Seminar The Story Of The American Press Institute:

Seminar Don E. Carter, Malcolm F. Mallette, 1992 This book is more than a bare bones recital of how API came into being just after World War II It is also the story of certain talented and dedicated individuals and should be of interest to anyone who has ever read a newspaper and wondered about the people who produce them **The Postwar Decline of American**

Newspapers, 1945-1965 David R. Davies, 2006-07-30 On the surface the American newspaper industry appears to have changed little from 1945 to 1965 remaining both healthy and prosperous The number of newspapers in 1965 was about the same as in 1945 while during the twenty year period advertising revenues increased substantially despite new competition from television Just as in 1945 the vast majority of newspapers went to press with improved but old fashioned letterpress methods in 1965 And newspaper reporters still professed a strong if now somewhat shaken faith in the federal government at the end of the twenty years But the surface appearance of both stability and profitability obscured profound change In the two decades after World War II the business of newspaper publishing changed significantly in myriad ways By 1965 editors and publishers had recognized the extent of these changes and were beginning to adjust Each of the changes was significant of its own accord and the range of challenges throughout the period combined to transform newspapers and the nation they served by 1965 This transformation was evident to varying degrees in newspapers content their production methods their economic position within the overall media marketplace and their relationship with government Newspapers some more than others made strides to keep up with and overcome some of these challenges But in each of these areas newspapers as a group were slow to respond to the problems facing journalism Pulitzer's School James R. Boylan, 2003 The debate over the school's merits and shortcomings has been strong and at times vehement even into the twenty first century In 2002 the old argument was reopened and the school found itself publicly scrutinized once again Had it lived up to Pulitzer's original vision of a practical uncompromising and multifaceted education for journalists Was its education still relevant to the needs of contemporary journalists

Vivian Castleberry Kimberly Wilmot Voss, 2023-03-06 Considered by some as the most important woman in Dallas in the latter half of the 20th century Vivian Castleberry was a force for women nationally and internationally In shining a light on her career more becomes known about her fights and her victories Through this book historians can better understand that the relationship of the women's pages to the women's movement between the 1950s and 70s was more complex than previously explored Known as the godmother of the Dallas women's movement Vivian was a trailblazer Yet she was also a mother of five daughters at a time when working outside the home was still being challenged and that was an experience many middle class women struggled with Her role in the public sphere meant she often told the stories of others This book is her story **Patronizing the Public** William J. Buxton, 2009-08-16 Patronizing the Public

American Philanthropy's Transformation of Culture Communication and the Humanities is the first detailed and comprehensive examination of how American philanthropic foundations have shaped numerous fields including dance drama

education film film music folklore journalism local history museums radio television as well as the performing arts and the humanities in general Drawing on an impressive range of archival and secondary sources the chapters in the volume give particular attention to the period from the late 1920s to the late 1970s a crucial time for the development of philanthropic practice To this end it examines how patterns and directions of funding have been based on complex negotiations involving philanthropic family members elite networks foundation trustees and officers cultural workers academics state officials corporate interests and the general public By addressing both the contours of philanthropic power as well as the processes through which that power has been enacted it is hoped that this collection will reinforce and amplify the critical study of philanthropy s history

Cop Cop Mac Muir,Greg Finch,2025-04-29 In the vein of *Evicted* and *Locking Up Our Own* comes a seminal work that delves deep behind the Thin Blue Line of policing and police misconduct to demonstrate what really goes on when you try to hold the police accountable How often do you think about the police Who do you think of Columbo Chief Wiggum Derek Chauvin Do you think of just one officer or do you think of the police as an institution From movies and television to everyday life a police presence looms over most conflict Today we know this to be most true for Black Americans for whom the suspense of policing is constant And too often the argument over dinner devolves into a 9 1 1 call blue and red lights and possibly a door rammed open Some of us are watched by the police and others are chased But if there was a defining feature of the 2020 protests over the murder of George Floyd it was the collective confusion about how we got to this point Policing it seemed had become as ahistorical as it was brutal Despite fragmented coverage about police unions militarization and systemic racism America remained hazy on the details of what cops had been doing all along There is a Blue Wall and ways to get behind it The authors of this book Anon 1 and Anon 2 are senior investigators of a government agency tasked with policing the police in New York City They re our eyes on the inside and this book will take us into their world COP COP follows the web of real cases that the authors investigated over several years inside the Civilian Complaint Review Board As they investigate everything from offensive language and chokeholds to

shootings the larger investigation builds into their argument for six simple solutions to fix American policing Readers will come away with a new vantage point as well as the tools of an investigator By combining their unique perspectives as police misconduct investigators with a synthesized history of policing this book offers newfound insights into what policing really looks like what the problems are and what practical steps are necessary to create a criminal justice system that is truly just

Educational Practices in China, Korea, and the United States Chuang Wang, Lan Kolano, Do-Hong Kim, 2020-03-01 This book is written by a diverse cohort of both of American educators including professors teachers school counselors and school administrators from pre K to college levels Most of the contributors come from disciplinary areas of English as a second language and school administration With the pressure of Common Core State Standards Initiative American educators are now shifting their focus to standards based instruction Meanwhile Chinese educators are moving away from national standards and developing state level curriculum and instruction to meet specific needs of the students in local provinces There is also a debate about whether or not to use the National College Entrance Examination as the only test for college admission Some provinces e g Zhejiang and Hubei are administering their own college entrance examinations The book outlines the sociocultural roots of education in the three countries linking the tradition and philosophical orientations to each country s own history of education Furthermore the book compares and contrasts the curriculum especially the teaching of English as a second foreign language in three countries This book examines the stress of students physical education various pedagogical styles in foreign language education as well as instructional texts and cross cultural dialogue between teachers Additionally the book explores factors that influence parent s involvement and women s educational and career aspirations Lastly the book presents modern technologies such as smart learning technologies and online learning platforms not only to facilitate future educational systems but also to promote international exchanges The chapters of the book are thematically diverse but they help to provide inspirations for educators both in American and Asian countries The findings offer alternative practical lenses for educational community to seek for some middle ground between Chinese South Korea and American education The intended audience for this book is graduate students teachers administrators and professionals in education

Directory of Research Grants 2008 Schoolhouse Partners Llc, 2008-05 It was the 50s and life was simple until September 25 1954 That was the night that would be etched in the memory of the citizens of Stanfield Massachusetts The Chief of Police described the brutal savagery of the double homicide as the most atrocious crime in the history of the city A fourteen year old girl and the four year old boy in her care were murdered at the hands of a deranged depraved killer A Thread of Evidence places the reader at the scene of the crime an eye witness to the senseless stabbing of two innocent children With a piece of crochet thread as their only clue the entire police department lead by detectives Steven Logan and Raymond Gage scour the city in search of a maniacal savage When all tips and leads have been exhausted they review all evidence They come back to the thread The only real evidence With tenacity and perseverance of Logan and Gage the killer is apprehended The reader experiences the twists and turns of the investigation and ultimately occupies a reserved seat in the Superior Court as the trial proceedings commence A Thread of Evidence has been written as fiction but inspired by an actual event Fifty years later it remains etched in the minds of all who had lived in the area The author has researched court records newspapers interviewed

neighbors police and has drawn on personal recollections of the crime The story has been recounted over and over and to this day it continues to be discussed A Thread of Evidence is a compelling account of superb detective work and unprecedented dedication of an entire police department Community Journalism Jock Lauterer,2009-11-20 No matter how ambitious they may be most novice journalists don t get their start at the New York Times They get their first jobs at smaller local community newspapers that require a different style of reporting than the detached impersonal approach expected of major international publications As the primary textbook and sourcebook for the teaching and practice of local journalism and newspaper publishing in the United States Community Journalism addresses the issues a small town newspaper writer or publisher is likely to face Jock Lauterer covers topics ranging from why community journalism is important and distinctive to hints for reporting and writing with a community spin to design production photojournalism and staff management This third edition introduces new chapters on adjusting to changing demographics in the community and best practices for community papers Updated with fresh examples throughout and considering the newest technologies in editing and photography this edition of Community Journalism provides the very latest of what every person working at a small newspaper needs to know
