Satan Unbound The Devil In Old English Narrative Literature:

Satan Unbound Peter Dendle, 2001-01-01 The ubiquitous conflict between saint and demon constitutes an ontological study of the boundaries between the holy and the unholy rather than a psychological study of temptation and sin BOOK JACKET

Reading Old English Biblical Poetry Janet Schrank Ericksen, 2020-11-03 Reading Old English Biblical Poetry considers the Junius 11 manuscript the only surviving illustrated book of Old English poetry in terms of its earliest readers and their multiple strategies of reading and making meaning Junius 11 begins with the Creation story and ends with the final vanquishing of Satan by Jesus The study is framed by particular attention to the materiality of the manuscript and how that might have informed its early reception and it broadens considerations of reading beyond those of the manuscript's compiler and possible patron As a book Junius 11 reflects a rich and varied culture of reading that existed in and beyond houses of God in England in the tenth and eleventh centuries and it points to readers who had enough experience to select and find wisdom narrative pleasure and a diversity of other things within this or any book's contents

Direct Speech in Beowulf and Other Old English Narrative Poems Élise Louviot, 2016 A new examination of the little studied phenomena of Direct Speech in Old English poetry Some of the most celebrated passages of Old English poetry are speeches Beowulf and Unferth's verbal contest Hrothgar's words of advice Satan's laments Juliana's words of defiance etc Yet Direct Speech as a stylistic device has remained largely under examined and under theorized in studies of the corpus As a consequence many analyses are unduly influenced by anachronistic conceptions of Direct Speech leading to problematic interpretations not least concerning irony and implicit characterisation This book uses linguistic theories to reassess the role of Direct Speech in Old English narrative poetry Beowulf is given a great deal of attention because it is a major poem and because it is the focus of much of the existing scholarship on this subject but it is examined in a broader poetic context the poem belongs to a wider tradition and thus needs to be understood in that context The texts examined include several major Old English narrative poems in particular the two Genesis Christ and Satan Andreas Elene Juliana and Guthlac A Elise Louviot is a Lecturer at the University of Reims Champagne Ardenne France and a specialist of Old English poetry Her research interests include orality tradition formulas and the linguistic expression of subjectivity

Imagination and Fantasy in the Middle Ages and Early Modern Time Albrecht Classen, 2020-08-24 The notions of other peoples cultures and natural conditions have always been determined by the

epistemology of imagination and fantasy providing much freedom and creativity and yet have also created much fear anxiety and horror In this regard the pre modern world demonstrates striking parallels with our own insofar as the projections of alterity might be different by degrees but they are fundamentally the same by content Dreams illusions projections concepts hopes utopias dystopias desires and emotional attachments are as specific and impactful as the physical environment This volume thus sheds important light on the various lenses used by people in the Middle Ages and the early modern age as to how they came to terms with their perceptions images and notions Previous scholarship focused heavily on the history of mentality and history of emotions whereas here the history of pre modern imagination and fantasy assumes center position Imaginary things are taken seriously because medieval and early modern writers and artists clearly reveal their great significance in their works and their daily lives This approach facilitates a new deep structure analysis of pre modern culture

Margaret's Monsters Michael E. Heyes, 2019-12-06 St Margaret of Antioch was one of the most popular saints in medieval England and throughout the Middle Ages the various Lives of St Margaret functioned as a blueprint for a virginal life and supernatural assistance to pregnant women during the dangerous process of labor In her narrative Margaret is accosted by various demons and having defeated each monster in turn she is taken to the place of her martyrdom where she prays for supernatural boons for her adherents This book argues that Margaret's monsters are a key element in understanding Margaret's importance to her adherents specifically how the sexual identities of her adherents were constructed and maintained More broadly this study offers three major contributions to the field of medieval studies first it argues for the utility of a diachronic analysis of Saints Lives literature in a field dominated by synchronic analyses second this diachronic analysis is important to interpreting the intertext of Saints Lives not only between different Lives but also different versions of the same Life and third the approach further suggests that the most valuable socio cultural information in hagiographic literature is found in the auxiliary characters and not in the figure of the saint him herself

Our Old Monsters Brenda S. Gardenour Walter, 2015-07-22 The witch the vampire and the werewolf endure in modern horror These old monsters have their origins in Aristotle as studied in the universities of medieval Europe where Christian scholars reconciled works of natural philosophy and medicine with theological precepts They codified divine perfection as warm light male and associated with the ethereal world beyond the moon while evil imperfection was cold dark female and bound to the corrupt world below the moon All who did not conform to divine goodness including un holy women and Jews were considered evil and ascribed a melancholic blood hungry and demonic physiology This construct was the basis for anti woman and anti Jewish discourse that has persisted through modern Western culture Nowhere is this more evident than in horror films where the witch the vampire and the werewolf represent our fear of the inverted other
