Language, Culture, and Identity among Minority Students in China Yuxiang Wang, 2013-03-05 This book explores Hui one of the Muslim minority groups in China students lived experiences in an elementary school in central P. R. China from the perspectives of philosophical foundations of education and the sociology of education the impact of their experiences on their identity construction and what schooling means to Hui students The book describes a vivid picture of how the Hui

construct their own identities in the public school setting and how the state curricula teachers and parents play roles in student identity construction The objectives of the book are to discover factors that impact Hui students identity construction and have caused Hui students to know little about their own culture and language and to explore what should be done to help teachers administrators and policy makers appreciate minority culture and include minority culture and knowledge in school curriculum in order to meet the needs of Hui students The book provides historical policy and curricular contexts for readers to understand Hui students experiences in central China and discusses the cultural differences between Han and Hui from a philosophical level The book uses postcolonial theory to critique the assimilative nature of school education the construction of Hui students identity from Han ideology and the cultural hegemony of the mainstream Han group It also discusses curriculum reconceptualization both in China and globally and the possibility of multicultural education in China

Educating the Chinese Individual Mette Halskov Hansen, 2015-01-01 In twenty first century China socialist educational traditions have given way to practices that increasingly emphasize the individual This volume investigates that trend drawing on Hansen s fieldwork in a rural high school in Zhejiang where students teachers and officials of different generations genders and social backgrounds form what is essentially a miniature version of Chinese society Hansen paints a complex picture of the emerging neosocialist educational system and shows how individualization of students both challenges and reinforces state control of society

China with a transcultural perspective *The Harvard-Yenching Institute and Cultural Engineering* Shuhua Fan, 2014-08-21 Through an empirical multi archival study of a transnational foundation the Harvard Yenching Institute HYI from the 1920s to the early 1950s this book presents the story of transplanting Western American humanities scholarship into Asia China and addresses central questions in U S China relations This book focuses on the HYI s programs in teaching research and publication of Chinese humanities within China to the early 1950s and to a lesser extent its activities at Harvard that had close ties with its China side Through the HYI story the author examines in depth the cooperation tensions adaptation and integration in the operation management and governance of the HYI s programs on both sides of the Pacific and the complex multi layered interactions between American educators and their Chinese partners treating each side sympathetically but without losing sight of the big picture As the first comprehensive study on the subject the book adopts a concept of cultural engineering which is defined as a conscious design to use cultural heritage to recreate culture in order to promote a society s development to look at key issues in a way which accounts for interactions and initiatives on both sides and shows the difficult path toward developing common interests without neglecting tensions and conflicts thus going beyond the various one sided historiographies which pit Chinese against Americans or nativist rejection of modernity against cultural imperialism The HYI experience in China from the 1920s to the early 1950s resonates down to the present day in American relations with the world The United States faces many similar challenges in the Middle East Asia Africa and Latin America today as in revolutionary China of the 1920s to 1950s Therefore this study offers a window onto many issues relating to cross cultural interactions today especially between the United States and non Western nations [Handbook of the Politics of China](#) David S.G. Goodman, 2015-11-27 The Handbook of the Politics of China is a comprehensive resource introducing readers to the very latest in research on Chinese politics David Goodman provides an introduction to the key structures and issues providing the foundations on which later learning can be built Including a comprehensive bibliography it is an ideal reference work for undergraduate and postgraduate students and academics The Handbook contains four sections of new and original research dealing with leadership and institutions public policy political economy and social change and international relations Each of the 26 chapters has been written by a leading internationally established authority in the field and each reviews the literature on the topic and presents the latest findings of research Presenting the state of the art of the field this reader oriented Handbook is an essential primer for the study of China s politics *A Bourdieusian Analysis of Chinese Transnational Higher Education Policy Enactment* Xiao Han, 2025-05-30 This book provides an empirical examination of the meso level policy enactment of transnational higher education in the context of China China s national policies have not been mechanically implemented at the sub national level the strategic enactment is always accompanied by great creativity innovation and or even resistance From the prism of Bourdieu s relational sociology this study moves away from the traditional centralization decentralization model or policy experiment hypothesis to examine how Chinese local officials

practices are simultaneously full of invention and improvisation and confined within the constraints and limits initially set on its inventions By so doing the book extends the application of Bourdieu's thinking tools to the arena of critical policy analysis through the establishment of the internal structure to separate habitus and the practice it generated thereby refuting any determinism or objectivism criticism to Bourdieu's most contested concept habitus This book will be of great interest to Bourdieusian scholars with particular interests in higher education and sociologists of education more broadly
