Wilson Company,1929      *An Introduction to Personality Study* Raymond B. Cattell,2019-03-04 Originally published in 1950 the need for a small standard text on basic principles of personality structure and development had been very apparent to teachers of psychology for some time There were many books illustrating specialized or applied aspects of the psychology of personality such as abnormal psychology educational psychology child psychology mental measurement vocational guidance etc but lacking was a treatment of personality study as pure psychology concentrating on the fundamentals The aim of this title was therefore to bring the general problems of personality description and development normal and abnormal into a single perspective and to integrate the principle fields of observation in clear cut generalizations      **Standard Catalog for Public Libraries** H.W. How can we save ourselves This book looks at the example of those who leave the city and break the social contract rebellious exiles and freedom fighters escaping the wheel of necessity and learns from them **Striding Both Worlds** Melissa Kennedy, 2011-01-01 Striding Both Worlds illuminates European influences in the fiction of Witi Ihimaera Aotearoa New Zealand's foremost Māori writer in order to question the common interpretation of Māori writing as displaying a distinctive Māori world view and literary style Far from being discrete endogenous units all cultures and literatures arise out of constant interaction engagement and even friction Thus Māori culture since the 1970s has been shaped by a long history of interaction with colonial British Pakeha and other postcolonial and indigenous cultures Māori sovereignty and renaissance movements have harnessed the structures of European modernity nation building and more recently Western global capitalism transculturation and diaspora contexts which contest New Zealand bicultural identity encouraging Māori to express their difference and self sufficiency Ihimaera's fiction has been largely viewed as embodying the specific values of Māori renaissance and biculturalism However Ihimaera in his techniques modes and themes is indebted to a wider range of literary influences than national literary critique accounts for In taking an international literary perspective this book draws critical attention to little known or disregarded aspects such as Ihimaera's love of opera the extravagance of his baroque lyricism his exploration of fantasy and his increasing interest in taking Māori into the global arena In revealing a broad range of cultural and aesthetic influences and inter references commonly seen as irrelevant to contemporary Māori literature Striding Both Worlds argues for a hitherto frequently overlooked and undervalued depth and complexity to Ihimaera's imaginary The present study argues that an emphasis on difference tends to lose sight of fiction's capacity to appreciate originality and individuality in the polyphony of its very form and function In effect literary negotiation of Māori sovereign space takes place in its forms rather than in its content the uniqueness of Māori literature is found in the way it uses the common tools of literary fiction including language imagery the text's relationship to reality and the function of characterization By interpreting aspects of Ihimaera's oeuvre for what they share with other literatures in English Striding Both Worlds aims to present an additional complementary approach to Māori New Zealand and postcolonial literary analysis
