The Routledge Handbook of Male Sex Work, Culture, and Society John Scott, Christian Grov, Victor Minichiello, 2021-03-20 Panoramic and provocative in its scope this handbook is the definitive guide to contemporary issues associated with male sex work and a must read for those who study masculinities male sexuality sexual health and sexual cultures This groundbreaking volume will have a powerful impact on our understanding of this challenging elusive subject

While the internet has brought the previously hidden worlds of male sex work more starkly into public view academic research has often remained locked into descriptions of male sex workers and their clients as perverse Drawing from a variety of regions the chapters provide insights into the historical popular cultural social and economic aspects of sex work as well as demographic patterns health outcomes and policy issues This approach shifts thought on male sex work from a hidden social problem to a publicly acknowledged social phenomenon The book challenges myths and reconceptualizes male sex work as a discrete field Importantly it provides a vehicle for the voices of male sex workers and new and established scholars This richly detailed humane and innovative collection retrieves male sex work from silence and invisibility on the one hand and its association with scandal and stigma on the other The findings within have profound implications for how governments approach public health and regulation of the sex industry and for how society can make sense of the complexities of human sexualities A compelling scholarly read and a major contribution to a commercial sector that is often neglected in policy debates on sex work this handbook will be of great interest to scholars of criminology sociology gender studies and cultural studies and all those interested in male sex work

The Madman's Guide to Sarcastic Definitions David Gudgeon, 2008-05 How do you combat boredom Write your own dictionary And yes it is as easy as it sounds provided that you are a total smart ass or at least ten cents short of your personal dollar Fortunately the author just happens to be one or the other or both Well at least he has his moments Really though the creation of this book is more along the lines of a challenge Having been told that he was so sarcastic that he could write a book about it he decided to actually do it and this book is the result This book has been done in dictionary form for ease of subject since sarcasm is not something that can necessarily be taught It is more of a skill one develops for themselves However having a reference with a wisecrack for a multitude of different subjects at your disposal doesn't hurt and therefore this book should be a good jumping off point for developing the skill Always choose subjects that are not likely to get you into trouble and keep in mind that you should use your best judgment all the same Remember this book has been written all in good fun
