HYDE. CLARKE,2018 **Sacred Serpent** A.J. Carmichael, This book frequently returns to the theme of duality particularly in relation to the serpent and the sun In addition to signifying danger dishonesty and death the serpent also symbolizes rebirth transformation and healing In a similar vein the sun represents both harshness and destruction in addition to life energy and growth The investigation of this duality implies that knowledge of these two facets is necessary to comprehend both the natural world and the human predicament The distinction between

mythology and historical truth is becoming increasingly hazy demonstrating how actual occurrences and cultures have shaped myths and legends and how those have in turn influenced them It is argued that myths are more than just fantastic stories rather they have deep roots in societal advancements and human experiences This emphasizes how crucial mythology is to how we perceive the world and ourselves The book explores the symbolic meanings of the sun and serpent in psychology Based on Carl Jung s theories of archetypes and the collective unconscious it clarifies why these symbols are so universally recognizable and appealing The symbols are believed to resonate with deeply ingrained psychological concepts and experiences that everyone shares making them useful tools for reflection and understanding of behavior in others Numerous studies conducted in a range of cultural contexts highlight the idea that human belief systems are both universal and diverse The book provides examples of how various societies have integrated and understood the symbols of the sun and the serpent in ways that are particular to their own historical settings and cultural norms This demonstrates the diversity of human expression in culture and the interdependence of human societies *Consecration Rituals in South Asia* István

Keul,2017-02-06 The essays in the volume *Consecration Rituals in South Asia* address the ritual procedures that accompany the installation of temple images in Shaiva Vaishnava Buddhist and Jain contexts in various traditions and historical periods Through the performance of complex rites designated with the term *pranapratishta* establishment of or infusion with life man made sculptures are ritually transformed into receptacles of deities The collection is thematically and methodically broad with a large number of detailed textual studies but also with ethnographic contributions that discuss contemporary instances of consecration rituals Among the overarching themes are issues related to historical continuity and change as well as transformational moments in such rituals Contributors are Marie Luce Barazer Billoret Marzenna Czerniak Dro d owicz Ronald M Davidson Shingo Einoo Marko Geslani Dominic Goodall Ellen Gough Istv n Keul Elisabeth Raddock S A S Sarma Anna A l czka Annette Wilke **Asian Review** ,1897 Beginning in 1895 includes the Proceedings of the East India Association
