Semiotics in Poland 1894-1969 J. Pelc,2012-12-06 In the Introduction to the Polish language version of the present book I expressed the hope that Polish studies in semiotics would before long be numerous enough to make possible another anthology on semiotics in Poland containing material published since 1970 That hope has in fact come true The fact that semiotic research has been gaining momentum in this country is reflected in the growing interest in the discipline in expanding international contacts and in the steady increase in the number of publications Thus 1972 saw the setting up of the Department of Logical Semiotics headed by the present writer at Warsaw University Institute of Philosophy The seminar on semiotics which I started in 1961 had met more than two hundred times by the end of 1976 since 1968 meetings have been held jointly with the Polish Semiotic Society Another seminar confined to university staff and concerned with logical semiotics which was initiated in 1970 had met more than fifty times by the end of 1976 The former seminar often plays host to foreign visiting professors so far scholars from Australia Belgium Britain Canada Czechoslovakia France the German Democratic Republic Italy the Netherlands the Soviet Union and the United States have attended *Bibliography of Semiotics, 1975-1985* Viktoria Eschbach-Szabo,1986-01-01 This bibliography of semiotic studies covering the years 1975 1985 impressively reveals the world wide intensification in the field During this decade national semiotic societies have been founded all over the world a great number of international national and local semiotic conferences have taken place the number of periodicals and book series devoted to semiotics has increased as has the number of books and dissertations in the field This bibliography is the result of a dedicated effort to approach complete coverage **Kazimierz Twardowski on Actions, Products and other Topics in Philosophy**,2023-05-30 Kazimierz Twardowski 20 10 1866 Vienna 11 02 1938 Lvov is most commonly known as the teacher of great philosophers and the founder of the Lvov Warsaw School As a philosopher however he is primarily remembered for his famous comparison of the contents and objects of various kinds of representations a comparison that remains enshrined in European thought In fact he attained important results in many other branches of philosophy as well For instance in descriptive ontology he laid the foundations for the modern theory of formal structure of objects and he introduced the theoretically fruitful pair of terms action product In epistemology he developed a profound analysis of the notion and criteria of truth and he provided a forceful account of the errors underlying relativist theories of truth In methodology he drew an explicit distinction between the processes of discovering systematising and grounding in science and he offered accurate descriptions of the nature of psychology and other humanities In philosophical logic he offered decisive arguments on behalf of the idiogenetic conception of judgement and he improved the traditional typology of adjectives These achievements are of significance that is not only historical Kazimierz Twardowski's work formulated in plain precise language are instructive and inspiring for contemporary students of philosophy **The Semiotic Web 1986** Thomas A.
