The North Carolina Roots of African American Literature William L. Andrews,2006 The first African American to publish a book in the South the author of the first female slave narrative in the United States the father of black nationalism in America these and other founders of African American literature have a surprising connectio

Common Whites Bill

Cecil-Fronsman,2015-01-13 Class and culture in Antebellum North Carolina have been largely forgotten In the past few years several important studies have examined common whites in individual counties or groups of counties but they have focused on family life the economy or other specific features of the common white life C ommon Whites Class and Culture in Antebellum North Carolina is the first comprehensive examination of these nonslaveholders and small slaveholders in over forty years Using North Carolina as a case in point Bill Cecil Fronsman has sketched a broad portrait of the world made by this group Drawing on travelers accounts newspapers folksongs and folktales quantitative analysis of census reports and above all the common whites own words he has woven the individual threads of their culture into an in depth analysis of their world and their responses to it This work focuses on the issues of class and culture Here Cecil Fronsman explores why the common whites accepted the slave system even though it worked to their disadvantage He demonstrates how the market economy of the outside world played a negligible role in their lives and how their unique traditional attitudes toward family and community evolved Finally he recounts how although most common whites supported the Confederate cause during the Civil War many of the old loyalties broke down during the war years The common whites though they outnumbered the slaves and the elites make up the least studied group in the Old South This book takes us beyond the stereotypes and misconceptions to a better understanding of a group of people virtually ignored by traditional history

Slavery and Class in the American South William L. Andrews,2019-01-02 The distinction among slaves is as marked as the classes of society are in any aristocratic community Some refusing to associate with others whom they deem to be beneath them in point of character color condition or the superior importance of their respective masters Henry Bibb fugitive slave editor and antislavery activist stated this in his Narrative of the Life and Adventures of Henry Bibb 1849 In William L Andrews s magisterial study of an entire generation of slave narrators more than 60 mid nineteenth century narratives reveal how work family skills and connections made for social and economic differences among the enslaved of the South Slave narrators disclosed class based reasons for violence that broke out between impudent gentleman and lady slaves and their resentful mean masters Andrews s far reaching book shows that status and class played key roles in the self and social awareness and in the processes of liberation portrayed in the narratives of the most celebrated fugitives from U S slavery such as Frederick Douglass Harriet Jacobs William Wells Brown and William and Ellen Craft

Slavery and Class in the American South explains why social and economic distinctions developed and how they functioned among the enslaved Noting that the majority of the slave narrators came from the higher echelons of the enslaved Andrews also pays close attention to the narratives that have received the least notice from scholars those from the most exploited class the field hands By examining the lives of the most and least acclaimed heroes and heroines of the slave narrative Andrews shows how the dividing edge of social class cut two ways sometimes separating upper and lower strata of slaves to their enslavers advantage but at other times fueling pride aspiration and a sense of just deserts among some of the enslaved that could be satisfied by nothing less than complete freedom The culmination of a career spent studying African American literature this comprehensive study of the antebellum slave narrative offers a ground breaking consideration of a unique genre of American literature

How Race Is Made Mark M. Smith,2006-12-08 For at least two centuries argues Mark Smith white southerners used all of their senses not just their eyes to construct racial difference and define race His provocative analysis extending from the colonial period to the mid twentieth century shows how whites of all classes used the artificial binary of black and white to justify slavery and erect the political legal and social structure of segregation Based on painstaking research *How Race Is Made* is a highly original always frank and often disturbing book After enslaved Africans were initially brought to America the offspring of black and white sexual relationships consensual and forced complicated the purely visual sense of racial typing As mixed race people became more and more common and as antebellum race based slavery and then postbellum racial segregation became central to southern society white southerners asserted that they could rely on their other senses touch smell sound and taste to identify who was white and who was not Sensory racial stereotypes were invented and irrational but at every turn Smith shows these constructions of race immune to logic signified

difference and perpetuated inequality Smith argues that the history of southern race relations and the construction of racial difference on which that history is built cannot be understood fully on the basis of sight alone In order to come to terms with the South's past and present Smith says we must explore the sensory dynamics underpinning the deeply emotional construction of race How Race Is Made takes a bold step toward that understanding Heading South to Teach Kim Tolley, 2015-08-31 Susan Nye Hutchison 1790 1867 was one of many teachers to venture south across the Mason Dixon Line in the Second Great Awakening From 1815 to 1841 she kept journals about her career family life and encounters with slavery Drawing on these journals and hundreds of other documents Kim Tolley uses Hutchison's life to explore the significance of education in transforming American society in the early national period Tolley examines the roles of ambitious educated women like Hutchison who became teachers for economic spiritual and professional reasons During this era working women faced significant struggles when balancing career ambitions with social conventions about female domesticity Hutchison's eventual position as head of a respected southern academy was as close to equity as any woman could achieve in any field By recounting Hutchison's experiences from praying with slaves and free blacks in the streets of Raleigh and establishing an independent school in Georgia to defying North Carolina law by teaching slaves to read Tolley offers a rich microhistory of an antebellum teacher Hutchison's story reveals broad social and cultural shifts and opens an important window onto the world of women's work in southern education Civil Wars, Civil Beings, and Civil Rights in Alabama's Black Belt Bertis D. English, 2020-10-06 Reconstruction politics and race relations between freed blacks and the white establishment in Perry County Alabama In his fascinating in depth study Bertis D English analyzes why Perry County situated in the heart of a violence prone subregion of Alabama enjoyed more peaceful race relations and less bloodshed than several neighboring counties Choosing an atypical locality as central to his study English raises questions about factors affecting ethnic disturbances in the Black Belt and elsewhere in Alabama He also uses Perry County which he deems an anomalous county to caution against the tendency of some scholars to make sweeping generalizations about entire regions and subregions English contends Perry County was a relatively tranquil place with a set of extremely influential African American businessmen clergy politicians and other leaders during Reconstruction Together with egalitarian or opportunistic white citizens they headed a successful campaign for black agency and biracial cooperation that few counties in Alabama matched English also illustrates how a significant number of educational institutions a high density of African American residents and an unusually organized and informed African American population were essential factors in forming Perry County's character He likewise traces the development of religion in Perry the nineteenth century Baptist capital of Alabama and the emergence of civil rights in Perry an underemphasized center of activism during the twentieth century This well researched and comprehensive volume illuminates Perry County's history from the various perspectives of its black interracial and white inhabitants amplifying their own voices in a novel way The narrative includes rich personal details about ordinary and affluent people
