## **Sense Of Direction:**

**Why People Get Lost** Paul A. Dudchenko, 2010 At some point in our lives most of us have been lost How does this happen What are the limits of our ability to find our way Do we have an innate sense of direction How people get lost reviews the psychology and neuroscience of navigation It starts with a history of studies looking at how organisms solve mazes It then reviews contemporary studies of spatial cognition and the wayfinding abilities of adults and children It then considers how specific parts of the brain provide a cognitive map and a neural compass This book also considers the neurology of spatial disorientation and the tendency of patients with Alzheimer s disease to lose their way Within the book the author proposes that we get lost because our brain s compass becomes misoriented This book is written for anyone with an interest in navigation and the brain It assumes no specialised knowledge of neuroscience but covers recent advances in our understanding of how the brain represents space

**Memory in the Real World** Gillian Cohen, 1996 This fully revised and updated third edition of the highly acclaimed Memory in the Real World includes recent research in all areas of everyday memory Distinguished researchers have contributed new and updated material in their own areas of expertise The controversy about the value of naturalistic research as opposed to traditional laboratory methods is outlined and the two approaches are seen to have converged and become complementary rather than antagonistic The editors bring together studies on many different topics such as memory for plans and actions for names and faces for routes and maps life experiences and flashbulb memory and eyewitness memory Emphasis is also given to the role of memory in consciousness and metacognition New topics covered in this edition include life span development of memory collaborative remembering deja vu and memory dysfunction in the real world Memory in the Real World will be of continuing appeal to students and researchers in the area

**Intuition, Theory, and Anti-theory in Ethics** Sophie Grace Chappell, 2015 What form or forms might ethical knowledge take In particular can ethical knowledge take the form either of moral theory or of moral intuition If it can should it A team of experts explore these central questions for ethics and present a diverse range of perspectives on the discussion
