wealth of 690 photographs providing an illustration into the life of each wartime station      [A History of the Mediterranean Air War, 1940-1945](#) Christopher Shores, Russell Guest, 2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich s oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany s Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies      [A - Airports](#) British Library, 2012-05-21 No detailed description available for A Airports      **The Battle of Britain: The Greatest Air Battle of World War II** Richard Hough, Denis Richards, 2005-12-17 A definitive account of the three month air battle in 1940 between the Royal Air Force and the Luftwaffe The victory of the Battle of Britain ranks with Marathon and the Marne as a decisive point in history At the end of June 1940 having overrun much of Western Europe the Nazi war leaders knew that they had to defeat the Royal Air Force Fighter Command before they could invade the British mainland With a finely struck balance of historical background and dramatic renderings of RAF and Luftwaffe engagements over the English countryside Hough and Richards offer a history that is at once deep and wide ranging They offer insight into how the British laid the groundwork for victory through aircraft research and production the development and implementation of command and control structures and research into new technologies the most important of which was radar Hough and Richards also utilize first person

accounts of the battle whenever possible rendering the battle scenes with cinematic intensity A compelling introduction to one of the most important battles of World War II The Battle of Britain pays tribute to the men about whom Winston Churchill would remark Never in the field of human conflict was so much owed by so many to so few     **Poles in Defence of Britain** Robert Gretzyngier,2002-08-23 The little known WWII story of the Polish Air Force fliers who played a crucial role in the Battle of Britain and beyond To the Polish volunteers who flew and fought so brilliantly and tenaciously throughout the Battle of Britain the United Kingdom was known as Last Hope Island Many lost their lives such as Antoni Ostowicz Many achieved glory and became aces such as Glowacki Skalski and Witorzenc The RAF came to depend on these men with over one hundred Polish pilots supporting almost thirty fighter squadrons most especially 302 303 and 307 night fighter The result of years of research Robert Gretzyngier s book includes detailed combat descriptions personal accounts from combat reports memoirs and diaries from the Polish British and German perspective with in depth biographical data of all Polish pilots including full RAF and PAF careers and much tabular material in appendix form Poles in Defence of Britain is a tremendous account of Polish contribution in those hectic days before the RAF began to take the offensive across the Channel with many previously unpublished photographs from private collections     **Military Aircraft, 1919-1945** Justin D.
