Wouldn't you like to know today the standard by which you will be judged in eternity tomorrow That is exactly what Jesus does in the greatest sermon ever told The Sermon on the Mount Jesus said For I tell you that unless your righteousness surpasses that of the Pharisees and the teachers of the law you will certainly not enter the kingdom of heaven Mt 5:20 This opener provides the basis for His sermon which spans three chapters in Matthew In it Jesus provides for us a comparison between two kingdoms the kingdom of heaven and the kingdom of self In His sermon Jesus gives us all insight into what a true Christian looks like acts like sounds like and even thinks like The Pharisees were known for their strict adherence to the law and their traditions Jesus makes it clear to them and to us in this sermon that adherence to the law will not count for eternity Only by clothing oneself in Christ's righteousness can one hope for eternal life The world and even the Church at times attempts to redefine a Christian in a way that cheapens Christianity to make it more palatable and pleasing to the unbeliever Pastor and Martyr Dietrich Bonhoeffer called this cheap grace But the true Christian will not be measured by the world's or even the church's standards Each and every person will stand before a righteous Judge and be made to give an account for his or her life according to God's Word This book is a line by line explanation of Christ's expectations for every person who professes to be saved by the blood of Jesus Christ In essence it is a manual to help us all to understand what it means to be a Christian

We have many histories of social theory what different authors attempted to do as they responded to previous theories But we know precious little about how they did this in structural terms what scaffolding they adopted and adapted to make their claims Yet today's social thoughts largely employ structures passed down from previous generations structures that were developed to solve problems that are no longer ours In *The True, the Good, and the Beautiful* John Levi Martin explores these structures the resulting tensions and their broader significance for

sociological thought By examining how thinkers mapped interpersonal to intrapersonal structures he traces the development of the underlying architectonics of theory focusing on one that was inherited from eighteenth century philosophy and brought into social science in the nineteenth century He shows that the structural tensions inherent in these theories paralleled those being worked out in practical terms by constitutional theorists as thinkers attempted to return to their most fundamental understandings of the nature of the human the social and the political to recraft their societies A magisterial new interpretation of the foundations of sociological thought The True the Good and the Beautiful is as ambitious a work of social theory as we have seen in generations
