Kohl, 2004-07-27 Winner of Grawemeyer Award In this remarkable and timely work in many ways the culmination of his systematic theology world renowned theologian Jurgen Moltmann stands Christian eschatology on its head Moltmann rejects the traditional approach which focuses on the End an apocalyptic finale as a kind of Christian search for the final solution He centers instead on hope and God's promise of new creation for all things Christian eschatology he says is the remembered hope of the raising of the crucified Christ so it talks about beginning afresh in the deadly end Yet Moltmann's novel framework deeply informed by Jewish and messianic thought also fosters rich and creative insights into the perennially nettling questions of eschatology Are there eternal life and personal identity after death How is one to think of heaven hell and purgatory What are the historical and cosmological dimensions of Christian hope What are its social and political implications In a heartbreakingly fragile and fragment world Moltmann's comprehensive eschatology surveys the Christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in God

s transformation raised myriad doctrinal questions particularly about the crucifix the cross with the figure of Christ and whether it should emphasize Jesus s suffering or his glorification How should Jesus s body be depicted alive or dead naked or dressed Should it be shown at all Robin Jensen s wide ranging study focuses on the cross in painting and literature the quest for the true cross in Jerusalem and the symbol s role in conflicts from the Crusades to wars of colonial conquest The Cross also reveals how Jews and Muslims viewed the most sacred of all Christian emblems and explains its role in public life in the West today

Camille,2009 *Courtly Love* Jean Markale,2000-11 A comprehensive examination of the rituals and philosophies that created and sustained medieval troubadour culture Debunks the myth of the platonic nature of courtly love showing the many sexual similarities to the Tantric practices of India Reveals how the roots of courtly love go back to the matriarchal cultures of neolithic times The widespread turmoil that shook Western Europe as it entered the new millennium with the year 1000 prompted a vast reevaluation of the chief tenets of society Foremost among these was a new way of looking at love and the place held by women in society The Christian inspired tradition that at best viewed women with contempt and often with outright fear and loathing was replaced by a new perspective one in which women enjoyed a central role as the inspiration for all male action For several hundred years courtly love with its emphasis on adultery carnal pleasures and the power of the feminine dominated European culture despite its flouting of conventional Christian morality Medieval historians by and large have tended to regard courtly love as a sterile parlor game for the upper classes To the contrary Jean Markale shows that the

stakes were much higher the roots of the ritual re created here go all the way back to the great mother goddess In addition the platonic nature attributed to these relationships is based on a misunderstanding of courtly love underneath the refined poetry of the troubadours verses flourished a system of sexual initiation that rivaled Indian Tantra
