## **Luna Myth Mystery:**

*Luna* Kathleen Cain, 1991      *Lunar myth and worship through the ages* Helena Petrovna Blavatsky, 2017-08-16 The Sun is the giver of life to the whole planetary system The Moon is the giver of life to our globe The Hindus proudly call themselves descendants of Solar and Lunar dynasties The Christians pretend to regard such beliefs as idolatry yet they adhere to a religion entirely based upon solar and lunar worship

**Mystery 1** The lowest key to the androgynous Moon is anthropomorphic and phallic The highest key is purely theogonic and divine The Jewish god with which the Christians have burdened themselves is no higher than the lunar symbol of Nature's reproductive or generative faculty The entire Pantheon of lunar gods and goddesses consists of sons and husbands of their mothers and is identical with the Christian Trinity

**Mystery 2** The riddle of the Two Ones unriddled The One Divine Essence ever unmanifested perpetually begets a second One manifested and androgynous in its nature The latter brings forth immaculately everything macro and micro cosmical in the universe But human procreation in the infernal regions of matter is far from divine it is a deadly sin Deus Lunus a male lunar deity became overtly androgyne in the Lemurian Race of our Round when sexes separated Later on its dual hermaphrodite power was exploited by Atlantean sorcerers Still in the present Aryan Race the same lunar solar worship continues dividing nations into two distinct and essentially antagonistic factions and cults Pagan and Papal cosmogonies are diametrically opposed The one is an ever youthful Mother Nature antitype of Sun and Moon creating immaculately the ideal universe the other by concocting an infernal Virgin Mary who brings forth a son of the earth earthy degrades everything divine and sacred to the lowest anthropomorphic goddess of the rabble The virgin goddess of the Latin Church is a faithful copy of the old pagan goddesses albeit counterfeit the twelve apostles stand for the twelve tribes the latter being personifications of the twelve great gods and the twelve signs of the Zodiac The liberal adoption by the Latin Church of such symbols as water fire sun moon and stars and a good many other things is a continuation of the old worship of Pagan nations under different names The belief that Fire finds refuge in Water was not limited to the old Scandinavians It was shared by all nations before taken up by the early Christians who symbolized the Holy Ghost under the shape of Fire the breath of the Father Sun descending into the Water or Sea Mother Mare Mary etc

**The Encyclopedia of Moon Mysteries** Constance Victoria Briggs, 2019-03-19. Our moon is an enigma. The ancients viewed it as a light to guide them in the darkness and a god to be worshipped. In modern times, it has been taught that the Moon is simply a dead rock that is caught in Earth's gravity with no activity. As a researcher of metaphysical, paranormal, and cosmic subjects, I have come across stories and information about the Moon that tell us that indeed there is activity there and there has been for generations. Just who or what is causing the commotion is a mystery. There are stories that suggest that the Moon is home to extraterrestrials, theories that it is not a natural satellite, tales of anomalous lights, and tales that NASA astronauts saw extraterrestrial ships and ruins of an ancient civilization there. There is a rumor that Apollo 13 was saved by extraterrestrials. Another story states that there are extraterrestrial bases on the Moon. There is even a tale that states that a part of the kingdom of Atlantis was once located there. Some even believe that there are cities beneath the surface of the Moon. There is an interesting account of a government employee using remote viewing as a means of seeing what is on the Moon. His experience is eye-opening. This is just a sample of the information that will be in *The Encyclopedia of Moon Mysteries: Secrets, Conspiracy Theories, Anomalies, Extraterrestrials, and More*. For example, did you know that Aristotle and Plato wrote about a time when there was no Moon? They even gave a name to an ancient tribe of people that lived during that moonless period. Several of the NASA astronauts reported seeing UFOs while traveling to the Moon. The Moon might be hollow. Apollo 10 astronauts heard strange space music when traveling on the far side of the Moon. Strange and unexplained lights have been seen on the Moon for centuries; there are said to be ruins of structures on the Moon. There is an ancient tale that suggests that the first human was created on the Moon. That radio signals have been detected

coming from the Moon that famed astronomer Sir John Herschel saw unidentified lights above the Moon during an eclipse that ancient Bolivian symbols tell us that the Moon came into Earth's orbit around 12 000 years ago a psychic was used by the government to relay information about the Moon The book is separated into A to Z sections for easy reference and reading *The Secret Doctrine: Anthropogenesis* Helena Petrovna Blavatsky,1893 **180 Keys to the Mystery**
