Turtle Ana Martín Larrañaga,2000 Moby-Duck Donovan Hohn,2011-03-03 Selected by The New York Times Book Review as a Notable Book of the Year A revelatory tale of science adventure and modern myth When the writer Donovan Hohn heard of the mysterious loss of thousands of bath toys at sea he figured he would interview a few oceanographers talk to a few beachcombers and read up on Arctic science and geography But questions can be like ocean currents wade in too far and they carry you away Hohn s accidental odyssey pulls him into the secretive world of shipping conglomerates the daring work of Arctic researchers the lunatic risks of maverick sailors and the shadowy world of Chinese toy factories Moby Duck is a journey into the heart of the sea and an adventure through science myth the global economy and some of the worst weather imaginable With each new discovery Hohn learns of another loose thread and with each successive chase he comes closer to understanding where his castaway quarry comes from and where it goes In the grand tradition of Tony Horwitz and David Quammen Moby Duck is a compulsively readable narrative of whimsy and curiosity Help Me Learn Mary Forman Rice,Charles H. Flatter,1979 Garner's Modern American Usage Bryan Garner,2009-08-27 A guide to proper American English word usage grammar pronunciation and style features examples of good and bad usage from the media **Whirling Rainbow** , Garner's Modern English Usage Bryan Garner,2016-03-11 With more than a thousand new entries and more than 2 300 word frequency ratios the magisterial fourth edition of this book now renamed Garner s Modern English Usage GMEU reflects usage lexicography at its finest Garner explains the nuances of grammar and vocabulary with thoroughness finesse and wit He discourages whatever is slovenly pretentious or pedantic GMEU is the liveliest and most compulsively readable reference work for writers of our time It delights while providing instruction on skillful persuasive and vivid writing Garner liberates English from two extremes both from the hidebound purists who mistakenly believe that split infinitives and sentence ending prepositions are malfeasances and from the linguistic relativists who believe that whatever people say or write must necessarily be accepted The judgments here are backed up not just by a lifetime of study but also by an empirical grounding in the largest linguistic corpus ever available In this fourth edition Garner has made extensive use of corpus linguistics to include ratios of standard terms as compared against variants in modern print sources No other resource provides as comprehensive reliable and empirical a guide to current English usage For all concerned with writing and editing

GMEU will prove invaluable as a desk reference Garner illustrates with actual examples cited with chapter and verse all the linguistic blunders that modern writers and speakers are prone to whether in word choice syntax phrasing punctuation or pronunciation No matter how knowledgeable you may already be you re sure to learn from every single page of this book
