Political Mothers:

The Political Uses of Motherhood in America Cynthia Stavrianos, 2014-11-13 As various contemporary groups use the language of motherhood to advance their political causes maternal rhetoric has become very visible in the American political discourse of late Yet while it has long been recognized that women have invoked their political status as mothers to organize and authorize their political action in the past scholars have only just begun to examine the recent reemergence of this frame This book describes the wide variety of political causes that mothers are organizing to address and analyses whether ideologically conservative organizations are disproportionately represented among groups using motherhood to mobilize women Stavrianos examines the use of maternal discourses in closer detail through a comparative case study of five groups using motherhood as their primary frame for collective political action Mothers Against Drunk Driving Million Mom March Mothers Against Illegal Aliens Mainstreet Moms Organize or Bust and Mothers in Charge Scholars interested in women and politics interest group politics social movements political behavior women s studies motherhood studies and framing strategies will find this book noteworthy as it adds to a growing body of literature exploring the use of motherhood as an emerging political frame and to the interdisciplinary discussion of contemporary discourses of motherhood **Mothers in**

Public and Political Life Simone Bohn, 2017-08-01 Even though in most nations women are at least almost half of the population in very few countries do they occupy a similar space in the formal institutions of political power They are said to lack a key element for a successful career in public life time From this perspective no one is worse off than women who are mothers From another perspective however motherhood is thought to help politicize women as this life changing experience makes them aware of the limitations of some specific public policies such as child care parental leave gendered labor practices etc as well as more conscious of the centrality of more encompassing public policies such as education health care and social assistance This book explores the challenges obstacles opportunities and experiences of mothers who take part in political and or public life *Elite Women in English Political Life C.1754-1790* Elaine Chalus, 2005-06-16 Publisher

Pieper Mooney, 2009-12-06 With the 2006 election of Michelle Bachelet as the first female president and women claiming fifty percent of her cabinet seats the political influence of Chilean women has taken a major step forward Despite a seemingly liberal political climate Chile has a murky history on women s rights and progress has been slow tenuous and in many cases non existent Chronicling an era of unprecedented modernization and political transformation Jadwiga E Pieper Mooney examines the negotiations over women s rights and the politics of gender in Chile throughout the twentieth century Centering her study on motherhood Pieper Mooney explores dramatic changes in health policy population paradigms and understandings of human rights and reveals that motherhood is hardly a private matter defined only by individual women or couples Instead it is intimately tied to public policies and political competitions on nation state and international levels The increased legitimacy of women s demands for rights both locally and globally has led to some improvements in gender equity Yet feminists in contemporary Chile continue to face strong opposition from neoconservatism in the Catholic Church and a mixture of public apathy and legal wrangling over reproductive rights and health *Women of Color Political Elites in the U.S.* Nadia E. Ramsay,2003 Although more women in France have entered political life than ever before the fact remains that there are fewer women representatives in the French parliament than there were after the Second World War In a new and original approach the author presents an overview and analysis of the emerging body of text by or on women who have held high political office in France The argument is that writing about women and politics has not just described or reflected women s slow but now substantial entry into political life it has played a major part in shaping the parity debate and its outcomes Interviews with political women such as Huguette Bouchardeau Simone Veil or Edith Cresson inserted in the text demonstrate the emergence and circulation of a new common discourse focused on the issue of whether women in politics make or should make a difference A close reading of the various texts examined in this book and their connection to new public counter discourses in France suggest that a re writing of power is indeed occurring **Protest Politics and the Democratization of South Korea** Youngtae Shin,2014-11-20 This book is about protest politics and social movements led by a group of women the Mothers who were inadvertently drawn into South Korea s democratization movement from the 1970s to the 2000s The Mothers were female family members of political dissidents of varying backgrounds and ages college students political and religious leaders writers and factory workers Women who initially had very little in common developed a bond as the days of their families detentions accumulated and their ordeals continued This led them to form a quasi organization prayer meeting group in the 1970s which eventually developed into permanent Mothers organizations in the mid 1980s The Mothers in this book include both the early and late

comers to the movement as the membership has undergone many changes since its inception in the 1970s While the individual Mothers are the primary focus this book explores beyond their individual concerns and activities It discusses various methods the individual Mothers employed to promote their causes and attempts to study how the activities of the organizations founded by the inexperienced Mothers have affected the process of Korea s democratization and how they remain active decades later

Troubling Motherhood Lucy B. Hall, Anna L. Weissman, Laura J. Shepherd, 2020 In global politics women s bodies are policed objectified surveilled and feared with particular attention paid to both their met or unmet procreative potential While the significance of motherhood varies across cultures it is as this book argues connected not just to gender and sexuality but also to religion and nationality Reproduction is central to the flourishing of any nation or culture and therefore motherhood is a major signifier of women s relationship to the state This is so much the case that states enact laws about which women can bear children and have supported sterilization efforts in cases where women are not deemed appropriate bearers of the nation States also legislate reproductive technologies adoption and government support for parenting By considering representations and narratives of maternity this volume shows how practices of global politics shape and are shaped by the

gendered norms and institutions that underpin motherhood Motherhood matters in global politics Yet the diverse ways in which performances and practices of motherhood are constituted by and are constitutive of other dimensions of political life are frequently obscured or assumed to be of little interest to scholars policymakers and practitioners Featuring innovative and diverse chapters on the politics of motherhood as an institution this collection shows that maternity is troubled complicated and heterogeneous in global politics Thus performances and practices of motherhood warrant closer and more sustained scrutiny This book builds on work by feminist international relations scholars extending into disruptive spaces of queer theory literary critique and post colonial studies The chapters in this book consider the meaning of motherhood particularly during times of war versus peace the connections between motherhood and nationhood and reproduction of the state and care work and maternal labor particularly as performed by transnational workers Ultimately this book demonstrates the complex interconnections between the individual the state and the global through the lens of maternity

Rhetorics of Motherhood Lindal Buchanan, 2013-04-08 Becoming a mother profoundly alters one's perception of the world as Lindal Buchanan learned firsthand when she gave birth Suddenly attentive to representations of mothers and mothering in advertisements fiction film art education and politics she became intrigued by the persuasive force of the concept of motherhood an interest that unleashed a host of questions How is the construct defined How are maternal appeals crafted presented and performed What do they communicate about gender and power How do they affect women Her quest for answers has produced *Rhetorics of Motherhood* the first book length consideration of the topic through a feminist rhetorical lens Although both male and female rhetors employ motherhood to promote themselves and their agendas Buchanan argues it is particularly slippery terrain for women on the one hand affording them authority and credibility but on the other positioning them disadvantageously within the gendered status quo *Rhetorics of Motherhood* investigates that paradox by detailing the cultural construction and performance of the Mother in American public discourse tracing its use and impact in three case studies and by theorizing how when and why maternal discourses work to women's benefit or detriment In the process the reader encounters a fascinating array of issues including birth control civil rights and abortion and rhetors ranging from Diane Nash and Margaret Sanger to Sarah Palin and Michelle Obama As Buchanan makes clear motherhood is a rich site for investigating the interrelationships among gender power and public discourse Her latest book contributes to the discipline of rhetoric by attending to and making a convincing case for the significance of this understudied subject With its examination of timely controversies contemporary and historical figures and powerful women *Rhetorics of Motherhood* will appeal to a wide array of readers in rhetoric communications American studies women's studies and beyond

Women, Islamisms and the State A.
