Saving San Antonio The Precarious Preservation Of A Heritage:

Saving San Antonio Lewis F. Fisher, 2016-08-22 Few American cities enjoy the likes of San Antonio's visual links with its dramatic past. The Alamo and four other Spanish missions recently marked as a UNESCO World Heritage site are the most obvious, but there are a host of landmarks and folkways that have survived over the course of nearly three centuries that still lend San Antonio an odd and antiquated foreignness. Adding to the charm of the nation's seventh largest city is the San Antonio River, saved to become a winding linear park through the heart of downtown and beyond, and a world model for sensitive urban development. San Antonio's heritage has not been preserved by accident. The wrecking balls and headlong development that accompanied progress in nineteenth century San Antonio roused an indigenous historic preservation movement, the first west of the Mississippi River to become effective. Its thrust has increased since the mid 1920s with the pioneering work of the San Antonio Conservation Society. In *Saving San Antonio*, Texas historian Lewis Fisher peels back the myths surrounding more than a century of preservation triumphs and failures to reveal a lively mosaic that portrays the saving of San Antonio's cultural and architectural soul. The process, entertaining in the telling, has reverberated throughout the United States and provided significant lessons for the built environments and economies of cities everywhere.

Restoring Women's History Through Historic Preservation Gail Lee Dubrow, Jennifer B. Goodman, 2003-01-28 This essay collection draws upon work presented at three national conferences on women and historic preservation held at Bryn Mawr College in 1994, Arizona State University in 1997, and at Mount Vernon College in 2000.

A Field Guide to the Vernacular Buildings of the San Antonio Area Brent Fortenberry, 2021-08-16 The rich multicultural heritage of San Antonio and the Texas Hill Country provide the backdrop for this first comprehensive guide to the culturally significant vernacular buildings of this diverse and historic region: structures designed and constructed by the people who used them rather than by professional architects or builders. A valuable, easy-to-use resource for heritage travelers, historic preservationists, and local historians, *A Field Guide to the Vernacular Buildings of the San Antonio Area* pairs incisive interpretive essays with detailed building descriptions, photographs, and architectural renderings. Featuring contributions from noted architectural historians and preservationists including Ken Hafertepe, Lewis Fisher, Maria Pfeiffer, and Sarah Z. Gould, this handy, generously illustrated guide will not only provide context and insight for understanding the importance of these buildings but will also engage readers with the challenges of preserving our cultural heritage as represented in the built environment. Professional and avocational preservationists, along with interested travelers and general readers, will appreciate the thorough discussion and analysis of such well-known sites as the San Antonio Riverwalk, the San Antonio missions, and the public buildings of the historic Westside district. Reaching beyond the immediate vicinity of San Antonio, the book also offers expert commentary on the German settlements in Central Texas and east of San Antonio, providing an inclusive and inviting survey of how settlers of various origins placed their unique imprints on Texas.

Revolutionary Women of Texas and Mexico Kathy Sosa, Ellen

Riojas Clark, Jennifer Speed, 2020-12-01 Much ink has been spilled over the men of the Mexican Revolution but far less has been written about its women Kathy Sosa Ellen Riojas Clark and Jennifer Speed set out to right this wrong in *Revolutionary Women of Texas and Mexico* which celebrates the women of early Texas and Mexico who refused to walk a traditional path The anthology embraces an expansive definition of the word revolutionary by looking at female role models from decades ago and subversives who continue to stand up for their visions and ideals Eighteen portraits introduce readers to these rebels by providing glimpses into their lives and places in history At the heart of the portraits are the women of the Mexican Revolution 1910 1920 women like the soldaderas who shadowed the Mexican armies tasked with caring for and treating the wounded troops Filling in the gaps are iconic godmothers like the Virgin of Guadalupe and La Malinche whose stories are seamlessly woven into the collective history of Texas and Mexico Portraits of artists Frida Kahlo and Nahui Olin and activists Emma Tenayuca and Genoveva Morales take readers from postrevolutionary Mexico into the present Portraits include a biography an original pen and ink illustration and a historical or literary piece by a contemporary writer who was inspired by their subject s legacy Sandra Cisneros Laura Esquivel Elena Poniatowska Carmen Tafolla and other contributors bring their experience to bear in their pieces and historian Jennifer Speed s introduction contextualizes each woman in her cultural historical moment A foreword by civil rights activist Dolores Huerta and an afterword by scholar Norma Elia Cant bookend this powerful celebration of women who revolutionized their worlds *Inventing the Fiesta City* Laura

Baker, Zelmarié Cantillon, 2019-06-15 Remembering Popular Music s Past capitalizes on the growing interest globally in the preservation of popular music s material past and on scholarly explorations of the ways in which popular music as heritage is produced legitimized and conferred cultural and historical significance The chapters in this collection consider the spaces

practices and representations that constitute popular music heritage to elucidate how popular music's past is lived in the present. Thus the focus is on the transformation of popular music into heritage and the role of history and memory in this process. The cultural studies framework adopted in *Remembering Popular Music's Past* encompasses unique approaches to popular music historiography, sociology, film analysis, and archival and museal work. Broadly, the collection deals with the precarious nature of popular music heritage, history, and memory.

Towards World Heritage Melanie Hall, 2016-02-24

Historic preservation, whether of landscapes or buildings, was an important development of the nineteenth century in many countries. There is, however, surprisingly little understanding about how it took place, and research into it is narrowly focused. For example, generally, landscape preservation from this time is examined separately from buildings preservation; is seen in terms of national narratives or considered within the contexts of area studies; and it is usually seen from a specific disciplinary perspective. All of these later categorizations did not apply at the time, and consequently, a very partial view is achieved. In order to begin unlocking a very complex phenomenon that has helped to define our own age, this dynamic collection of essays brings together an international and transdisciplinary line-up of academics and practitioners to reconsider preservation's origins in the second half of the nineteenth and early part of the twentieth century. With a focus on Britain and the British Empire, and including case studies from the United States, Canada, Sweden, France, Germany, Sri Lanka, The Holy Land, and Turkey, this book places preservation in imperial, international, and national contexts, demonstrating that there was far more interaction between different countries in this arena than may be supposed, and revealing remarkable but hitherto hidden overlaps and intersections. It examines three main themes: the influence of religion, the political and sub-diplomatic aspects of preservation, and the professionalization of preservation practice. Internationalizing trends already existed through the churches, the universities, and the diplomatic services, as well as familial ties that had an important impact on preservation's epistemic communities and its targets. Other internationalizing factors include an interest in national histories and the histories of architecture and art, particularly when known through illustration; a growing interest in biography, especially of founding fathers or famous literary figures; and tourism. Although the focus is on architectural preservation, this book demonstrates that in this formative period, the preservation of buildings and landscapes needs to be considered together, as it often was at the time, and in context. The conclusion reached is that the preservation movement has to be understood in imperial and international contexts, rather than in simply national or regional ones.
