*The Advocate* ,1996-06-11 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States      *Science, Scripture, and Homosexuality* Alice Ogden Bellis,Terry L. Hufford,2011-01-01 The collaborative work of a biblical scholar and a biology professor Science Scripture and Homosexuality addresses scripture passages relating to homosexuality and explains the foundation of genetics and the growing evidence suggesting an organic basis for sexual orientation The authors argue that the role of the homosexual as well as the heterosexual within the Church should be based upon common criteria for all Written in a highly accessible manner the book is ideal for congregational discussion      *The Sound of Bells* Norah Moore,2013 This book brings together the teachings of Meher Baba and the teachings of Carl Gustav Jung for the first time Many people would wish to bring together their inner experience of spirituality and psychological development Meher Baba did not come to bring a new religion but a philosophy that brought all religions together In this first book The Sound of Bells and Eastern Mysticism I looked at C G Jung s Analytical Psychology in the light of Meher Baba s book God Speaks In the second book of the trilogy Glowing Embers for the New Humanity God can only be Lived I brought a more detailed account of how this might be accomplished In the final book of the trilogy I turned to a more personal account of how I followed this path myself and summed up how the path has been followed throughout all the avataric ages      *Do Ask, Do Tell* Bill Boushka,2000 The original Bill of Rights sponsored largely by James Madison is now about 210 years old Reinforced by the Fourteenth Amendment which eventually applied many of its provisions to the states it has served us well It is time to re evaluate our fundamental constitutional rights and to seriously consider their major renovation This is my central proposal Are we ready to trust ourselves as individuals with the personal responsibilities that go with rights When government defines personal moral values we tend to take less account for not only our own actions but also our own underlying values for those spiritual yearnings that make us all unique people who we are We tend to lose interest in speaking for ourselves and tend to leave moral judgments to experts who get paid to pass judgment on all of us I discuss a philosophy often called libertarianism of extremely restricted government I present it from the personal perspective of a gay man who grew up in a period of enormous change and migration toward cultural individualism My argument is intended for everyone but I provide my own detailed perspectives on many issues The parallel between draft deferments during the Vietnam era and the gays in the military battle today How close the gay community as we know it came to total catastrophe during the early days of AIDS crisis What the family values debate is really all about Volunteerism and social obligations and how both military service and parenting fit into these What discrimination is really all about How the Don t Tell mentality interferes with political and social debate in many areas Why equal rights for gays is important for everybody A science of personal growth and why libertarianism is good for personal growth      **At the End of Time** Robin Robertson,2011-05-01 Many cycles predicting the

end of times fill our modern dialog from the coming of the Millennium to 2012 Robin Robertson helps to clarify these prophecies and offers insight into the central issues of our challenges and the experience and their life changing implications For eighteen hundred years the prophecies in the Book of Revelation have captured the collective Western imagination Saint John s rich imagery and the dramatic urgency of the looming disasters he predicts have both fascinated and frightened us with its apparent message that the end of time is near Robin Robertson Ph D deciphers the mystical theology and visions of the prophets seers and shamans His analysis incorporates the insights of modern mathematics and Chaos Theory as well as his personal insights gained through his work as a Jungian therapist and teacher Robertson holds a mirror to humanity s need to know Self and God He explains that Saint John s vision foretells the massive change in consciousness that is happening in our time

**Ethics, Sexual Orientation, and Choices about Children** Timothy F. Murphy, 2012 A critical review of the debate over the still hypothetical possibility of prenatal intervention by parents to select the sexual orientation of their children Parents routinely turn to prenatal testing to screen for genetic or chromosomal disorders or to learn their child s sex What if they could use similar prenatal interventions to learn or change their child s sexual orientation Bioethicists have debated the moral implications of this still hypothetical possibility for several decades Some commentators fear that any scientific efforts to understand the origins of homosexuality could mean the end of gay and lesbian people if parents shy away from having homosexual children Others defend parents rights to choose the traits of their children in general and see no reason to treat sexual orientation differently In this book Timothy Murphy traces the controversy over prenatal selection of sexual orientation offering a critical review of the literature and presenting his own argument in favor of parents reproductive liberty Arguing against commentators who want to restrict the scientific study of sexual orientation or technologies that emerge from that study Murphy proposes a defense of parents right to choose This he argues is the only view that helps protect children from hurtful family environments that is consistent with the increasing powers of prenatal interventions and that respects human futures as something other than accidents of the genetic lottery

Phenomenology/Ontopoiesis Retrieving Geo-cosmic Horizons of Antiquity Anna-Teresa Tymieniecka, 2011-08-10 The controversy of flux and stasis as the groundwork of reality of Greek ancient philosophy reached its crux in the all encompassing doctrine of the logos by Heraclitus of Ephesus It centers upon human soul in its role with the cosmos Philosophy of the Occident corroborating Greek insights with the progress of culture in numerous interpretations Kant Kierkegaard Husserl Merleau Ponty Ricoeur presented in this collection has neglected the cosmic sphere While contemporary development of science revealed its grounding principles papers by Grandpierre Kule and Trutty Coohill the ancient logos fully emerges Thus logos hitherto hidden in our commerce with earth is revealed in its intertwinings with the cosmos through the trajectories of the phenomenology ontoipoiesis of life Tymieniecka The crucial link between the soul and the cosmos in a new geo cosmic horizon is thus being retrieved

**Take Back the Word - A Queer Reading of the Bible** Robert E. Goss, Mona West, 2000-11-15 Perhaps the most revolutionary contribution of Take Back the Word is its presentation of resistant practices of reading the Bible that challenge oppressive applications of Scripture to clobber queer folk If lesbians gay men bisexuals transgender non gender conforming and questioning people are to take back the word of Scripture for themselves they must take it back in a new way Essays examine queer strategies for reading queer ethical models from the Hebrew Scriptures and queer good news stories from the Christian Scriptures *Searching for the Secrets of Nature* Simon Varey, Rafael Chabrán, 2000 This collection of essays by historians historians of science and medicine and literary and textual scholars from several countries analyzes the achievements of Dr Francisco Hernández 1515-87 author of the monumental *The Natural History of New Spain* in the history of medicine and science in Europe and the Americas **Individual Instruction** Lucille E. Ogle, 1929 **Configurations of the Individual in Modern Chinese Literature** Qin Wang, 2019-08-27 This book aims to demonstrate the multiplicity of configurations of the individual in modern Chinese literature through analyzing several classic texts written by Zhou Zuoren Lu Xun Lao She and Mu Shiying It attempts to refresh our understanding of the history of modern Chinese literature and indirectly responds to the controversial issue of individual rights or human rights in present day China showing that in modern Chinese literature various configurations of the individual imply political possibilities that are not only irreconcilable with each other but irreducible to the determination of the modern discourse of individualism introduced by the West A groundbreaking work it will give valuable context to political scientists and other scholars seeking to understand what China means in the 21st century *The Basic Writings of Josiah Royce, Volume I* John J. McDermott, 2018-09-18 Now back in print and in paperback these two classic volumes illustrate the scope and quality of Royce's thought providing the most comprehensive selection of his writings currently available They offer a detailed presentation of the viable relationship Royce forged between the local experience of community and the demands of a philosophical and scientific vision of the human

situation The selections reprinted here are basic to any understanding of Royce s thought and its pressing relevance to contemporary cultural moral and religious issues      **Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations for Fiscal Year 2008** United States. **Rutherford** A. S. Eve,2013-11-14 Originally published in 1939 this book contains a detailed biography of physicist chemist and Nobel Prize winner Ernest Rutherford      **Living with Darwin** Philip Kitcher,2009-04-28 Charles Darwin has been at the center of white hot public debate for more than a century In *Living With Darwin* Philip Kitcher stokes the flames swirling around Darwin s theory sifting through the scientific evidence for evolution Creation Science and Intelligent Design and revealing why evolution has been the object of such vehement attack Kitcher first provides valuable perspective on the present controversy describing the many puzzles that blocked evolution s acceptance in the early years and explaining how scientific research eventually found the answers to these conundrums Interestingly Kitcher shows that many of these early questions have been resurrected in recent years by proponents of Intelligent Design In fact Darwin himself considered the issue of intelligent design and amassed a mountain of evidence that effectively refuted the idea Kitcher argues that the problem with Intelligent Design isn t that it s not science as many critics say but that it s dead science raising questions long resolved by scientists But Kitcher points out that it is also important to recognize the cost of Darwin s success the price of life

with Darwin Darwinism has a profound effect on our understanding of our place in the universe on our religious beliefs and aspirations It is in truth the focal point of a larger clash between religious faith and modern science Unless we can resolve this larger issue the war over evolution will go on
