natural endowments are depleted Alongside encroaching developers and industrialists is the presence of a rich environmental movement that has historically built community through musical activism From the Wobblies Little Red Songbook 1909 to Woody Guthrie s Columbia River Songs 1941 on through to the Raging Grannies formation in 1987 Cascadia s ecology has inspired legions of songwriters and musicians to advocate for preservation through music In this book Mark Pedelty explores Cascadia s vibrant eco musical community in order to understand how environmentalist music imagines and perhaps even creates a more sustainable conception of place Highlighting the music and environmental work of such various groups as Dana Lyons the Raging Grannies Idle No More Towers and Trees and Irthlingz among others Pedelty examines the divergent strategies musical organizational and technological used by each musical group to reach different audiences and to mobilize action He concludes with a discussion of applied ecomusicology considering ways this book might be of use to activists and musicians at the community level

The Raging Grannies Carole Roy, 2004 Women fought against slavery and offered shelter to hunted runaways demanded economic justice for the starving or working poor raised their voices when rights were trampled raised their fists when their children were murdered Women s collective acts of resistance have played and continue to play a vital but often unacknowledged role in humanizing social political and economic policies To death danger and oppression women have frequently responded in life affirming ways their contributions concealed in invisibility and silence for too long without stories of resistance and opposition But no more This is the tale of the Raging Grannies Their beginning and growth the invention of their identity the educational and bold potential of their activism the values expressed in their actions and songs and their impact on issues stereotypes media and people At a time when environmental destruction and war threatened when the growing chasm between poor and rich endangered justice a group of women stood up with courageous irreverence to denounce government lies corporate greed and short sightedness and in the process created a new cultural figure that challenged authority as well as stereotypes of women The Grannies distinctive approach is surprisingly popular and effective in sixteen years more than fifty groups of Raging Grannies exist across Canada in the United States and as far away as the UK Australia and Greece Greek Grannies call themselves Furies Their popularity reveals the power of creativity and humour which allow them to claim their space on the political scene refusing to be dismissed or ignored The Raging Grannies both records and celebrates this vibrant activism Bursting with adventures this is the tale of the Raging Grannies their beginning the invention of their identity and their impact on issues stereotypes media and people

Storying Later Life Gary Kenyon, Ernst Bohlmeijer, William L. Randall, 2010-12-20 In its brief but vigorous history gerontology has spawned a broadening range of specializations One of the newest of such specializations is narrative gerontology so named for its emphasis on the biographical or inside dimensions of the experience of aging Telling stories about our world our relationships and ourselves is fundamental to how we make meaning Everything from our history to our religion and our memories to our emotions is linked to the tales we tell ourselves and others about

where we have come from and where we are going They are central to who we are The biographical side of human life is every bit as critical to fathom as the biological side if we seek a more balanced positive and optimistic perspective on what aging is about if we would honor the dignity and complexity the humanity and uniqueness of the lives of older persons no matter what their health or economic standing In this respect a narrative approach is particularly suited to the exploration of such topics as meaning spirituality and wisdom and the connections they share This volume reflects a selection of new directions and insights and constitutes a general broadening and deepening of narrative gerontology exploring its implications for theory and research in the field of aging and for the quality of life of older adults themselves Such deepening indicates a greater refinement of thought method and intervention The evolution of narrative gerontology is also evidenced by a significant increase in the number of faculty and graduate students engaged in research in this area as well as by increasing collaboration among researchers practitioners and administrators in applying narrative insights to contexts such as long term care indeed healthcare in general These initiatives have given rise to the phrase narrative care as core care
