Creators and Created Beings in Twentieth-Century Latin American Fiction Amy Frazier-Yoder,2023-10-24 Characters are made scripted and invented but *Creators and Created Beings in Twentieth Century Latin American Fiction* explores what occurs when literary creations become creators themselves Representing Latin American fiction s increasingly skeptical gaze in the early to mid twentieth century these literary creators breach the metafictional frame in order to problematize themes including life and death gender and sexuality and technology Drawing upon a diverse range of literary works by canonical and non canonical authors including Jorge Luis Borges Horacio Quiroga Carlos Onetti Julio Cort zar Mar a Luisa Bombal Carlos Fuentes Roberto Arlt Juan Jos Arreola Eduardo Ladislao Holmberg Clemente Palma Adolfo Bioy Casares and Pedro Angelici this study excavates critical ontological and epistemological inquiries and delves into questions of identity power scientific knowledge and the transformative nature of fiction *Sefer Yetzirah* Aryeh Kaplan,1997-05-01 The *Sefer Yetzirah* is perhaps the oldest and most mysterious of all kabbalistic texts In this landmark work of mystical studies Rabbi Aryeh Kaplan brings the text s theoretical meditative and magical implications to light The book explores the dynamics of the spiritual domain the worlds of the sefirot souls and angels Rabbi Kaplan explains that when properly understood the *Sefer Yetzirah* becomes an instruction manual for a very special type of meditation meant to strengthen concentration and to aid in

the development of telekinetic and telepathic powers Through the use of various signs incantations and divine names initiates could also influence or alter natural events This translation includes the meditation in five dimensions the transition from binah to chakhmah consciousness the point of infinity kabbalistic astrology Ezekiel s vision according to the Sefer Yetzirah and the mystery of the 231 gates Also included is a digest of all major commentaries on the text of the Sefer Yetzirah and a bibliography of many of the major kabbalistic works that discuss it as well as extensive notes regarding the various aspects of the translation Rabbi Kaplan s translation is based on the Gra version of the text which is thought to be the most authentic Also included is the short version the long version and the Saadia version making this volume the most complete work on the Sefer Yetzirah available in English

Critique of a Metaphysics of Process Wim van den Dungen, **Son of Chicken Qabalah** Lon Milo DuQuette, 2018-11-01 This simultaneously funny and serious book provides the easiest fastest way for readers to painlessly attune themselves to the mysteries of the Hebrew alphabet and immerse themselves in the fundamentals of practical Qabalah It is a road map from the Godhead to your head a clear and lucid guide to an extremely complex mystical topic By performing the exercises and rituals in the book the reader can complete the self initiatory process comprising the three main degrees of Rabbi Lamed Ben Clifford s Practical Qabalah course

Metaphysics of the Profane Eric Jacobson, 2003 Walter Benjamin and Gershom Scholem are regarded as two of the foremost Jewish thinkers of the 20th century yet much of their early work remains obscure and under appreciated This volume concentrates on the period 1918 1923 when Benjamin and Scholem produced a dynamic body of ideas

Sefer Yetzirah, 1998-05-01 Two versions explaining Jewish Mystical Philosophy and the Cabala Considered to be the oldest known Jewish mystical text and now an important part of Cabalistic studies First appeared in historical records during the first century C E but its principles were passed down for centuries before this Written from the perspective of an observer who is relating the work of Gods creation step by step as it unfolds Often considered a meditative text focused upon more in the first translation by Kalisch and also as a magical text covered more clearly in the second version by Stenring If something is not made clear in one version it can likely be found in the other which is what makes this book so interesting Kalisch provides original Hebrew on one page with its English translation on the other A powerful mystical work and having access to two separate translations in one volume is of immense importance

God versus Language: Contrasting Metaphysical Methods of Wittgenstein's Tractatus and Langan's CTMU Jonathan Mize, 2020-01-03 Christopher Langan s Cognitive Theoretic Model of the Universe CTMU was first published no less than two decades ago Unfortunately however this work has received little attention from contemporary academia Mr Langan is often lambasted for his ostensible prolixity obscurantism and his writings supposed lack of rigor However if one holds steadfastly to one s own curiosity and powers of intellectual discernment one will unearth a theory that will indeed shake this very world as we know it In this book I endeavor through a cross analysis with Langan s work with that of Ludwig

Wittgenstein to illustrate the CTMU in all of its metaphysical and spiritual grandeur leading the reader to form his own conclusions about the theory
