notes on Love in a Tamil Family Margaret Trawick places the notion of love prominently in social scientific discourse Her unforgettable an

Faith, Hope, and Love in the Technological Society Franz A. Foltz, Frederick A. Foltz, 2018-07-31 Franz and Frederick Foltz examine how modern technology creates an environment that significantly affects Christianity by reducing the mysteries of faith to manageable techniques The body of their work analyzes the effects of technology on the theological virtues of faith hope and love the triad that believers have used for a common narrative to understand and express their thoughts and experiences They begin by looking at how recent developments have brought us into a post truth era by removing words from their context in nature time place and community Popular theologies such as the power of positive thinking the laws of creation the plan for salvation and the prosperity gospel reflect this change by gearing all for efficiently getting what we want and ignoring tradition The authors then examine each of the virtues separately finding that faith has become a risk management tool that depends on confidence in systems rather than personal relationships hope is defined as the expectation that our present desires shall be granted rather than a vision of the future and love has become an intimacy that provides escape from the real world and community rather than a self denying care for them Finally the authors take a look at some appropriate responses
