

## INTRODUCTION

- The goal of reading Scripture is to get you into the Word of God, and to get the Word of God into you.
- Since God has spoken, the next question is-What has God said?
- How can I read the Bible for all it's worth?
- One key is to read it as you would any other form of communication; taking it in the most obvious and natural sense.

## LIGHTS: A Methodology for reading the Bible for all it's worth

- Literal Principle of Biblical Interpretation
  - We are to take the Bible in the sense in which it is intended.
  - That does not mean we take biblical language in a woodenly literalistic sense...a simile is still a simile, a metaphor still a metaphor.
  - Jesus is the heir of the linguistic richness of the Old Testament. He doesn't turn that language into flat and literal prose but amplifies it.
- Illumination Principle of Biblical Interpretation
  - A model is a framework you impose on Scripture.
  - A proper methodology means understanding the art and science of biblical interpretation.
    - Biblical interpretation is an art because the more you do it, the better you get at it.
    - Biblical interpretation is a science because certain rules apply.
  - Exegesis: taking out of Scripture what God has placed there.
  - Eisegesis: reading into Scripture one's own pet theories.
- Grammar Principle of Biblical Interpretation
  - When we read a word in Scripture, we are not to re-interpret that word unnecessarily.
  - The rules of grammar are still the rules of grammar when we are reading the Bible.
- Historical Principle of Biblical Interpretation
  - This principle asks, "How did this text originally work as communication to people living in a specific time and place?"
  - The Book of Revelation is many things, but first it is seven love letters to a persecuted Bride experiencing the full fury of the Beast.
