**Radical Representations** Barbara Foley, 1993 In this revisionary study Barbara Foley challenges prevalent myths about left wing culture in the Depression era U S Focusing on a broad range of proletarian novels and little known archival material the author recaptures an important literature and rewrites a segment of American cultural history long obscured and distorted by the anti Communist bias of contemporaries and critics Josephine Herbst William Attaway Jack Conroy Thomas Bell and Tillie Olsen are among the radical writers whose work Foley reexamines Her fresh approach to the U S radicals debates over experimentalism the relation of art to propaganda and the nature of proletarian literature recasts the relation of writers to the organized left Her grasp of the left s positions on the Negro question and the woman question enables a nuanced analysis of the relation of class to race and gender in the proletarian novel Moreover examining the articulation of political doctrine in different novelistic modes Foley develops a model for discussing the interplay between politics and literary conventions and genres **Radical Representations** recovers a literature of theoretical and artistic value meriting renewed attention from those interested in American literature American studies the U S left and cultural studies generally

stage involves an act of human judgment in a context determined by political economic and ideological factors This book and its case studies provide a fascinating insight into the dynamics of censorship and how these operate on both people and texts As such it will be of great interest to students and scholars interested in Japanese studies Japanese culture society and history and media studies more generally      *Referatedienst zur Literaturwissenschaft* ,1996      *Bulletin of the Atomic Scientists* ,1966-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world      Redacted Jonathan Abel,2012-09-13 At the height of state censorship in Japan more indexes of banned books circulated more essays on censorship were published more works of illicit erotic and proletarian fiction were produced and more passages were Xed out than at any other moment before or since As censors construct and maintain their own archives their acts of suppression yield another archive filled with documents on against and in favor of censorship The extant archive of the Japanese imperial censor 1923 1945 and the archive of the Occupation censor 1945 1952 stand as tangible reminders of this contradictory function of censors As censors removed specific genres topics and words from circulation some Japanese writers converted their offensive rants to innocuous fluff after successive encounters with the authorities But another coterie of editors bibliographers and writers responded to censorship by pushing back using their encounters with suppression as incitement to rail against the authorities and to appeal to the prurient interests of their readers This study examines these contradictory relationships between preservation production and redaction to shed light on the dark valley attributed to wartime culture and to cast a shadow on the supposedly bright open space of free postwar discourse Winner of the 2010 2011 First Book Award of the Weatherhead East Asian Institute Columbia University
