Vitoria: Political Writings Francisco de Vitoria, 1991-10-31 Francisco Vitoria was the earliest and arguably the most important of the Thomist political philosophers of the Counter Reformation. Not only did he write important essays on civil and ecclesiastical power but he became celebrated for his defence of the new world Indians against the imperialism of his own master the King of Spain. Vitoria's political works are thus of great importance for an understanding both of the rise of modern absolutism and the debate about the emergent imperialism of the European powers. His works are also unusually accessible since they survive mainly in the form of relectiones or summaries delivered at the end of his lecture courses on law and theology at the University of Salamanca. Translated here into English for the first time these texts comprise the core of Vitoria's thought and will be of interest to specialists in political theory and the history of ideas, ecclesiastical history and the history of early modern Spain. A comprehensive introduction, a chronology and a bibliography accompany the texts.

This volume contains the most important of Diderot's articles for the *Encyclopédie*, a substantial number of his contributions to the *Histoire*, the complete texts of his *Supplément au Voyage de Bougainville*, one of his most visionary works, and his *Observations sur le Nakaz*, a precise and detailed political work translated here into English for the first time. The editors' introduction sets these works in their context and shows the underlying coherence of Diderot's thought. A chronology of events and a bibliography are included as further aids to the reader.
