**Siberian Adventure 1918-1920** William Graves, 2019-05-09 America's Siberian Adventure 1918-1920 recounts the covert campaign by the US to stabilize a region plagued by an uprising of multiple conflicts following the end of World War 1. General William Graves was the man sent to Siberia to lead an expeditionary force deep into the frozen interior where Graves and his hardy men had to contend with Russian warlords, the Red Army, a roving brigade of Czechoslovakian troops, the need to protect the Trans-Siberian Railway, extreme weather conditions, and the regular armies of the Japanese and British. The results of the expedition were mixed, but historians agree that the operation materially contributed to bringing peace to the region, the ultimate goal of this unusual mission.

**British railway enthusiasm** Ian Carter, 2017-10-03 Now available in paperback, this is the first academic book to study railway enthusiasts in Britain. Far from a trivial topic, the post-war train spotting craze swept most boys and some girls into a passion for railways, and for many ignited a lifetime's interest. British railway enthusiasm traces this post-war cohort and those which followed as they invigorated different sectors in the world of railway enthusiasm: train spotting, railway modelling, collecting railway relics, and then, in response to the demise of main-line steam traction, Britain's now huge preserved railway industry. Today, this industry finds itself riven by tensions between preserving a loved past which ever fewer people can remember and earning money from tourist visitors. The widespread and enduring significance of railway enthusiasm will ensure that this groundbreaking text remains a key work in transport studies and will appeal to enthusiasts as much as to students and scholars of transport and cultural history.

*The Railway Preservation Revolution* Jonathan Brown, 2017-06-30 A ride on a steam train is a popular family outing. More than 100 heritage railways cater for that demand, capturing the spirit of nostalgia while preserving the engines and equipment of past days of rail travel. Their interests even extend to the modern era of 1960s-70s diesels. Those heritage railways themselves have a long pedigree back to 1951 when a group of enthusiasts saved the Talyllyn Railway in mid-Wales from closure. They ran this railway as volunteers out of their love of the little trains and a desire to keep it going. Their example was followed by many more preservation societies who preserved and restored branch lines, country lines, and industrial lines for our enjoyment now. Six decades have passed, and we are now beginning to realize what an impressive history the heritage railway movement has. This book traces that history from the humble beginnings, the hopes and ambitions of the pioneers on the different railway projects. There were times of failure and frustration as some fell by the wayside, but others have made it through times of adversity to become the major heritage businesses of today.

**Japan's Continental Adventure** Ching-Chun Wang, 2010-10-18 This book contains eighteen studies on various important phases of Japan's invasion of China. The appendix contains the historical declaration by Chiang Kai-shek setting forth clearly the reasons why China took up arms against Japanese aggression, and a lucid chapter by the veteran sinologist Owen Lattimore on what Korea pays for Japan's rule. Ever since the invasion of Manchuria by Japan in September 1931, the writer called attention to the fact that, in view of the League's commitments, aggression in the East, if not properly stopped according to the League Covenant, would encourage

aggression to spread beyond the limits of Asia      *Strangers and the Enchantment of Space in Victorian Fiction, 1830-1865*
