The work described in this book represents the latest research on theoretical concepts and applied projects within this field and brings together contributions from twenty nine countries representing all continents. Alex Cohen, Arthur Kleinman, Benedetto Saraceno, 2007-05-08 In the past dozen years the field of international mental health has been transformed from a sub discipline that attracted only a handful of anthropologists, psychiatrists and psychologists into a field that has now become a major concern in international public health. The World Mental Health Casebook will serve as a resource for those engaged in the widening efforts to address the burden of mental disorders in low income countries. The case studies contained here describe the Shanghai Model of psychiatric rehabilitation for persons with schizophrenia, an extraordinary mental health program for poor patients in Lima, Peru who are undergoing treatment for multi drug resistant tuberculosis, how Guatemalan refugee women in Mexico were trained to become mental health promoters, the development of mental health services in primary care settings in Nepal, the attempts to improve the lives of women in India through literacy programs, the radical reform of psychiatric services in Trieste, Italy and research from Fiji and Hong Kong that shows how traditional practices can lower the prevalence of post partum depression. Each case history through concrete and pragmatic examples offers lessons that can inform the functioning of services elsewhere. In general the Casebook will also encourage others to undertake careful documentation and evaluation of programs so that the mistakes of the past can be avoided and the successes replicated. **Children's Culture and Citizenship in Argentina**

Lauren Rea, 2023-11-08 Argentina's Billiken was the world's longest running children's magazine, publishing 5144 issues over one hundred years. It educated and entertained generations of schoolchildren and came to occupy a central role in Argentine cultural life. This volume offers the first academic history of the whole lifespan of Billiken as a print magazine through to its transition into a digital brand. As an editorial project founded at the time of the massification of print culture, Billiken was in the business of creating future citizens. From its transnational and literary beginnings, Billiken quickly became organised around the school year, offering valuable extra curricular material aligned to the patriotic drivers of state schooling. Billiken told the story of the Argentine nation cyclically and repeatedly, gaining such momentum that it became part of the nation's story itself. This volume adopts a multi disciplinary approach to take account of the many different facets of Billiken's content, born from a combination of ideological, commercial, political and cultural drivers. This history of Billiken examines the changes, contradictions and

continuities in the magazine over time as it responded to political events adapted to new commercial realities and made use of technological advances It explores how Billiken magazine not only reflected society but shaped it through its influence on childhoods children s culture and education and provides an alternative window onto the history and politics of a tumultuous hundred years for Argentina Moralejas Para El Alma Francisco Flores,2011-09-09 En este libro Moralejas para el alma Francisco Flores Hace una recopilacin De historias actuales de Reflexiones con un mensaje claro y directo Que nos transporta Hasta el punto ms sensible donde se unen los sentimientos Donde el coraje se convierte en llanto y la impotencia En esperanza Donde el extracto de lo vivido se convierte En un balance de conciencia Moralejas para el Alma Historias cortas Con un enorme mensaje Reflexiones que inspiran *Childhoods of the Global South* Manfred Liebel,2023-09-14 Children in the Global South continue to be affected by social disadvantage in our unequal post colonial world order With a focus on working class children in Latin America this book explores the challenges of promoting children s rights in a context of decolonization Liebel and colleagues give insights into the political lives of children and demonstrate ways in which the concept of children s rights can be made meaningful at the grassroots level Looking to the future they consider how collaborative research with children can counteract their marginalization and oppression in society **A Resource Guide for Child Care and Family Planning Services in the Maquiladora Industry** Paul Ganster,Dana V.
