Sense Nonsense:

Nonsense and Other Senses Elisabetta Tarantino with the collaboration of Carlo Caruso, 2020-07-24 This book deals with a topic that is gaining increasing critical attention the literature of nonsense and absurdity The volume gathers together twenty one essays on various aspects of literary nonsense according to criteria that are deliberately inclusive and eclectic Its purpose is to offer a gallery of nonsense practices in literature across periods and countries in the conviction that important critical insights can be gained from these juxtapositions Most of the cases presented here deal with linguistic nonsense but in a few instances the nonsense operates at the higher level of the interpretation of reality on the part of the subject or of the impossibility thereof The contributors to the volume are established and younger scholars from various countries Chronologically the chapters range widely from Dante to Václav Havel and offer a large span of national literatures Czech English Finnish French German Italian Japanese and literary genres poetry prose and drama inviting the readers to trace their own pathway and draw their own lines of connection One point that emerges with particular force is the notion that what distinguishes literary nonsense is its somehow regulated nature Literary nonsense thus sounds like a deliberate last ditch attempt to snatch order from the jaws of chaos the speech of the Fool as opposed to the tale told by an idiot It is this kind of post Derridean retrieval of choice as the defining element in semantic transactions which is perhaps the most significant insight bequeathed by the study of nonsense to the analysis of poetry and literature in general

Language, Text and Context Michael Toolan, 2016-11-18 First published in 1992 this wide ranging collection of essays focuses on the principle of contextualisation as it applies to the interpretation description theorising and reading of literary and non literary texts The collection aims to reveal the interdependencies between theory analysis text and context by challenging the myth that stylistics entails a fundamental separation of text from context linguistic description from descriptive interpretation or language from situation The essays cover a historically diverse set of texts from Puttenham to Colemanballs and a number of language sensitive topics such as post modernism irony newspaper representations gender and narrative

The Joke of Reality Tristan Burt, 2025-05-06 In his Critique of Pure Reason Immanuel Kant noted that the understanding intuits nothing Now the significance of this insight comes to light Tristan Burt explains why our intuition of nothing resolves a central philosophical problem how can we know what is absolutely real The answer to this question is as surprising and amusing as reality itself

The Cry of the Senses Ren Ellis Neyra,2020-10-26 In *The Cry of the Senses* Ren Ellis Neyra examines the imaginative possibility for sound and poetics to foster new modes of sensorial solidarity in the Caribbean Americas Weaving together the black radical tradition with Caribbean and Latinx performance cinema music and literature Ellis Neyra highlights the ways Latinx and Caribbean sonic practices challenge antiblack colonial post Enlightenment and humanist epistemologies They locate and address the sonic in its myriad manifestations across genres and forms in a legal trial and in the art and writing of Xandra Ibarra the Fania All Stars Beatriz Santiago Muñoz douard Glissant and Eduardo Corral while demonstrating how it operates as a raucous form of diasporic dissent and connectivity Throughout Ellis Neyra emphasizes Caribbean and Latinx sensorial practices while attuning readers to the many forms of blackness and queerness Tracking the sonic through their method of multisensorial poetic listening Ellis Neyra shows how attending to the senses can inspire alternate ethical ways of collective listening and being

The Ethics and Poetics of Alterity Maylis Rospide,Sandrine Sorlin,2015-09-04 This volume focuses on language and ethics in literary genres such as dystopia science fiction and fantasy that depict encounters with alterity Indeed so called genre literature embodies a heuristic model that dramatizes and exacerbates these encounters by featuring exotic subhuman or post human beings that defy human knowledge elements particularly prevalent in science fiction and fantasy These genres have often been regarded as an entertaining or escapist field that does not lend itself to ethical and poetical reflections limiting its scope to a hollow and servile repetition of genre codes This volume shows unequivocally that this field does lend itself to such reflections The contributors to this book highlight genre literature's defamiliarising power through which things can be seen In meta conceptualising the relationship between language and reality it problematises and enhances this relation by making it more easily perceivable The book shows that rather than contenting itself with merely questioning the mechanism of estrangement genre literature explores the confines of readability and the boundary between the readerly and the writerly In their desire to represent the Other in all its complexity writers are indeed confronted with an ethical and poetical aporia how can what escapes humanity be described in human language How can human language represent things that have no known referent in the reader's world of experience This collection of essays reveals that the most prototypical traits of genre literature lie in the encounter with otherness and the linguistic issues this raises

Peeling Potatoes or Grinding Lenses Aristides Baltas,2014-03-13 I can work best now while peeling potatoes It is for me what lens grinding was for Spinoza L Wittgenstein

More than 250 years separate the publication of Baruch Spinoza's *Ethics* and Ludwig Wittgenstein's *Tractatus Logico Philosophicus*. Both are considered monumental philosophical treatises produced during markedly different times in human history and notoriously challenging to interpret. In *Peeling Potatoes or Grinding Lenses*, Aristides Baltas contends that these works bear a striking similarity based on the idea of radical immanence. Each purports to understand the world, thought, and language from the inside and in a way leading to the dissolution of all philosophy. In that guise, both offer a powerful argument against fundamentalism of all sorts and kinds. To Spinoza, God is just Nature; God is not above or separate from the world, humanity, or mere objects, for as Nature, He inheres in everything. To Wittgenstein, logic is not above or separate from language, thought, and the world. The hardness of the logical must inheres in states of affairs, facts, thoughts, and linguistic acts. Outside, there are no truths or sense, only nonsense. Through close readings of the texts based on lessons drawn from radical paradigm change in science, Baltas finds in both works a single-minded purpose, implacable reasoning, and an austerity of style that are rare in the history of philosophy. He analyzes the structure and content of each treatise, the authors' intentions, the limitations and possibilities afforded by scientific discovery in their respective eras, their radical opposition to prevailing philosophical views, and draws out the particulars as well as the implications of the arresting match between the two.

Perception Barry Maund, 2014-12-18. The philosophical issues raised by perception make it one of the central topics in the philosophical tradition. Debate about the nature of perceptual knowledge and the objects of perception comprises a thread that runs through the history of philosophy. In some historical periods, the major issues have been predominantly epistemological and related to scepticism, but an adequate understanding of perception is important more widely, especially for metaphysics and the philosophy of mind. For this reason, Barry Maund provides an account of the major issues in the philosophy of perception that highlights the importance of a good theory of perception in a range of philosophical fields while also seeking to be sensitive to the historical dimension of the subject. The work presents chapters on forms of natural realism, theories of perceptual experience, representationalism, the argument from illusion, phenomenological senses, types of perceptual content, the representationalist/intentionalist thesis, and adverbialist accounts of perceptual experience. The ideas of, among others, Austin, Dretske, Heidegger, Millikan, Putnam, and Robinson are considered, and the reader is given a philosophical framework within which to consider the issues.

Shakespeare / Text Claire M. L. Bourne, 2021-07-29. *Shakespeare Text* sets new agendas for the study and use of the Shakespearean text. Written by 20 leading experts on textual matters, each chapter challenges a single entrenched binary, such as book/theatre, source/adaptation, text/paratext, canon/apocrypha, sense/nonsense, extant/ephemeral, material/digital, and original/copy, that has come to both define and limit the way we read, analyze, teach, perform, and edit Shakespeare today. Drawing on methods from book history, bibliography, editorial theory, library science, the digital humanities, theatre studies, and literary criticism, the collection as a whole proposes that our understanding of Shakespeare and early modern drama more broadly changes radically when either or approaches to the

Shakespearean text are reconfigured The chapters in Shakespeare Text make strong cases for challenging received wisdom and offer new portable methods of treating the text in its myriad instantiations that will be useful to scholars editors theatre practitioners teachers and librarians Wittgenstein Kelly Dean Jolley,2014-12-05 Wittgenstein s complex and demanding work challenges much that is taken for granted in philosophical thinking as well as in the theorizing of art theology science and culture Each essay in this collection explores a key concept involved in Wittgenstein s thinking relating it to his understanding of philosophy and outlining the arguments and explaining the implications of each concept Concepts covered include grammar meaning and meaning blindness language games and private language family resemblances psychologism rule following teaching and learning avowals Moore s Paradox aspect seeing the meter stick and criteria Students new to Wittgenstein and readers interested in developing their understanding of specific aspects of his philosophical work will find this book very welcome **The Works of Jeremy Bentham, Now First Collected** Jeremy Bentham,1839 The Bleeding of Mozart Lucien Karhausen,2011 **Pragmatism as a Way of Life** Hilary Putnam,Ruth Anna Putnam,2017-05-15 Hilary Putnam argues that all facts are dependent on cognitive values Ruth Anna Putnam turns the problem around illuminating the factual basis of moral principles Together they offer a pragmatic vision that in Hilary s words serves as a manifesto for what the two of us would like philosophy to look like in the twenty first century and beyond Eschatology Michael Norton Blustein,2008 At the end of his life the poet encounters the End of Days Death Judgment Heaven and Hell in everything around him In his secular ironic way he meditates on the final destiny of humankind Personal life draws to a close and the trivial the sublime and the ridiculous commingle in the poem in the Kingdom of God that is within us and that we are within
