Shallow Graves In Siberia:

Shallow Graves in Siberia Michael Krupa, 1997-12-01 **The Urals and Western Siberia in the Bronze and Iron Ages** Ludmila Koryakova, Andrej Vladimirovich Epimakhov, 2014-03-24 This book is the first synthesis of the archaeology of the Urals and Western Siberia. It presents a comprehensive overview of the late prehistoric cultures of these regions which are of key importance for the understanding of long term changes in Eurasia. At the crossroads of Europe and Asia the Urals and Western Siberia are characterized by great environmental and cultural diversity which is reflected in the variety and richness of their archaeological sites. Based on the latest achievements of Russian archaeologists this study demonstrates the temporal and geographical range of its subjects starting with a survey of the chronological sequence from the late fourth millennium BC to the early first millennium AD. Recent discoveries contribute to an understanding of issues such as the development of Eurasian metallurgy, technological and ritual innovations, pastoral nomadism and its role in Eurasian interactions and major sociocultural fluctuations of the Bronze and Iron Ages.

In Search of Staszewski Kenneth Fedzin, 2014-04-28 However horrible the past may have been, forgetting it would make the future even worse. International Historical Enlightenment Human Rights and Humanitarian Society Memorial Moscow Set around the time of the 1863 Uprising and World War II, *In Search of Staszewski* is a powerful and moving real life account of a Polish family's six year ordeal and fight for survival under Soviet Oppression. Focusing on a family that were victims of Tsarist Russia's oppression, the book also investigates Stalin's brutal regime and the dreaded Gulag system where in addition to millions of Russian citizens, hundreds of thousands of innocent Poles died as a result. Some survived and escaped the Soviet paradise going on to fight courageously alongside allied forces during World War II. Investigated and told by the son of a survivor who only learned the truth after the sudden death of his father, two strands of detailed investigation are woven into an emotional journey of discovery uncovering the shocking details his father was so reluctant to speak about. *In Search of Staszewski* is not only the story of a fight for survival by four generations of one family but also of a people's struggle to preserve their cultural and national identity in the face of powerful neighbours. Inspired by authors such as Norman Davies, Orlando Figes and Pulitzer Prize winner Anne Applebaum, *In Search of Staszewski* uncovers the truth surrounding a little known and largely untold episode of World War II history that will surprise and shock fans of historical and biographical non-fiction works.

History Beyond the Text Sarah Barber, Corinna Peniston-Bird, 2013-02-01 Historians are increasingly looking beyond the traditional and turning to visual, oral, aural and virtual sources to inform their work. The challenges these sources pose require new skills of interpretation and require historians to consider alternative theoretical and practical approaches. In order to help historians successfully move beyond traditional text, Sarah Barber and Corinna Peniston-Bird bring together chapters from historical specialists in the fields of fine art, photography, film, oral history, architecture, virtual sources, music, cartoons, landscape and material culture to explain why, when and how these less traditional sources can be used. Each

chapter introduces the reader to the source suggests the methodological and theoretical questions historians should keep in mind when using it and provides case studies to illustrate best practice in analysis and interpretation Pulling these disparate sources together the introduction discusses the nature of historical sources and those factors which are unique to and shared by the sources covered throughout the book Taking examples from around the globe this collection of essays aims to inspire practitioners of history to expand their horizons and incorporate a wide variety of primary sources in their work
