**Popular Punishment** Jesper Ryberg, Julian V. Roberts, 2014 Should public opinion determine or even influence sentencing policy and practice Should the punishment of criminal offenders reflect what the public regards as appropriate These deceptively simple questions conceal complex theoretical and methodological challenges to the administration of punishment In the West politicians have often answered these questions in the affirmative penal reforms have been justified with direct reference to the attitudes of the public This is why the contention that politicians should bridge the gap between the public and criminal justice practice has widespread resonance Criminal law scholars for their part have often been more reluctant to accept public input in penal practice and some have even held that the idea of consulting public opinion constitutes a populist approach to punishment The purpose of this book is to examine the moral significance of public opinion for penal theory and practice For the first time in a single volume the editors Jesper Ryberg and Julian V Roberts have assembled a number of respected criminologists philosophers and legal theorists to address the various aspects of why and how public opinion should be reflected in the way the criminal justice system deals with criminals The chapters address the myriad complexities surrounding this issue by first weighing the justifications for incorporating public views into punishment practices and then considering the various ways this might be achieved through juries prosecutors restorative justice programs and other means

**Justice Connections** Patricia Easteal, 2014-10-16 Former High Court judge of Australia the Hon Michael

Kirby AC CMG in addressing the symposium that has evolved into this book stressed the need for vigilance in the pursuit and protection of justice Justice Connections is evidence of such vigilance The book is a veritable smorgasbord of subjects violence against women Indigenous people sentencing genetic profiling cultural exceptionalism arbitral proceedings and environmental law However certain themes are constant The notion of respect for the individual and their personal characteristics underpins the analyses in the book Accordingly a number of contributors examine the need to recognise and protect the potentially vulnerable in society There is recognition too of the significance of the public interest and public participation in just policy and decision making Whilst the principle of the rule of law is a constant in civilised society another message of the book is that its form is very much an evolving beast Furthermore the book illustrates that justice is not synonymous with law but more as Professor Margaret Thornton concludes a performative idea that is played out differently in different sites by different actors
