Serial Composition and Atonality George Perle, **Serial Composition and Atonality** George Perle, 1991-04-11

Widely recognized as the definitive work in its field ever since its original publication in 1962 *Serial Composition and Atonality* remains an unsurpassed introduction to the technical features of what is probably the most revolutionary body of work since the beginnings of polyphony In the analysis of specific compositions there is first and last of all a concern with the musical surface an attempt to trace connections and distinctions there before offering any deeper level constructions and to offer none where their effects are not obvious on more immediate levels of musical experience In this sixth edition of the book George Perle employs the new and more consistent terminology for the identification of transpositional levels of twelve tone sets that he first proposed in *Twelve Tone Tonality* 1977 Conceptual Art Alexander Alberro, Blake

Stimson, 2000-08-25 This landmark anthology collects for the first time the key historical documents that helped give definition and purpose to the conceptual art movement Compared to other avant garde movements that emerged in the 1960s conceptual art has received relatively little serious attention by art historians and critics of the past twenty five years in part because of the difficult intellectual nature of the art This lack of attention is particularly striking given the tremendous influence of conceptual art on the art of the last fifteen years on critical discussion surrounding postmodernism and on the use of theory by artists curators critics and historians This landmark anthology collects for the first time the key historical documents that helped give definition and purpose to the movement It also contains more recent memoirs by participants as well as critical histories of the period by some of today s leading artists and art historians Many of the essays and artists statements have been translated into English specifically for this volume A good portion of the exchange between artists critics and theorists took place in difficult to find limited edition catalogs small journals and private correspondence These influential documents are gathered here for the first time along with a number of previously unpublished essays and interviews Contributors Alexander Alberro Art Language Terry Atkinson Michael Baldwin Robert Barry Gregory Battcock Mel Bochner Sigmund Bode Georges Boudaille Marcel Broodthaers Benjamin Buchloh Daniel Buren Victor Burgin Ian Burn Jack Burnham Luis Camnitzer John Chandler Sarah Charlesworth Michel Claura Jean Clay Michael Corris Eduardo Costa Thomas Crow Hanne Darboven Ra l Escari Piero Gilardi Dan Graham Maria Teresa Gramuglio Hans Haacke Charles Harrison Roberto Jacoby Mary Kelly Joseph Kosuth Max Kozloff Christine Kozlov Sol LeWitt Lucy Lippard Lee Lozano Kynaston McShine Cildo Meireles Catherine Millet Olivier Mosset John Murphy H lio Oiticica Michel Parmentier Adrian Piper Yvonne Rainer Mari Carmen Ramirez Nicolas Rosa Harold Rosenberg Martha Rosler Allan Sekula Jeanne Siegel Seth Siegelaub Terry Smith Robert Smithson Athena Tacha Spear Blake Stimson Niele Toroni Mierle Ukeles Jeff Wall Rolf Wedewer Ian Wilson
