## **Love In The Future:**

Love for the Future David Osborne, 2013-06-14 Climate change pollution and diminishing resources mean that the future will be difficult for life on earth We need the courage to face up to what is happening the determination to work at the problems and the freedom to let go of the old ways of living which are causing such damage to the earth David Osborne tells of a long pilgrimage on foot to the island of Iona an ancient centre of Celtic Christianity and draws on the Bible the Christian tradition and other sources of wisdom to suggest the qualities we need to develop in ourselves for the journey we face into the future

*How to Fall in Love with the Future* Rob Hopkins, 2025-06-17 There are an infinite number of possible futures that lie ahead of us like threads stretching out into the distance Rob Hopkins cofounder of the international Transition Network movement invites us to travel to future worlds we would actually want to live in In 2020 when the COVID 19 pandemic disrupted every aspect of daily life climate activist and Transition Network cofounder Rob Hopkins responded the way a lot of people did by starting a podcast But it wasn't any ordinary podcast In each episode Hopkins and his guests would time travel together to the year 2030 walking down imagined future streets talking with imagined future neighbors visiting imagined future local businesses While Hopkins's guests came from all walks of life economists politicians bakers comedians novelists and more they all shared a willingness to suspend their worries about the future long enough to mentally inhabit and then describe a world they were thrilled to be a part of What Hopkins discovered was no less profound this simple exercise of visiting a positive future forced him to rethink the work he'd been doing as a climate activist for decades *How to Fall in Love with the Future* is the result of that radical disruption and Hopkins's deep dive into the people and movements throughout history who have used visions of the future to inspire positive change on a large and dramatic scale From the life and writings of musician Sun Ra and the history of Black utopian movements to the latest neuroscience on what goes on in our minds and hearts when we time travel Hopkins brings essential new thinking to anyone overwhelmed with dread and anxiety for the future He asks us to consider what would the world look like if we all got to work imagining and then building a world we were deeply in love with Rob Hopkins puts imagination back at the heart of future dreaming offering us an irresistible invitation to dream bigger and then make those dreams a reality Kate Raworth author of *Doughnut Economics*

**The Future of Love** Daphne Rose Kingma, 2010-04-21 The future of relationships is moving us toward the vaulting awareness of who we really are as human beings something we have managed to avoid for a very long time by being so thoroughly committed to convention This is the future of love vast love love beyond boundaries love without preconceptions and judgments love without outdated myths love which can actually be experienced At a time when over half of all marriages are ending in divorce Daphne Rose Kingma a well known therapist and relationship expert has recognized that our familiar ways of thinking about relationships are no longer working I have written this book because it is clear that many of our previous assumptions about relationships need to be dismantled writes Kingma As we go through this process we will discover a number of new ideas that our relationships can have different forms than we ever imagined that they will serve different purposes that they will require different offerings from us They will also bring us new gifts We are in the midst of a sea change in which not only are many traditional relationships failing but unexpected new arrangements are beginning to appear gay marriages are surfacing step families abound and many people are consciously choosing to live alone As Kingma explains these transformations should not be feared instead they represent a real opportunity In the past conventional relationships were often destroyed by an overemphasis on the nuts and bolts of psychology on working to achieve the unattainable perfect relationship while ignoring our most vital selves our souls The glorious message of The Future of Love is that the disturbing changes we are all experiencing are actually part of the soul's plan as it breaks down outdated
